OCG Pull Out Cabinet Organizer (15" W x 21" D) Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your OCG Pull Out Cabinet Organizer. Please read these instructions carefully before beginning installation or use to ensure proper function and longevity of the product.

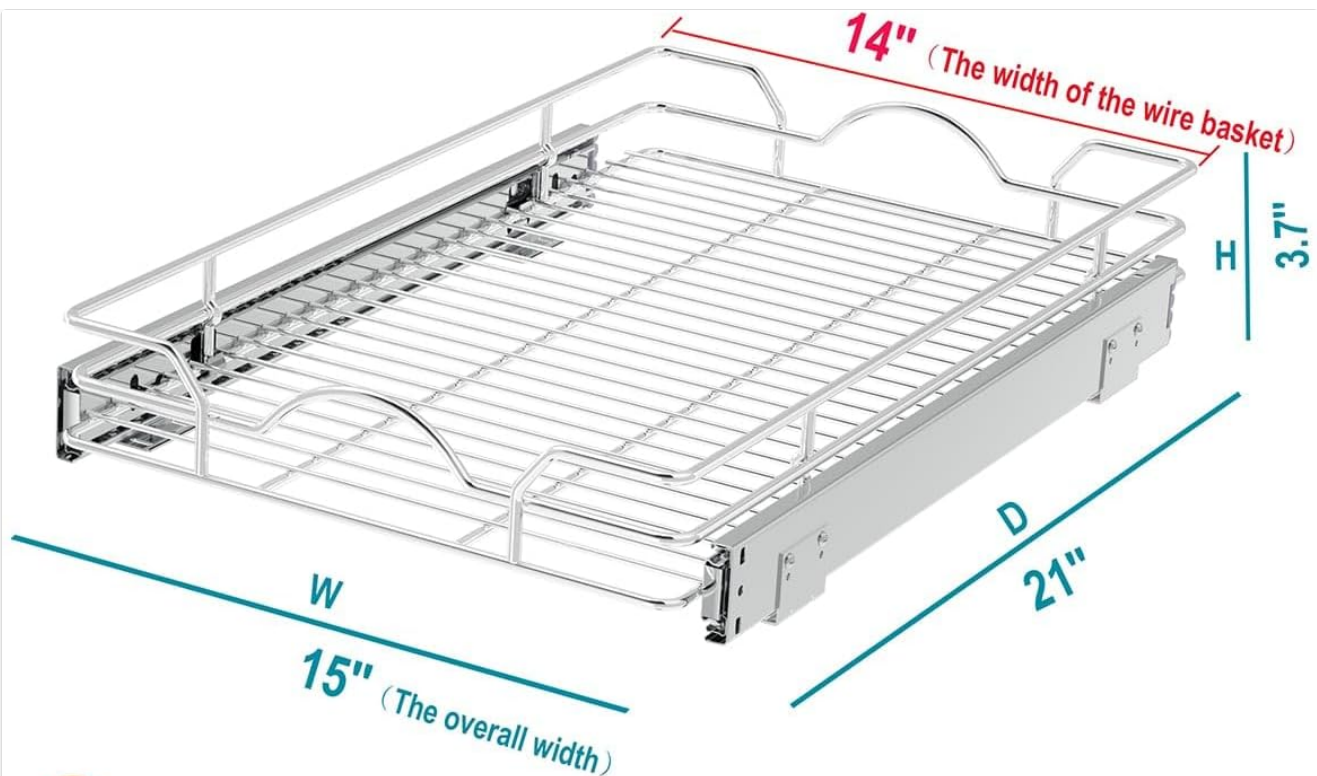

The OCG slide-out cabinet organizer is designed to maximize cabinet space and provide easy access to stored items such as pots, pans, small kitchen appliances, cleaning products, and canned goods.

This organizer features a 3-section full extension ball bearing drawer slide system, ensuring smooth and sturdy operation. It has a load capacity of up to 100 lbs.

PRODUCT DIMENSIONS AND REQUIREMENTS

The specific dimensions for this OCG Pull Out Cabinet Organizer are **15"W x 21"D x 3.7"H**. To ensure proper fit and function, your cabinet must meet the following minimum requirements:

- Minimum cabinet opening width: **16 inches**
- Minimum cabinet interior depth: **22.5 inches**

Size: 15"W x 21"D x 3.7"H. Make sure your cabinet's openings are at least 16 inch wide, 22.5 inch Depth or larger cabinet Depth.

Figure 1: Diagram showing the dimensions of the OCG Pull Out Cabinet Organizer (15"W x 21"D x 3.7"H). The overall width is 15 inches, depth is 21 inches, and height is 3.7 inches. It indicates a required cabinet opening of at least 16 inches wide and 22.5 inches deep.

SETUP AND INSTALLATION

Your OCG Pull Out Cabinet Organizer comes with an installation manual, a mounting template, and all necessary hardware for a quick and easy installation. Please follow these steps carefully:

1. **Verify Cabinet Dimensions:** Before starting, confirm that your cabinet meets the minimum width and depth requirements as specified in the 'Product Dimensions and Requirements' section.
2. **Prepare the Cabinet:** Clear the cabinet of any items. Ensure the cabinet floor is clean and level.
3. **Position Mounting Template:** Place the provided mounting template on the cabinet floor. Align it according to your desired position, ensuring sufficient clearance from the cabinet door frame.
4. **Mark Screw Holes:** Use a pencil to mark the locations for the mounting screws through the template.
5. **Attach Slides to Cabinet:** Secure the drawer slides to the cabinet floor using the provided screws. Ensure the slides are parallel and firmly attached.
6. **Assemble Basket to Slides:** Attach the wire basket to the drawer slides. Ensure it clicks securely into place.
7. **Test Operation:** Gently pull the organizer out and push it back in to ensure smooth and unobstructed movement. Adjust if necessary.

OPERATING INSTRUCTIONS

Using your OCG Pull Out Cabinet Organizer is straightforward:

- To access items, gently pull the wire basket forward until it fully extends.
- To store items, push the basket back into the cabinet until it is fully retracted.
- For optimal performance, distribute items evenly within the basket.

MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your cabinet organizer:

- **Cleaning:** Wipe down the chrome finish with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Hardware Check:** Periodically inspect all mounting screws and connections to ensure they remain tight. Retighten if necessary.
- **Slide Lubrication:** If the drawer slides begin to feel stiff or less smooth over time, apply a small amount of silicone-based lubricant to the ball bearings. Do not use oil-based lubricants, as they can attract dust and debris.

TROUBLESHOOTING

If you encounter any issues with your OCG Pull Out Cabinet Organizer, refer to the following common problems and

solutions:

Problem	Possible Cause	Solution
Organizer does not slide smoothly.	• Obstruction in the slide path. • Mounting screws overtightened, causing lateral stress on slides. • Lack of lubrication.	• Check for and remove any items blocking the slides. • Loosen mounting screws slightly and re-test. Ensure slides are parallel. • Apply silicone-based lubricant to the ball bearings of the slides.
Organizer feels wobbly or unstable.	• Loose mounting screws. • Uneven cabinet surface. • Overloading the organizer.	• Verify all mounting screws are securely fastened to the cabinet base. • Ensure the cabinet surface is flat. Consider shims if necessary. • Reduce the weight of items stored; ensure total weight does not exceed 100 lbs.
