LivePure LP485HUM

LivePure LP485HUM Ultrasonic Humidifier User Manual

Model: LP485HUM | Brand: LivePure

1. INTRODUCTION

Thank you for choosing the LivePure LP485HUM Ultrasonic Humidifier. This manual provides important information for the safe operation, maintenance, and troubleshooting of your humidifier. Please read it thoroughly before use and retain it for future reference.

Important Safety Instructions

- Always place the humidifier on a firm, flat, water-resistant surface.
- Do not immerse the humidifier base in water or other liquids.
- Unplug the unit from the power outlet before filling, cleaning, or when not in use.
- Keep the humidifier out of reach of children and pets.
- Do not block air vents or mist outlet.
- Use only clean, cool tap water. Distilled water is recommended to prevent mineral buildup.
- Do not add essential oils directly into the water tank; use the designated essential oil tray.
- Do not operate the humidifier if any part is damaged.

2. PRODUCT FEATURES

- **Efficient Humidification:** Advanced ultrasonic technology provides consistent mist output for ideal humidity levels.
- **Quiet Operation:** Designed for quiet performance, allowing for undisturbed work, sleep, or relaxation.
- **Long-Lasting Performance:** Large water tank capacity provides up to 40 hours of continuous mist, reducing frequent refills.
- **Compact & Space-Saving Design:** Fits seamlessly into various rooms, enhancing air quality and decor.
- **User-Friendly Setup:** Equipped with easy-to-use controls and adjustable mist settings.
- **360-Degree Rotatable Dual Port Nozzle:** Allows for customizable and multidirectional mist flow.
- **Automatic Shut Off:** Enhances safety by turning off the unit when water level is low.
- **Soft-Touch One Button Control:** Simplifies operation.
- **Essential Oil Tray:** For diffusing essential oils without affecting the water tank.
- **Filterless Design:** Simplifies maintenance.
- **Top Fill Design:** For convenient and mess-free water refilling.

**Customizable and Multidirectional
Mist Flow**

**Produces Cool Mist
Making It Safer**

**Filterless Design Makes
for Easy Maintenance**

3. PACKAGE CONTENTS

- One (1) LivePure LP485HUM Ultrasonic Humidifier Unit

4. PARTS IDENTIFICATION

Familiarize yourself with the components of your humidifier:

LivePure LP485HUM Ultrasonic Humidifier

Image: Front view of the LivePure LP485HUM Ultrasonic Humidifier with key features labeled, including the 360-degree rotatable dual port nozzle, ultrasonic mist operation, automatic shut off, soft-touch one button control, and essential oil tray.

- **360-Degree Rotatable Dual Port Nozzle:** Directs mist in desired directions.
- **Ultrasonic Mist Operation:** Generates fine, cool mist.
- **Automatic Shut Off:** Safety feature when water runs low.
- **Soft-Touch One Button Control:** For power and mist settings.
- **Essential Oil Tray:** For adding aromatherapy oils.
- **Water Tank:** Holds water for humidification.
- **Base Unit:** Contains the ultrasonic transducer and electronic components.

Modern and Moisturizing

Tabletop design that uses vibration to create cool mist

Image: The LivePure LP485HUM Humidifier displaying its dimensions, with a width of 8.4 inches and a height of 14.4 inches, illustrating its compact tabletop design.

The humidifier's compact design makes it suitable for various spaces.

- **Top Fill Design**
- **Large 10+ Cup Water Tank Capacity**
- **Easy Maintenance and Cleaning**

Image: The LivePure LP485HUM Humidifier demonstrating its top-fill design, with a pitcher pouring water directly into the open top of the water tank. This highlights the ease of refilling.

The humidifier features a convenient top-fill design for easy water replenishment.

5. SETUP

1. **Unpack:** Carefully remove the humidifier from its packaging. Retain packaging for storage or return if needed.
2. **Placement:** Place the humidifier on a firm, flat, water-resistant surface at least 6 inches (15 cm) away from walls and furniture. Ensure the mist outlet is not directed at walls or electronics.
3. **Fill Water Tank:**
 - Ensure the unit is unplugged.
 - Open the top cover of the humidifier.
 - Pour clean, cool tap water directly into the water tank. Do not exceed the maximum fill line. Distilled water is recommended to minimize mineral buildup.
 - Close the top cover securely.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.

6. OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the soft-touch power button (usually indicated by a power symbol) once to turn the humidifier on. Press it again to turn it off.
2. **Adjust Mist Output:** The humidifier features adjustable mist settings. Repeatedly press the power button to cycle through different mist levels (e.g., Low, Medium, High). The indicator light will change to reflect the selected setting.
3. **Adjust Mist Direction:** Rotate the 360-degree dual port nozzle on top of the unit to direct the mist flow as desired.
4. **Using the Essential Oil Tray:**
 - Locate the essential oil tray, typically a small drawer or compartment on the side or back of the base unit.
 - Add a few drops of your preferred essential oil onto the aroma pad (if included) or directly into the tray.
 - Close the tray. The mist will carry the aroma into the air.
 - Do not add essential oils directly into the water tank, as this can damage the unit.
5. **Automatic Shut-Off:** The humidifier will automatically turn off when the water level in the tank is too low. Refill the tank to resume operation.

7. MAINTENANCE

Regular cleaning is essential for optimal performance and hygiene. Always unplug the humidifier before cleaning.

Daily Maintenance

- Empty any remaining water from the tank and base.
- Rinse the water tank and base with fresh water.
- Wipe the exterior with a soft, damp cloth.

Weekly Maintenance (or every 3-5 days of use)

- **Clean Water Tank:**
 - Remove the water tank from the base.
 - Fill the tank with a mixture of equal parts white vinegar and water.
 - Let it soak for 20-30 minutes.
 - Brush the inside of the tank with a soft brush to remove any mineral deposits.
 - Rinse thoroughly with clean water until the vinegar smell is gone.
- **Clean Base Unit & Transducer:**
 - Pour a small amount of white vinegar onto the ultrasonic transducer (the small metal disc) and the surrounding area in the base.
 - Let it soak for 10-15 minutes.
 - Gently scrub the transducer and base with a soft brush or cotton swab to remove mineral buildup. Do not apply excessive force.
 - Rinse the base thoroughly with clean water, ensuring no water enters the air outlet.
 - Wipe dry with a clean cloth.
- **Essential Oil Tray:** Clean the essential oil tray and replace the aroma pad if necessary.

Note: This humidifier features a filterless design, eliminating the need for filter replacement.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or very little mist	<ul style="list-style-type: none"> No water in tank Mineral buildup on transducer Unit not properly assembled Power cord not plugged in 	<ul style="list-style-type: none"> Refill water tank Clean the ultrasonic transducer (see Maintenance section) Ensure all parts are correctly assembled Plug in the power cord securely
