DURACELL 32054

Duracell LED Torch Light - User Manual

MODEL: 32054

1. Introduction

Thank you for choosing the Duracell LED Torch Light, Model 32054. This manual provides essential information for the safe and effective use of your new torch. Please read these instructions carefully before use and retain them for future reference.

This LED torch is designed for general illumination, offering a super bright 12000 LUX output with an ultra-light and easy-to-carry design, featuring a large reflector for enhanced beam spread.

2. Safety Information

- **Battery Safety:** Use only the specified battery type (3 AA Alkaline batteries). Do not mix old and new batteries, or different types of batteries. Ensure correct polarity when inserting batteries. Remove batteries if the torch will not be used for an extended period.
- **Eye Protection:** Do not stare directly into the LED light. The high intensity light can cause temporary vision impairment or eye damage.
- **Heat:** The LED light source may generate heat during prolonged use. Avoid direct contact with the reflector area after extended operation.
- **Water Resistance:** This product is **not water resistant**. Avoid exposure to water or high humidity to prevent damage.
- **Children:** Keep out of reach of children. This is not a toy.
- **Disposal:** Dispose of batteries and the product according to local regulations.

3. Package Contents

Verify that all items are present in the package:

- Duracell LED Torch Light (Model 32054)
- 3 x AA Alkaline Batteries

4. Product Features

- **Super Bright LED:** Provides 12000 LUX illumination.
- **Large Reflector:** Enhances light output and beam distance.
- **Slide Switch:** Easy and intuitive operation.
- **Ultra-Light Design:** For comfortable handling and portability.
- **Durable Construction:** Built for everyday use.

Image 4.2: The torch features a comfortable grip for easy handling.

Image 4.3: A detailed view of the large reflector, designed to maximize light output.

5. Setup: Battery Installation

Your Duracell LED Torch Light requires 3 AA Alkaline batteries (included).

1. Unscrew the tail cap of the torch by turning it counter-clockwise.
2. Insert the three AA batteries into the battery compartment, ensuring the positive (+) and negative (-) ends match the indicators inside the torch.
3. Screw the tail cap back on by turning it clockwise until it is securely tightened. Do not overtighten.

6. Operating Instructions

The Duracell LED Torch Light features a simple slide switch for operation.

1. To turn the torch **ON**, slide the switch forward (towards the head of the torch).
2. To turn the torch **OFF**, slide the switch backward (towards the tail cap).

Image 6.1: The slide switch for turning the torch on and off.

7. Maintenance

- **Cleaning:** Wipe the torch with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace all three AA batteries simultaneously when the light dims significantly. Refer to Section 5 for battery installation.
- **Storage:** Store the torch in a cool, dry place away from direct sunlight. Remove batteries if storing for extended

periods to prevent leakage.

8. Troubleshooting

- **Torch does not turn on:**
  - Check if batteries are inserted with correct polarity.
  - Ensure batteries are fresh and not depleted. Replace if necessary.
  - Confirm the tail cap is securely tightened.
- **Light is dim:**
  - Batteries may be low. Replace with new AA Alkaline batteries.
