Setup Guide

Follow these steps to set up your Geeni Scope 2K camera:

1. **Download the Geeni App:** Search for "Geeni" in the App Store or Google Play Store and download the application.
2. **Create an Account:** Open the Geeni app and register for a new account or log in if you already have one.
3. **Power On the Camera:** Connect the USB cable to the camera and the power adapter, then plug the adapter into a power outlet. The camera will power on and begin its startup sequence.
4. **Add Device:** In the Geeni app, tap the "+" icon in the top right corner to add a new device. Select "Video Camera" and follow the on-screen instructions to connect your camera to your Wi-Fi network. Ensure your Wi-Fi network is 2.4GHz, as the camera may not support 5GHz networks.
5. **Position the Camera:** Place the camera on a flat surface or use the included mounting kit to install it on a wall or ceiling for optimal viewing.

Operating Your Geeni Scope 2K Camera

Live View and Remote Monitoring

Access your camera's live feed from anywhere using the Geeni app. This allows you to check on your home or office in real-time, ensuring you never miss a moment.

Monitor your property remotely using the Geeni app on your smartphone.

2K Ultra HD Video Quality

The Geeni Scope 2K camera provides superior image clarity compared to standard 1080p cameras, allowing for more detailed and sharper video recordings. This enhanced resolution is crucial for identifying fine details in your surveillance footage.

Visual comparison highlighting the superior clarity of 2K resolution over 1080p.

Motion Detection and Auto-Tracking

Receive instant alerts on your smartphone when motion is detected. The camera's advanced auto-tracking feature automatically follows any movement, ensuring that the subject remains in view. This is particularly useful for monitoring pets or detecting unexpected activity.

Wide Coverage with Pan & Tilt

The camera's pan (355°) and tilt (50°) functionality allows you to remotely adjust the viewing angle, providing comprehensive coverage of your space without blind spots. Control these movements directly from the Geeni app.

Illustrates the extensive coverage provided by the camera's pan and tilt functions.

Enhanced Night Vision

Equipped with infrared night vision, the Geeni Scope 2K camera ensures clear and reliable surveillance even in low-light conditions or complete darkness, maintaining security around the clock.

Clear night vision ensures continuous monitoring in dark environments.

Voice Control Integration

Integrate your Geeni Scope 2K camera with Amazon Alexa or Google Assistant for convenient voice control. Use simple commands to view your camera feed on compatible smart displays.

Control your camera and view feeds using voice commands with smart assistants.

Maintenance

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Firmware Updates:** Regularly check the Geeni app for available firmware updates to ensure your camera has the latest features and security enhancements.
- **Placement:** Ensure the camera is placed in a stable location, away from direct sunlight, heat sources, and moisture.

Troubleshooting

Issue	Possible Solution

Issue	Possible Solution
Camera offline	Check Wi-Fi connection, ensure camera is powered on, and restart the camera and router. Verify Wi-Fi is 2.4GHz.
Motion detection not working	Ensure motion detection is enabled in the app settings. Adjust sensitivity settings. Check for obstructions in the camera's view.
Poor night vision quality	Ensure there are no reflective surfaces close to the camera that could interfere with infrared light.
Cannot connect to Wi-Fi	Confirm correct Wi-Fi password. Ensure camera is within Wi-Fi range. Reset camera and try setup again.
