Zilan 4113

Zilan Electric Heating Blanket User Manual

Model: 4113

Introduction

This user manual provides essential information for the safe and effective operation, maintenance, and care of your Zilan Electric Heating Blanket. Please read this manual thoroughly before first use and retain it for future reference. This electric heating blanket is designed to provide soothing warmth for personal comfort and can assist in alleviating discomfort from muscle tension, cramps, and general cold.

Important Safety Instructions

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before using this heating blanket.
- Do not use this blanket with an infant, a child, an invalid, or any person insensitive to heat, such as a person with poor blood circulation.
- Do not use this blanket in conjunction with another heating appliance.
- Do not use this blanket if it is wet.
- Do not use pins or other metallic objects with this blanket. They may damage the electrical wiring.
- Do not fold, crease, or bunch the blanket during use. Ensure it lies flat.
- Do not use the blanket if the cord or plug is damaged.
- Always unplug the blanket from the electrical outlet when not in use.
- This blanket is for domestic use only. Do not use outdoors.
- The heating blanket only gets pleasantly warm according to medical standards, not hot. This is a safety feature.
- Do not use the electric blanket as a medical heat source.
- The blanket is equipped with an overheat protection system and automatically turns off after 10 hours.

Product Overview

The Zilan Electric Heating Blanket (Model 4113) is a comfortable and efficient way to provide warmth. It features a soft polar fleece material, a detachable remote control for easy operation, and multiple safety features.

Image: The Zilan Electric Heating Blanket, folded neatly, with its white remote control unit visible. The blanket is black and made of soft fleece material.

Components:

- Electric Heating Blanket (150 x 80 cm)
- Detachable Remote Control Unit with Power Cord (approx. 2m length)

Setup

1. Unpack the heating blanket and remote control unit from its packaging.
2. Ensure the blanket is completely unfolded and lies flat on the bed or surface where it will be used. Do not fold, crease, or bunch the blanket.
3. Connect the remote control unit to the blanket by firmly inserting the connector into the blanket's socket. Ensure a secure connection.
4. Plug the power cord of the remote control unit into a standard 230V / 50Hz electrical outlet.

Image: A person's legs and hands are visible, covered by the black Zilan heating blanket while sitting on a bed. The remote control is held in hand, demonstrating typical use.

Operating Instructions

The Zilan Electric Heating Blanket features 5 temperature levels and a 10-hour automatic shut-off timer.

1. **Turning On:** Press the "ON" button on the remote control unit. The display will illuminate, and the blanket will begin to heat.
2. **Adjusting Temperature:** Press the "Temp" button to cycle through the 5 temperature levels. The current level will be displayed on the remote. Select the desired warmth level.
3. **Setting the Timer:** Press the "Time" button to set the desired operating duration. The blanket has a built-in 10-hour timer, after which it will automatically shut off for safety.
4. **Turning Off:** Press the "OFF" button on the remote control unit to turn off the blanket. Always unplug the blanket from the power outlet after use.

Maintenance and Care

Proper care will ensure the longevity and safe operation of your heating blanket.

- **Cleaning:** The blanket is washable at 30°C. Before washing, always disconnect the remote control unit from the blanket.
- **Washing Instructions:**
    a. Ensure the blanket is unplugged and the remote control is detached.
    b. Machine wash on a gentle cycle at a maximum of 30°C.
    c. Do not bleach or iron the blanket.
    d. Do not dry clean.
    e. Line dry or tumble dry on low heat until completely dry. Ensure the blanket is fully dry before reattaching the

control unit and using.

- **Storage:** When not in use, store the blanket in a cool, dry place. Avoid folding it tightly or placing heavy objects on it, which could damage the internal wiring.

Troubleshooting

Problem	Possible Cause	Solution
Blanket does not heat up.	Not plugged in; remote control not properly connected; power outage; overheat protection activated.	Ensure plug is fully inserted into outlet. Check connection between blanket and remote. Verify power supply. Unplug and allow to cool for 30 minutes, then try again.

Problem	Possible Cause	Solution
Blanket is not hot enough.	Temperature setting is too low; blanket is designed to be pleasantly warm, not hot.	Increase temperature setting. Note that the blanket is designed for soothing warmth, not high heat, as a safety measure.
Blanket turns off unexpectedly.	10-hour auto shut-off timer activated; overheat protection activated.	This is normal operation for the 10-hour timer. If it turns off before 10 hours, unplug and allow to cool for 30 minutes before restarting.

Specifications
