Model: ZJZ-1004

1. SAFETY WARNINGS

Caution: Due to the product's weight (27.8 kg / 61.3 lbs), assistance is recommended during assembly to ensure stability and safety. Always lift with proper technique or with help.

- Ensure all screws and fasteners are securely tightened before use.
- Do not overload the desk or shelves beyond their stated weight capacity.
- Keep liquids away from the power outlets and USB ports to prevent electrical hazards.
- Avoid placing hot items directly on the desk surface without protection.
- Regularly check for loose connections or damage to the power strip and LED lights.

3. SETUP AND ASSEMBLY

Before beginning assembly, ensure all parts are present and undamaged. It is recommended to assemble the desk in the room where it will be used. Due to the desk's weight, having a second person assist with assembly is highly recommended for safety and ease.

Reversible Design:

The ODK L-Shaped Gaming Desk features a reversible design, allowing you to configure it as either a left-corner or right-corner desk. Carefully review the assembly instructions provided in the package to choose your preferred orientation before starting.

General Assembly Steps (Refer to included manual for detailed steps):

1. Unpack all components and verify against the parts list.
2. Identify the main frame sections and assemble them according to your desired left or right configuration.
3. Attach the desktop panels, ensuring they are aligned and securely fastened.
4. Install the monitor stand and storage shelves. The 2-tier storage is adjustable; choose the height that best suits your needs.
5. Connect the LED light strips and the power outlet unit.
6. Once fully assembled, gently move the desk to its final position.
7. Double-check all connections and fasteners for tightness and stability.

4. OPERATING INSTRUCTIONS

4.1. LED Lighting System

The desk features integrated LED lighting to enhance your environment.

- **Power On/Off:** Locate the control button for the LED lights. Press once to turn on, press again to cycle through modes, and hold to turn off.
- **Color and Mode Selection:** The LED system offers 7 distinct colors and 13 lighting modes. Short press the control button to cycle through these options.
- **Memory Function:** The LED lights are equipped with a memory function, which will recall the last selected color and mode when the lights are turned back on.

4.2. Integrated Power Outlet and USB Ports

The desk includes a recessed power strip for convenient access to power.

- **Standard Outlets:** Two (2) standard AC outlets (110-240V/6A) are provided for powering your computer, monitors, or other electronic devices.
- **USB Ports:** Two (2) USB ports (5V/2A) are available for charging smartphones, tablets, gaming controllers, and other USB-powered devices.
- **Power Cord:** The power strip is connected via a 200cm power cord. Ensure it is plugged into a grounded wall outlet.

4.3. Monitor Stand

The full-length monitor stand elevates your screen(s) to a more ergonomic viewing height, reducing neck and eye strain. It also creates additional space underneath for storing keyboards, mice, or other accessories when not in use.

5. MAINTENANCE AND CARE

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** Immediately wipe up any spills to prevent liquid from seeping into the MDF or affecting electrical components.
- **Tightness Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain desk stability.

- **Electrical Components:** Keep the power outlets and USB ports free from dust and debris. Do not attempt to disassemble or repair the electrical components yourself.
- **Weight Distribution:** Distribute weight evenly across the desk surface and shelves to prevent stress on the frame.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights do not turn on.	Power cord not plugged in.	Ensure the power cord for the desk's electrical components is securely plugged into a working wall outlet.
	Loose connection to the LED strip.	Check the connection between the LED strip and its controller/power source.
	Faulty LED strip or controller.	If issues persist, contact customer support.
Power outlets or USB ports are not working.	Desk power cord not plugged in.	Verify the desk's main power cord is securely plugged into a live wall outlet.
	Wall outlet is not functioning.	Test the wall outlet with another device.
	Overload or internal fault.	Unplug all devices, wait a few minutes, then plug them back in one by one. Avoid overloading the strip. If the issue persists, contact customer support.
Desk feels wobbly or unstable.	Loose assembly screws.	Re-tighten all assembly screws, ensuring they are snug but not overtightened.
	Uneven floor surface.	Adjust the leveling feet (if present) or place shims under the desk legs to stabilize it on an uneven floor.
	Overloaded sections.	Reduce the weight on the desk or shelves.
