FABULETTA FSV006

Fabuletta FSV006 HEPA Filter Instruction Manual

For Fabuletta Cordless Stick Vacuum Cleaners

1. INTRODUCTION

This instruction manual provides essential information for the proper installation and maintenance of your Fabuletta FSV006 HEPA filters. Regular replacement and cleaning of the filter are crucial for maintaining the optimal performance and suction power of your Fabuletta cordless stick vacuum cleaner. Please read this manual thoroughly before use.

2. PRODUCT OVERVIEW

The Fabuletta FSV006 HEPA filters are designed to capture fine dust particles and allergens, ensuring cleaner air output from your vacuum cleaner. This package includes four replacement filters, providing a convenient supply for regular maintenance.

Image 2.1: Four Fabuletta FSV006 HEPA filters, ready for use.

These filters are an integral part of the vacuum's multi-layer filtration system, designed to efficiently separate dust and debris from the airflow.

Video 3.1: This video demonstrates the compatibility of the filter with various vacuum cleaner models, including Fabulettta FSV001, FSV101, Girnoor G160, G165, Afoddon A300, Lubluelu 202, Oraimo OSV-102, Besswin W26, and VaLife VL732/206.

4. INSTALLATION INSTRUCTIONS

Replacing the HEPA filter in your Fabulettta FSV006 vacuum cleaner is a simple two-step process that requires no additional tools. Follow these steps for proper installation:

1. **Remove the Dust Cup:** Locate the dust cup release button on your vacuum cleaner and press it to detach the dust cup from the main unit.
2. **Remove the Old Filter:** Twist or pull the old HEPA filter out from the dust cup. Dispose of the old

filter responsibly.

3. **Insert the New Filter:** Place the new Fabuletta FSV006 HEPA filter into the dust cup, ensuring it is seated correctly and securely.
4. **Reattach the Dust Cup:** Align the dust cup with the main vacuum unit and push it firmly until it clicks into place.

For a visual guide, please refer to the installation video below:

5. MAINTENANCE AND CLEANING

To ensure optimal performance and prolong the life of your HEPA filter, regular cleaning is recommended. The Fabuletta FSV006 HEPA filter is reusable and can be cleaned by rinsing it under running water.

1. **Remove the Filter:** Follow steps 1 and 2 from the Installation section to remove the filter from the dust cup.
2. **Rinse Under Water:** Hold the filter under cool, running water. Gently brush away any accumulated dust or debris using a soft brush (a small cleaning brush is often included with vacuum accessories).
3. **Air Dry Completely: Important:** Allow the filter to air dry completely for at least 24 hours before reinserting it into the vacuum cleaner. Do not use a dryer or any heating device, as this can damage the filter material. Ensure it is completely dry to prevent mold growth and maintain filtration efficiency.
4. **Reinstall:** Once completely dry, reinstall the filter by following steps 3 and 4 from the Installation section.

It is recommended to replace the HEPA filter every 3-6 months, depending on usage, to maintain peak performance.

6. SPECIFICATIONS

Brand	FABULETTA
Model Info	FSV006 HEPA
Item Weight	5 ounces
Product Dimensions	3.14 x 2.75 x 4.52 inches
Material Type	Paper
Compatible Device	Fabuletta FSV006 Cordless Stick Vacuum Cleaner
Reusability	Reusable (rinse and air dry)

7. TROUBLESHOOTING

- **Reduced Suction:** If you experience reduced suction, check if the filter is clogged. Clean or replace the filter as per the maintenance instructions.
- **Filter Not Fitting:** Ensure you have the correct filter model (FSV006 HEPA) for your vacuum cleaner. Refer to the compatibility section.
- **Unusual Odor:** A persistent odor might indicate that the filter needs thorough cleaning or replacement. Ensure the filter is completely dry before reinstallation.

8. WARRANTY AND SUPPORT

For warranty information or further assistance with your Fabuletta FSV006 HEPA filters or vacuum cleaner, please refer to the original vacuum cleaner manual or contact Fabuletta customer support directly. Contact details can typically be found on the manufacturer's website or the product packaging.
