Yuposl PF02

Yuposl Automatic Cat Feeder with Camera User Manual

Model: PF02

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your Yuposl Automatic Cat Feeder with Camera (Model PF02). Please read this manual thoroughly before using the device to ensure proper function and safety. Keep this manual for future reference.

Image: The Yuposl Automatic Cat Feeder, a white device with a stainless steel bowl, dispensing food. A smartphone screen overlays the image, showing a live view of a cat eating from the feeder, demonstrating the integrated camera feature.

SAFETY INFORMATION

- Ensure the feeder is placed on a stable, level surface to prevent tipping.
- Use only dry pet food with a diameter between 2-15mm. Larger or smaller kibble may cause dispensing issues.
- Do not immerse the main unit in water or any other liquid. Clean with a damp cloth only.
- Keep the power adapter and cable away from pets to prevent chewing or damage.
- This device is intended for indoor use only.
- Keep out of reach of children.
- Regularly check the food level and dispenser for any blockages.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Yuposl Automatic Cat Feeder (Main Unit)
- Stainless Steel Food Bowl
- Power Adapter

- USB Cable
- Desiccant Bag
- User Manual (this document)

PRODUCT COMPONENTS

Familiarize yourself with the different parts of your automatic cat feeder:

- **Food Storage Container:** Holds dry pet food.
- **Lid with Desiccant Compartment:** Seals the food container and keeps food fresh.
- **Dispensing Mechanism:** Releases food into the bowl.
- **1080P HD Camera:** Provides live video feed and recording capabilities.
- **Microphone & Speaker:** For two-way audio communication.
- **Control Panel/Buttons:** For manual feeding and basic settings.
- **Power Port:** For connecting the power adapter.
- **Battery Compartment:** For backup power (requires 3 D-cell batteries, not included).
- **Stainless Steel Bowl:** Removable for easy cleaning.

SETUP GUIDE

1. Unpacking and Assembly

1. Remove all components from the packaging.
2. Insert the stainless steel bowl into its designated slot at the base of the feeder.
3. Open the lid of the food storage container and insert the desiccant bag into its compartment. Replace the desiccant every 1-2 months for optimal freshness.

2. Power Connection

- Connect the USB cable to the feeder's power port and the other end to the power adapter. Plug the adapter into a standard wall outlet.
- For backup power during outages, install 3 D-cell batteries (not included) into the battery compartment at the bottom of the feeder.

3. App Installation and Account Creation

1. Scan the QR code provided in the quick start guide or search for "Yuposl Pet" (or similar, check actual app name if available) in your device's app store (iOS or Android).
2. Download and install the application.
3. Open the app and follow the on-screen instructions to create a new account and log in.

4. WiFi Connection

The feeder supports both 2.4GHz and 5GHz WiFi networks for flexible connectivity.

1. Ensure your smartphone is connected to the same WiFi network you intend to connect the feeder to.
2. In the app, select "Add Device" or the "+" icon.
3. Follow the app's instructions to connect the feeder to your WiFi network. This typically involves selecting

your WiFi network, entering the password, and confirming the device's status light.

Image: A Yuposl Automatic Cat Feeder next to a cat, with a smartphone displaying the app's WiFi connection interface, highlighting compatibility with both 2.4GHz and 5GHz networks.

5. Filling the Food Tank

- Open the lid of the food storage container.
- Pour dry pet food into the container. Do not overfill.
- Close the lid securely to maintain food freshness and prevent pets from accessing food. The safety lock

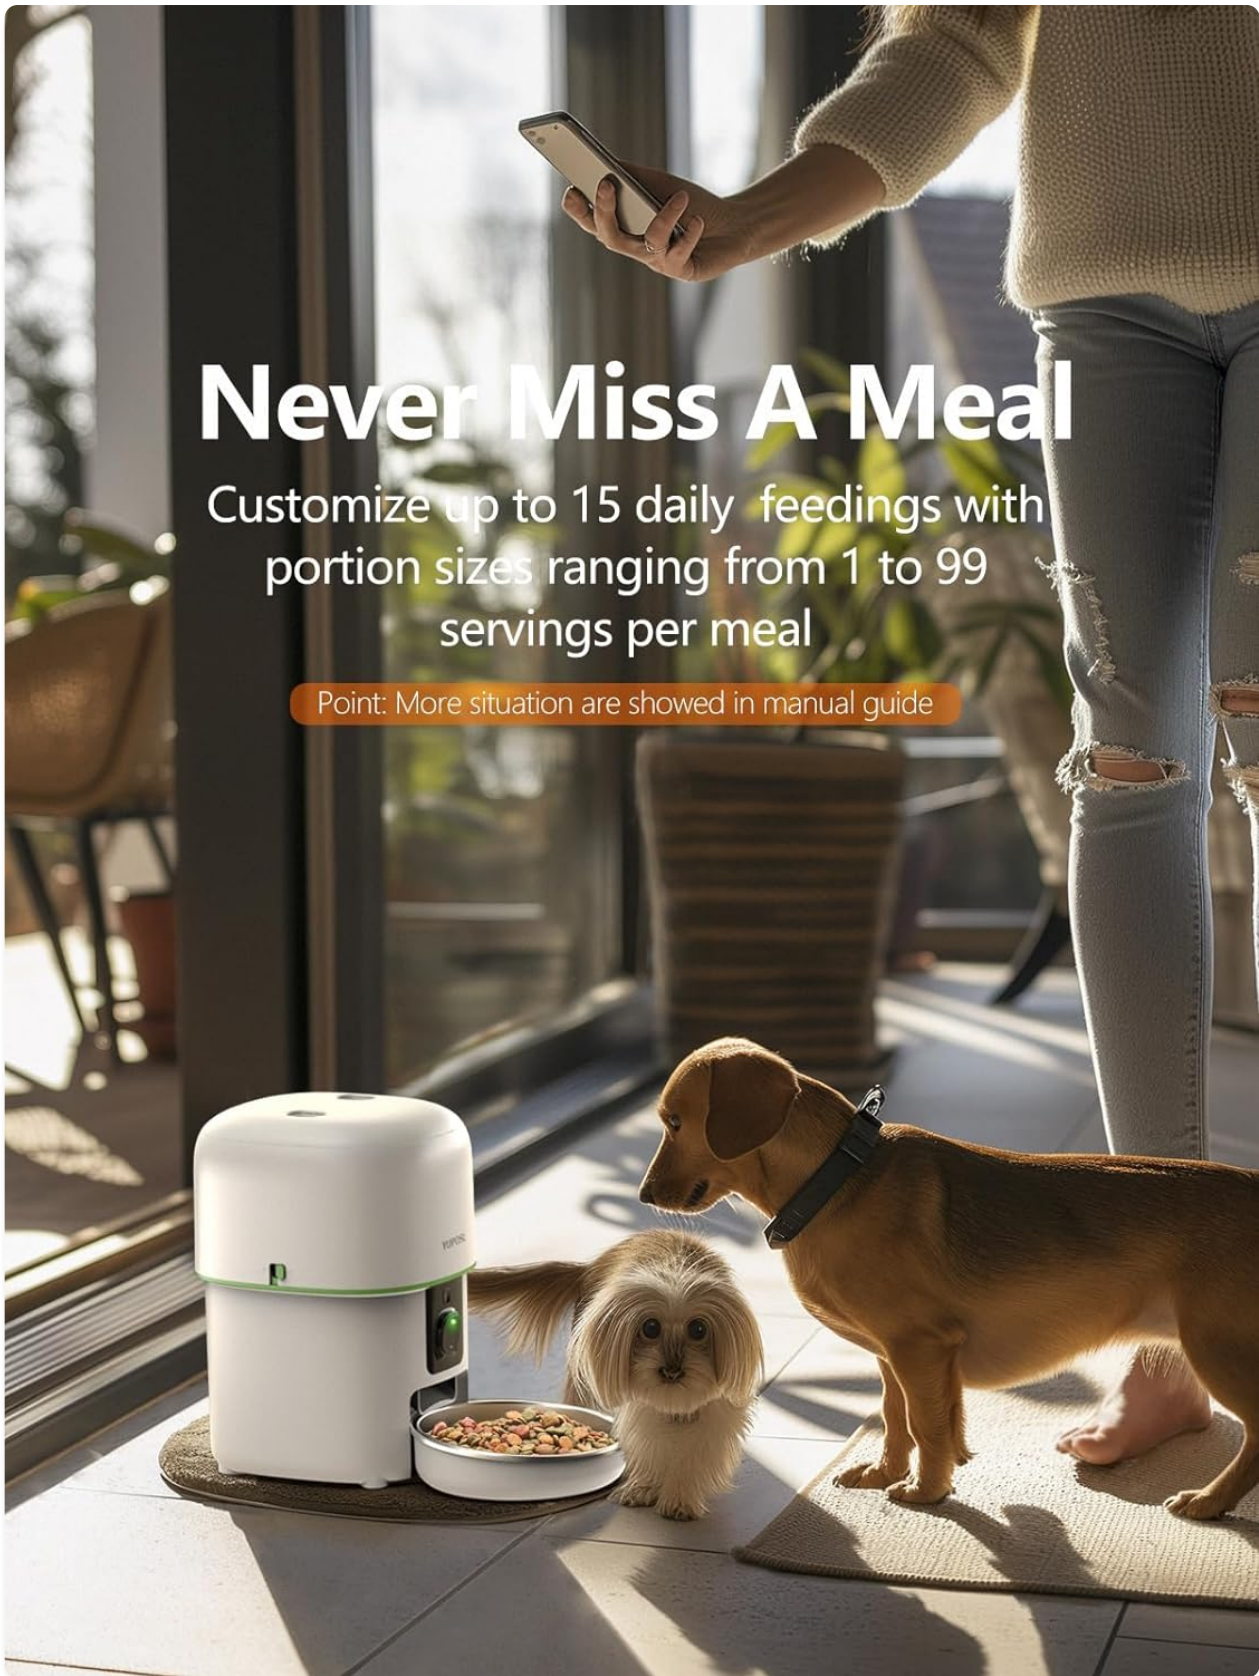

feature helps prevent pets from stealing food.

OPERATING INSTRUCTIONS

1. Setting Feeding Schedule via App

The app allows for precise control over your pet's feeding schedule.

- Open the Yuposl app and select your feeder device.
- Navigate to the "Feeding Schedule" or "Meal Plan" section.
- You can set up to 15 meals per day. For each meal, specify the time and the number of servings (1-99 servings per meal).
- Save your settings. The feeder will automatically dispense food according to the programmed schedule.
- You can view feeding logs within the app to monitor your pet's intake.

Never Miss A Meal

Customize up to 15 daily feedings with portion sizes ranging from 1 to 99 servings per meal

Point: More situation are showed in manual guide

Image: A person interacting with the Yupo! app on a smartphone to customize feeding schedules, demonstrating the flexibility to set up to 15 daily feedings with adjustable portion sizes.

2. Manual Feeding

- To dispense food manually, press the manual feed button on the feeder or use the "Feed Now" option in the app.
- Each press or tap will dispense one serving.

3. Camera Features

The integrated 1080P HD camera provides real-time monitoring of your pet.

- **Live View:** Access the live video feed through the app to see your pet and their feeding area.
- **Night Vision:** The camera automatically switches to infrared night vision in low-light conditions, ensuring clear visibility 24/7.
- **Wide Viewing Angle & Adjustable Camera:** The camera offers a wide view, and its angle can be adjusted by 30 degrees within the app to prioritize viewing your pet or the food bowl.
- **Recording & Screenshots:** Capture videos or take screenshots of your pet directly from the app.

Clear Vision In The Dark

Capture pets' nighttime adventures with camera's automatic **night vision mode**.
with a **wide-angle** view, never miss a single precious moment

Multiple Functions

- Video
- Screenshot
- 1080HD
- Wide-angle
- Feeding-plan
- Recording
- Walkie-talkie
- Reminding

Image: A split image showing the Yuposl feeder's night vision capability with a cat approaching the bowl in the dark, and a list of app functions including video, screenshot, 1080HD, wide-angle, feeding plan, recording, and walkie-talkie.

Stay Connected and Worry-Free Even When You're Apart

Adjustable camera can prioritize your pets or their food, putting you in control of the perfect view

30°

Image: A close-up of the Yuposl feeder's camera, illustrating its 30-degree adjustable angle, with three smartphone screens showing different perspectives of a cat and its food bowl, demonstrating the camera's flexibility.

4. Two-Way Audio and Voice Recording

- Use the built-in microphone and speaker for two-way communication with your pet through the app.
- Record personalized voice messages (up to 10 seconds) that will play three times automatically when food is dispensed, calling your pet to mealtime. New recordings will replace old ones.

“Talk” with Your Furry Pets

Via **Two-way** voice system

Image: Hands holding a smartphone displaying a live view of a cat from the feeder's camera, with speech bubbles indicating two-way audio communication, allowing users to "talk" with their pets.

5. Notifications and Alerts

The feeder provides important alerts to your smartphone:

- **Low Food:** Notifies you when the food level in the container is low.
- **Low Battery:** Alerts you when the backup batteries are running low.
- **Clogged Dispenser:** An infrared sensor detects blockages and stops dispensing, sending an alert.

- **WiFi Connection Lost:** Informs you if the feeder loses its internet connection.

6. Multi-Feeder Synchronization

If you have multiple Yuposl feeders, the app allows for synchronization of feeding times, ensuring all pets are fed simultaneously. This is useful for households with multiple pets to minimize food disputes.

Image: Several Yuposl Automatic Cat Feeders placed around a room, with multiple cats eating from them, demonstrating how multiple feeders can be used to feed several pets simultaneously and prevent food fights.

MAINTENANCE

1. Cleaning

- **Stainless Steel Bowl:** The stainless steel bowl is dishwasher safe for thorough cleaning. Remove it from the feeder and wash regularly.
- **Food Storage Container & Dispensing Path:** Wipe the inside of the food container and the dispensing path with a dry or slightly damp cloth. Ensure no moisture remains before refilling with food.
- **Main Unit:** Wipe the exterior of the feeder with a soft, dry cloth. Do not use abrasive cleaners or immerse the unit in water.

2. Desiccant Replacement

The desiccant bag helps keep the dry food fresh. Replace it every 1-2 months, or more frequently in humid environments, to maintain optimal food freshness.

3. Food Freshness Features

The feeder is designed to keep food fresh through:

- **Soft Rubber Rotor:** Effectively insulates food from air.
- **Reinforced Seal Top Cover:** Provides an airtight seal for the food container.
- **Desiccant:** Absorbs moisture to prevent food spoilage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food tank empty, dispenser clogged, power issue, incorrect schedule.	Refill food tank. Check for blockages in the dispensing path and clear them. Ensure power adapter is connected and backup batteries are installed. Verify feeding schedule in the app.
Cannot connect to WiFi.	Incorrect WiFi password, feeder too far from router, network interference, wrong WiFi band.	Double-check WiFi password. Move feeder closer to the router. Ensure your router supports 2.4GHz or 5GHz and that you are connecting to the correct band. Restart feeder and router.
Camera feed is blurry or dark.	Lens dirty, insufficient light, night vision not active.	Clean the camera lens with a soft cloth. Ensure adequate lighting or verify night vision is functioning in low light.
No notifications received.	App notifications disabled, feeder offline, app not running in background.	Check app notification settings on your phone. Ensure feeder is connected to WiFi. Allow the app to run in the background.
Voice recording not playing.	No recording saved, volume too low.	Record a new voice message in the app. Check the volume settings in the app.

SPECIFICATIONS

Feature	Detail
Model Number	PF02
Capacity	2 Liters
Dimensions	18.9 x 18.9 x 34.59 cm (7.44 x 7.44 x 13.62 inches)
Weight	1.35 kg (2.98 lbs)
Material	Plastic, Stainless Steel (bowl)
Connectivity	2.4GHz & 5GHz WiFi
Camera Resolution	1080P HD with Night Vision
Power Supply	AC Adapter (included), 3 x D-cell batteries (backup, not included)
App Compatibility	iOS, Android
Max Meals/Day	Up to 15
