## SETUP AND ASSEMBLY

---

Assembly of the Armocity Corner Closet System requires careful attention to detail. It is recommended that two individuals perform the installation due to the size and weight of the components. Ensure all parts are present before beginning assembly. The unit is freestanding, but for enhanced safety and stability, it is crucial to install the two anti-falling gaskets provided. These gaskets help secure the unit to the wall, preventing accidental tipping.

### Assembly Steps:

2. Follow the step-by-step instructions provided in the physical assembly manual.
3. Assemble the main frame and shelves according to the diagrams.
4. Install the two hanging rods securely into their designated positions.
5. Once the unit is assembled and placed in its desired corner, attach the anti-falling gaskets to the top rear of the unit and secure them to the wall using appropriate fasteners.
