MAINTENANCE AND CARE

To ensure the longevity and appearance of your Furmax Vanity Desk Set, follow these care instructions:

- **Cleaning the Surface:** Wipe the wooden desktop and frame gently with a damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Dry immediately with a clean, soft cloth.
- **Mirror Cleaning:** Use a glass cleaner and a soft, lint-free cloth to clean the mirror surface. Avoid spraying cleaner directly onto the mirror frame or light bulbs.

- **Stool Care:** The faux leather seat can be wiped clean with a damp cloth. Avoid harsh chemicals.
- **Avoid Excessive Moisture:** Do not expose the vanity to excessive moisture or direct sunlight, as this may cause warping or discoloration.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Tighten if necessary.

TROUBLESHOOTING

If you encounter any issues with your Furmax Vanity Desk Set, please refer to the following common troubleshooting tips:

Lighted Mirror Issues

- **Lights Not Turning On:** Ensure the power cable is securely plugged into both the mirror and a working power outlet. Check if the outlet itself is functional.
- **Lights Not Changing Color/Brightness:** Ensure you are using the touch-sensitive button correctly (tap for mode change, press and hold for brightness). If the issue persists, try unplugging and replugging the mirror to reset it.
- **Uneven Lighting:** Verify that all light bulbs are securely screwed in.

Drawer Issues

- **Drawers Not Closing Fully:** Check for any obstructions inside the drawer or along the drawer slides. Ensure the drawer slides are properly aligned and installed according to the assembly manual. Sometimes, slight adjustments to the slide rails can resolve this.
- **Drawers Sticking:** Ensure the drawer slides are clean and free of debris. A small amount of silicone lubricant can be applied to the slides if they are stiff.

General Stability

- **Wobbling Desk:** Re-check all assembly screws and ensure they are tightened. Make sure the vanity is placed on a flat, level surface.

Important Safety Note: While assembling, one can get seriously injured in the event of a mishap. Therefore, one should seek help when handling such pieces.
