Mondaine MON-MSL.41410.LBV.SET

Mondaine Grand Cushion 41mm Wristwatch

MODEL: MON-MSL.41410.LBV.SET

Instruction Manual

1. Introduction

Welcome to the instruction manual for your new Mondaine Grand Cushion 41mm Wristwatch. This timepiece combines classic design with reliable Swiss Quartz movement, offering precision and style. Please read this manual carefully to ensure proper setup, operation, and maintenance of your watch.

Figure 1: Front view of the Mondaine Grand Cushion 41mm Wristwatch.

2. Initial Setup

Your Mondaine Grand Cushion watch is equipped with a Swiss Quartz movement, powered by a battery. It is ready to wear upon arrival, but you may need to set the time.

2.1 Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) out to the first position.
2. **Adjust the time:** Turn the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
3. **Push in the crown:** Once the time is set, push the crown back into its original position. This will start the watch movement.

Figure 2: Side view of the watch, highlighting the crown for time adjustment.

3. Operating Your Watch

3.1 Water Resistance

Your Mondaine Grand Cushion watch has a water resistance rating of 50 meters (5 ATM). This means it is suitable for short periods of recreational swimming, showering, and general daily use. It is **not** suitable for diving, snorkeling, or high-impact water sports.

- Always ensure the crown is fully pushed in before any contact with water.
- Avoid operating the crown while the watch is wet or submerged.

4. Care and Maintenance

4.1 Cleaning

To maintain the appearance of your watch, clean the case and strap regularly with a soft, damp cloth. For leather straps, avoid excessive moisture and harsh chemicals, as this can damage the material.

4.2 Battery Replacement

The Swiss Quartz movement in your watch is powered by a lithium-ion battery. When the battery runs low, the second hand may start to jump every few seconds (End-of-Life indicator). Battery replacement should be performed by a qualified watchmaker or authorized service center to ensure the watch's water resistance and proper function are maintained.

4.3 Storage

When not wearing your watch, store it in a cool, dry place away from direct sunlight and extreme temperatures. The original packaging or a watch box is ideal for protection.

5. Troubleshooting

Problem	Possible Cause	Solution
Watch not running	Battery depleted; Crown not pushed in	Replace battery (professional service recommended); Push crown fully in
Incorrect time	Time needs adjustment	Refer to Section 2.1 'Setting the Time'

Problem	Possible Cause	Solution
Condensation under crystal	Exposure to extreme temperature changes or water ingress	Seek professional service immediately to prevent damage

6. Specifications

Model Name: MSL.41410.LBV.SET

Case Diameter: 41 Millimeters

Case Thickness: 9 Millimeters

Band Width: 24 Millimeters

Watch Movement Type: Swiss Quartz

Water Resistance Depth: 50 Meters (5 ATM)

Crystal: Sapphire

Case Material Type: Stainless Steel

Band Material Type: Leather

Clasp Type: Buckle

Power Source: Battery Powered (1 Lithium Ion battery required)

Display: Analog

Item Weight: 250 Grams

Manufacturer: Mondaine

Date First Available: November 17, 2023
