SAFETY INFORMATION

To prevent potential hazards and ensure safe use of the SortWise Portable Closet Wardrobe, please observe the following safety guidelines:

- Ensure the wardrobe is properly assembled according to the instructions.
- Do not overload shelves or hanging rods. Distribute weight evenly.
- Keep children away from the wardrobe during assembly to prevent injury from small parts.
- Avoid placing heavy objects on top of the wardrobe.
- If possible, anchor the wardrobe to a wall to prevent tipping, especially in households with children or pets.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. The package should contain:

- Steel Pipes (various lengths)
- PP Plastic Connectors
- Non-Woven Fabric Shelves
- Non-Woven Fabric Cover with Zippers and Velcro
- Hanging Rods
- Instruction Manual

Product Size

SETUP AND ASSEMBLY

The SortWise Portable Closet Wardrobe is designed for easy assembly without the need for special tools. Follow these steps:

1. **Identify Components:** Separate the steel pipes by length and identify the different types of plastic connectors (e.g., T-connectors, L-connectors).
2. **Assemble Base Frame:** Connect the shortest steel pipes to the plastic connectors to form the base frame of the wardrobe. Ensure all connections are secure.
3. **Build Vertical Structure:** Insert longer steel pipes into the vertical openings of the connectors to build the upright sections.
4. **Install Shelves:** Slide the non-woven fabric shelves over the horizontal steel pipes at the desired levels. Ensure they are taut and properly supported.
5. **Add Hanging Rods:** Install the hanging rods into the designated connectors for the clothes hanging section.
6. **Complete Top Frame:** Connect the remaining steel pipes and connectors to form the top frame of the wardrobe.

7. **Apply Fabric Cover:** Carefully drape the non-woven fabric cover over the assembled frame. Ensure the zippers align correctly with the front opening.

The plastic connectors are made from new PP material, designed for durability and resistance to breakage.

OPERATING AND USAGE

Your SortWise Portable Closet Wardrobe offers versatile storage solutions:

- **Storage Capacity:** Utilize the hanging rod for longer garments and the 5 compartments for folded clothes, accessories, or storage boxes. This design maximizes your closet space.
- **Dust Protection:** The non-woven fabric cover can be rolled up and secured with Velcro for easy access, or zipped down to protect contents from dust.
- **Moisture Protection:** The wardrobe features a high-leg design, elevating the bottom 10cm from the floor. This helps keep your clothes away from moisture, especially in damp conditions, and allows for easy cleaning underneath.
- **Waterproof Tiers:** The fabric tiers are designed with a waterproof lining to further protect items from moisture.
- **Side Pockets:** Four storage bags are integrated on the right side of the cover for small items like brushes,

shoelaces, umbrellas, or keys.

HIGH-LEG DESIGN AT THE BOTTOM

Convenient for cleaning and cleaning, it can allow the sweeping robot to pass through, and it can also be used to store shoes.

Figure 5: High-leg design for moisture protection and under-wardrobe storage.

WATERPROOF NON WOVEN FABRIC

Figure 6: Waterproof non-woven fabric for enhanced protection.

MAINTENANCE

To maintain the condition and appearance of your portable closet wardrobe:

- **Cleaning:** Wipe the non-woven fabric cover and shelves with a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the exterior and interior surfaces.
- **Inspection:** Periodically check all connections to ensure they remain secure. Re-tighten if necessary.
- **Fabric Care:** The non-woven fabric is thickened for durability. Avoid sharp objects that could tear the material.

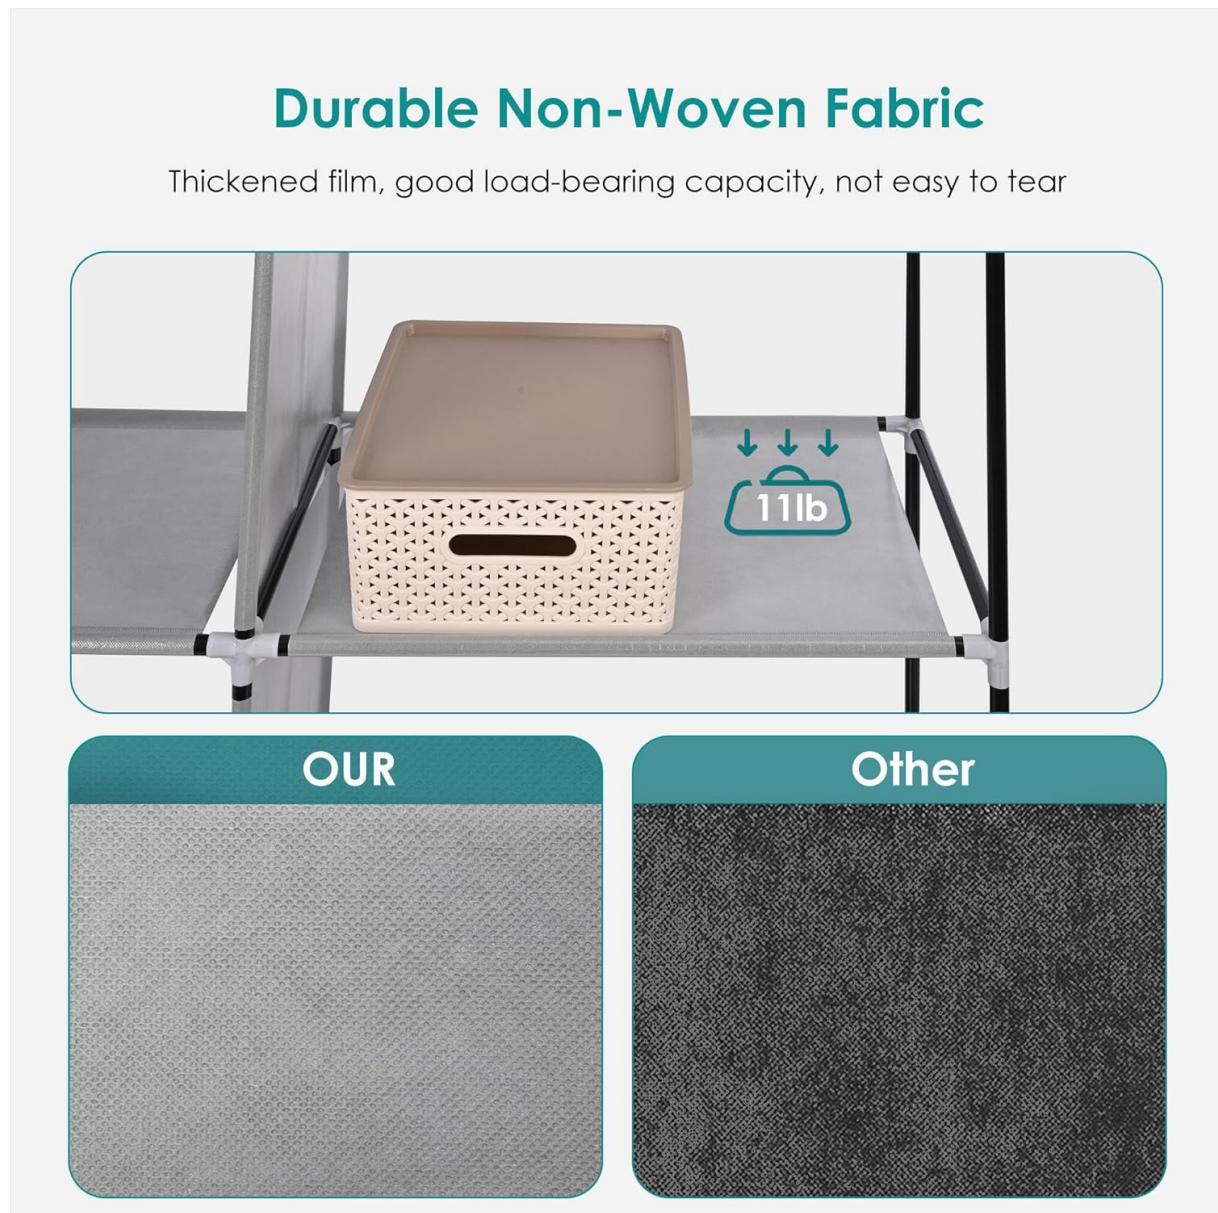

Figure 7: Comparison illustrating the durable non-woven fabric.

TROUBLESHOOTING

If you encounter issues with your SortWise Portable Closet Wardrobe, consider the following:

- **Wardrobe Instability:** Ensure all steel pipes are fully inserted into the plastic connectors. Verify that the wardrobe is placed on a flat, level surface. Avoid uneven weight distribution.

- **Fabric Cover Not Fitting:** Check that the frame is assembled to the correct dimensions. Ensure the cover is oriented correctly before attempting to zip it closed.
- **Tearing Fabric:** Avoid overstuffing compartments or hanging excessively heavy items that could strain the fabric. Ensure no sharp edges are exposed on the frame that could snag the material.
