SETUP AND ASSEMBLY

Assembly of the HOMCOM Hall Tree typically requires two individuals and can take approximately 1 to 2 hours, depending on familiarity with furniture assembly. All necessary hardware is included. A screwdriver is the primary tool required.

Follow the step-by-step diagrams provided in the separate assembly guide. Ensure all components are correctly oriented before tightening screws to prevent damage to the engineered wood material. Avoid using power drills with excessive torque, as this may cause chipping or stripping.

OPERATING INSTRUCTIONS

Using the Coat Rack

The hall tree features five black metallic double hooks. These hooks are designed to hold a variety of items, including coats, jackets, hats, scarves, and bags. Distribute weight evenly across the hooks for

optimal stability.

Using the Bench and Storage

The bench provides a convenient seating area. The top panel of the bench can be lifted to reveal a spacious hidden storage compartment. This area is suitable for storing shoes, umbrellas, or other items you wish to keep out of sight. The lid is supported by a rod to hold it open during use.

MAINTENANCE

To maintain the appearance and longevity of your HOMCOM Hall Tree, wipe it with a dry cloth regularly. Avoid using harsh chemicals or abrasive cleaners, as these can damage the melamine-faced engineered wood finish.

TROUBLESHOOTING

- **Difficulty during assembly:** Ensure all parts are correctly identified and oriented according to the assembly diagrams. If a piece seems difficult to fit, double-check the instructions.
- **Missing parts or hardware:** Verify all contents against the packing list. If any parts are missing, contact customer support for assistance.
- **Wobbling or instability:** Confirm that all screws are tightened securely. Ensure the anti-tipping device is properly installed and anchored to a wall stud or appropriate wall anchor.

- **Surface damage (chips/scuffs):** While the product is designed to be durable, minor surface imperfections can occur during assembly or use. Handle components carefully during assembly.
