SETUP

1. **Assemble the Keyboard Stand:** Unfold the H-style keyboard stand and adjust it to a comfortable height. Ensure all locking mechanisms are securely fastened to prevent wobbling.
2. **Assemble the Padded Stool:** Unfold the padded stool and ensure it is stable.
3. **Place the Keyboard:** Carefully place the 61-key electronic keyboard onto the assembled stand. Ensure it is centered and stable.
4. **Attach the Music Stand:** Insert the music stand into the designated slot on the top of the keyboard.
5. **Apply Note Stickers (Optional):** If desired, carefully apply the provided note stickers to the keys. These can assist beginners in identifying notes.
6. **Connect Power:** Plug the power adapter into the DC IN port on the back of the keyboard, then plug the adapter into a standard electrical outlet.
7. **Power On:** Press the **POWER** button on the keyboard to turn it on.

OPERATING INSTRUCTIONS

Basic Operation

- **Volume Control:** Use the volume knob or buttons to adjust the overall sound level.
- **LCD Screen:** The LCD screen displays current settings, selected timbre, rhythm, and teaching mode information.
- **Headphone Jack:** For private practice, plug the included headphones into the 3.5mm headphone jack. This mutes the built-in speakers.

HEADPHONES INCLUDED

Kids can wear them while practicing to prevent from distracting other family members

Padded Speakers

Image: The included headphones, featuring padded speakers, designed for comfortable and private practice sessions.

Teaching Modes

The keyboard features three teaching modes to assist beginners:

- **One-Key Mode:** Allows you to play along with demo songs by pressing any key. The keyboard will play the correct note.
- **Follow Mode:** The keyboard waits for you to play the correct note before proceeding with the song.

- **Ensemble Mode:** You play the melody while the keyboard plays the accompaniment.

The light-up keys feature provides visual guidance, illuminating the correct keys to press during teaching modes or demo songs.

Sound Customization

Explore the various sound options to enhance your musical creations:

- **Timbres (255):** Select from a wide range of instrument sounds. Refer to the keyboard's panel for a list of available timbres.
- **Rhythms (255):** Choose from various rhythm patterns to accompany your playing.
- **Demo Songs (50):** Play along or listen to pre-recorded demo songs.
- **Keyboard Percussion (32 types):** Access different percussion sounds directly from the keys.
- **Rhythm Programmer:** Create and program your own rhythm sequences.

CUSTOMIZE YOUR SOUND

Create your own full masterpiece when you mix timbres and rhythms or explore the keyboard percussion sounds

USB Port Functionality

The integrated USB port allows you to connect a USB drive and play along to songs stored on it. This feature enables you to practice with your favorite tracks or add your own melodies and rhythms to background music.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the keyboard and accessories. Avoid using abrasive cleaners or solvents, as they may damage the finish.
- **Storage:** When not in use, store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the keyboard and its components with care to prevent physical damage. Avoid dropping or placing heavy objects on the keys.
- **Power:** Always turn off the keyboard and unplug it from the power outlet when not in use for extended periods or during electrical storms.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from speakers/headphones	Volume too low; Headphones not fully inserted; Power not connected.	Increase volume; Re-insert headphones firmly; Ensure power adapter is connected and keyboard is on.
Keys not lighting up	Light-up key feature is off; Not in a teaching mode that uses lighted keys.	Activate the key lighting feature (refer to keyboard controls); Select a teaching mode (One-Key, Follow, Ensemble).
Keyboard not turning on	Power adapter not connected; Power outlet issue.	Check power adapter connection; Try a different power outlet.
Distorted sound	Volume too high; Loose connections.	Lower volume; Check all cable connections.

If you encounter issues not listed here, please refer to the manufacturer's support information.
