SETUP AND ASSEMBLY

This desk offers two assembly methods for the L-shape configuration, allowing for left or right-hand orientation. Choose the orientation that best suits your space before beginning.

Tools Required (Included):

- Hex Key
- Screwdriver

Assembly Steps:

- 1. Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the "Package Contents" section to ensure all parts are present.
- 2. Assemble the Main Frame:** Connect the metal legs and support beams according to the provided diagrams. Ensure all screws are finger-tightened initially.
- 3. Attach Desktop Panels:** Secure the L-shaped desktop panels to the assembled frame. Pay attention to the orientation for your desired left or right configuration.
- 4. Install Storage Shelves/Monitor Stand:** The two-tier storage rack can be assembled in two ways: as a general storage area for books and items, or as a monitor stand to elevate your screen for ergonomic viewing. Attach it to the designated area on the desk.
- 5. Integrate Power Strip Unit:** Mount the power strip unit, which includes 2 AC outlets and 2 USB charging ports, into its designated slot on the desktop. Connect its power cable.
- 6. Install LED and Reading Lights:** Affix the two RGB LED light strips and the warm yellow reading lamp strip to the underside of the upper shelves or designated areas. Connect them to the power source.
- 7. Attach Accessories:** Install the CPU holder and iron hooks as desired for cable management or headphone storage.
- 8. Final Tightening:** Once all components are in place and aligned, systematically tighten all screws using the provided tools. Do not overtighten.

OPERATING INSTRUCTIONS

Power Outlets and USB Charging Ports:

- Plug the desk's main power cord into a standard wall outlet.
- Use the 2 AC outlets (220-250V/15A) to power your computer, monitor, or other electronic devices.
- Use the 2 USB charging ports (5V/2.1A) to charge smartphones, tablets, gaming controllers, or other USB-powered devices.
- Ensure devices are compatible with the provided voltage and current.

LED Lighting System:

The desk features three light strips: one warm yellow reading lamp and two color-changing RGB LED strips.

- **Reading Lamp:** Activate the warm yellow light for focused work or study, designed to be gentle on the eyes.
- **RGB LED Lights:** Turn on the color-changing LED lights to create an immersive gaming atmosphere or to match your room's aesthetic. Control options (e.g., color, brightness, mode) are typically managed via a small controller or switch integrated with the lighting system. Refer to the specific light strip's instructions for detailed control.

MAINTENANCE

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Dusting:** Regularly dust the desk and shelves to prevent buildup.
- **Tightening Screws:** Periodically check and retighten all screws to ensure the desk remains stable and secure.
- **Electrical Components:** Keep the power strip and LED lights dry. If any electrical component is damaged, discontinue use and contact customer service.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Desk is wobbly/unstable.	Screws are loose; uneven floor.	Check and tighten all assembly screws. Adjust leveling feet if present, or place shims under legs on uneven surfaces.

Problem	Possible Cause	Solution
Power outlets/USB ports not working.	Desk not plugged in; power strip switch off; overloaded circuit; faulty unit.	Ensure the desk's power cord is securely plugged into a working wall outlet. Check if the power strip has an on/off switch and if it's in the 'on' position. Unplug some devices if overloaded. If still not working, contact customer service.
LED lights not illuminating.	Not connected to power; faulty light strip/controller.	Ensure the light strips are properly connected to their power source and the desk's power unit. Check the light controller for power. If issues persist, contact customer service.
Difficulty assembling.	Incorrect part orientation; missing steps.	Review the assembly instructions and diagrams carefully. Ensure parts are oriented correctly (e.g., for left/right L-shape). Do not force parts together.
