Black Shark BS-S1-CLASSIC-SILVER

Black Shark S1 Classic Smartwatch User Manual

Model: BS-S1-CLASSIC-SILVER

Brand: Black Shark

Introduction

Welcome to the Black Shark S1 Classic Smartwatch user manual. This guide provides detailed instructions to help you set up, operate, maintain, and troubleshoot your new smartwatch. The Black Shark S1 Classic combines elegant design with advanced features, including a vibrant 1.43-inch AMOLED display, extended battery life, comprehensive health monitoring, and robust sports tracking capabilities.

Setup Guide

1. Charging the Smartwatch

Before first use, fully charge your Black Shark S1 Classic. Use the provided magnetic charging cable. Align the magnetic pins on the charger with the charging contacts on the back of the watch. The watch display will indicate charging status.

2. Powering On/Off

- **Power On:** Press and hold the power button (usually the top right button) until the Black Shark logo appears.
- **Power Off:** Press and hold the power button, then select 'Power Off' from the options on the screen.

3. Pairing with Your Smartphone

1. Download the official Black Shark app from your smartphone's app store (iOS App Store or Google Play Store).
2. Open the app and create an account or log in.
3. Ensure Bluetooth is enabled on your smartphone.
4. In the app, navigate to 'Add Device' or 'Pair New Device'.
5. Select 'Black Shark S1 Classic' from the list of available devices.
6. Follow the on-screen prompts on both your watch and phone to complete the pairing process.

Operating Your Smartwatch

1. Display and Navigation

The Black Shark S1 Classic features a sharp 1.43-inch AMOLED display, offering clear visuals and responsive touch control. Navigate through menus by swiping up, down, left, or right, and tap to select options.

3. Health Monitoring

The S1 Classic provides comprehensive health monitoring features:

- **Heart Rate:** Continuous heart rate monitoring throughout the day.
- **Blood Oxygen (SpO2):** Measure your blood oxygen levels on demand.
- **Sleep Tracking:** Automatically monitors your sleep patterns, including deep sleep, light sleep, and awake times.
- **Stress Monitoring:** Tracks your stress levels.
- **Gaming Health Monitoring Mode:** Activate this mode during intense gaming sessions to monitor your heart rate and stress levels, helping you stay focused and aware of your physical state.

4. Bluetooth Calling

Once paired with your smartphone, you can make and receive calls directly from your smartwatch. Ensure your watch is within Bluetooth range of your phone for this feature to function.

5. Notifications

Receive notifications for calls, messages, and app alerts directly on your wrist. Manage notification settings through the Black Shark app on your smartphone.

Maintenance

1. Waterproofing (IP68)

The Black Shark S1 Classic has an IP68 waterproof rating, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. This allows for use during swimming or in rainy conditions. However, it is not suitable for hot water, saunas, or diving.

2. Cleaning and Care

- Wipe the watch and strap regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

Troubleshooting

Watch Not Turning On

- Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.

- Try pressing and holding the power button for an extended period (10-15 seconds).

Cannot Pair with Smartphone

- Ensure Bluetooth is enabled on your phone and the watch.
- Make sure the watch is within close proximity to your phone.
- Restart both your watch and smartphone.
- Clear the Bluetooth cache on your phone (if applicable) and try again.
- Check if the Black Shark app is updated to the latest version.

Inaccurate Health Data

- Ensure the watch is worn snugly on your wrist, not too tight or too loose.
- Clean the sensor on the back of the watch regularly.
- Avoid excessive movement during measurements (e.g., SpO2).

Short Battery Life

- Reduce screen brightness.
- Disable unnecessary notifications.
- Limit continuous heart rate monitoring if not needed.
- Ensure the watch is fully charged each time.

Specifications
