## 3. WHAT'S IN THE BOX

The Seventour P10-3 package includes the following components:

- 1 x Seventour P10-3 Car Stereo Unit (10.26-inch display with integrated front camera)
- 1 x Mount Bracket
- 1 x Cigarette Lighter Power Cable
- 1 x Backup Camera (Length: 11.5 ft)

- 1 x Type-C Cable
- 1 x AUX Audio Cable
- 1 x Micro SD Card (64GB)
- 1 x SD Card Reader
- 1 x User Manuals
- 1 x Bracket Adhesive Sticker

Image: A visual representation of all items included in the product packaging, detailing the main unit dimensions and accessories.

## 4. SETUP AND INSTALLATION

The Seventour P10-3 is designed for simple installation, adapting to various vehicle types.

### 4.1 Mounting the Unit

1. **Choose a Location:** Select a suitable flat surface on your dashboard for mounting the unit. Ensure the location does not obstruct your view of the road or interfere with vehicle controls.
2. **Attach Mount Bracket:** Secure the mount bracket to the chosen location using the provided adhesive sticker. Ensure the surface is clean and dry before applying the adhesive for optimal adhesion. The mount is adjustable for optimal viewing angles.
3. **Attach Stereo Unit:** Slide the P10-3 stereo unit onto the mount bracket until it clicks securely into place.

Image: The adjustable mount bracket, demonstrating its flexibility for positioning the unit.

## 4.2 Power Connection

- Connect the cigarette lighter power cable to the P10-3 unit.
- Insert the other end of the cigarette lighter power cable into your vehicle's 12V-24V cigarette lighter socket. The unit will power on automatically.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Connecting to Apple CarPlay / Android Auto

The P10-3 supports both wireless and wired connections for Apple CarPlay and Android Auto.

**1. Wireless Connection:**

- Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
- On the P10-3 unit, navigate to the CarPlay or Android Auto icon.
- Search for the P10-3's Bluetooth signal on your phone and pair. Follow any on-screen prompts to complete the connection.

**2. Wired Connection:**

- Connect your smartphone to the P10-3 unit using a compatible USB cable (Type-C cable provided).
- The unit should automatically detect your phone and launch CarPlay or Android Auto.

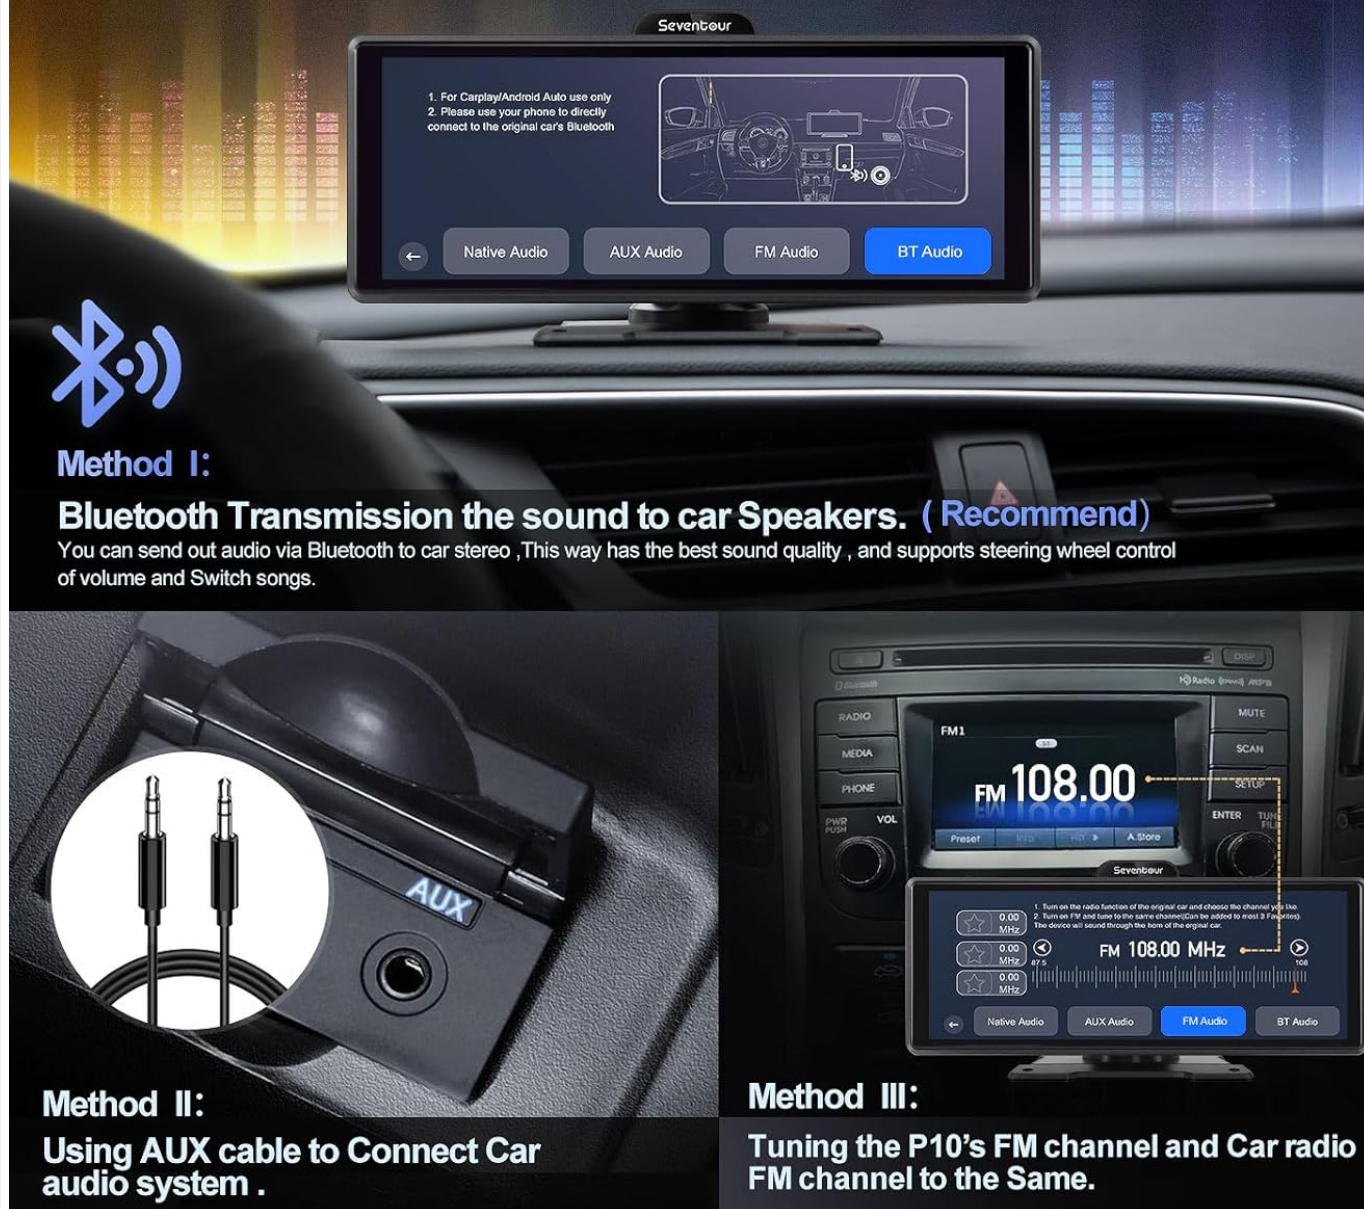

### 5.2 Voice Control (Siri / Google Assistant)

Once connected to Apple CarPlay or Android Auto, you can activate your phone's voice assistant for hands-free control.

- To activate Siri (for Apple CarPlay) or Google Assistant (for Android Auto), use the designated voice command (e.g., "Hey Siri" or "Hey Google") or press the voice control button on the P10-3 screen if available.
- You can then issue commands for navigation, playing music, making calls, sending messages, and more.

# Great Sound Quality

## Multiple ways to Connect Car Speakers

**Method I:**  
**Bluetooth Transmission the sound to car Speakers. ( Recommend )**  
You can send out audio via Bluetooth to car stereo ,This way has the best sound quality , and supports steering wheel control of volume and Switch songs.

**Method II:**  
**Using AUX cable to Connect Car audio system .**

**Method III:**  
**Tuning the P10's FM channel and Car radio FM channel to the Same.**

Image: Examples of voice commands for Siri and Google Assistant, demonstrating hands-free operation.

### 5.3 Audio Output Methods

The P10-3 offers several ways to output audio to your car's speakers:

#### 1. Method I: Bluetooth Transmission (Recommended)

Connect the P10-3 to your car's original stereo system via Bluetooth. This method generally provides the best sound quality and allows for steering wheel control of volume.

#### 2. Method II: AUX Cable Connection

Use the provided AUX audio cable to connect the P10-3's AUX output to your car's AUX input. Select AUX as the audio source on your car's stereo.

### 3. Method III: FM Radio Transmission

Tune the P10-3 to an unused FM frequency. Then, tune your car's FM radio to the same frequency to receive audio wirelessly.

### 4. Built-in Speakers

The P10-3 has built-in speakers for direct audio playback, suitable for situations where external car speakers are not desired or available.

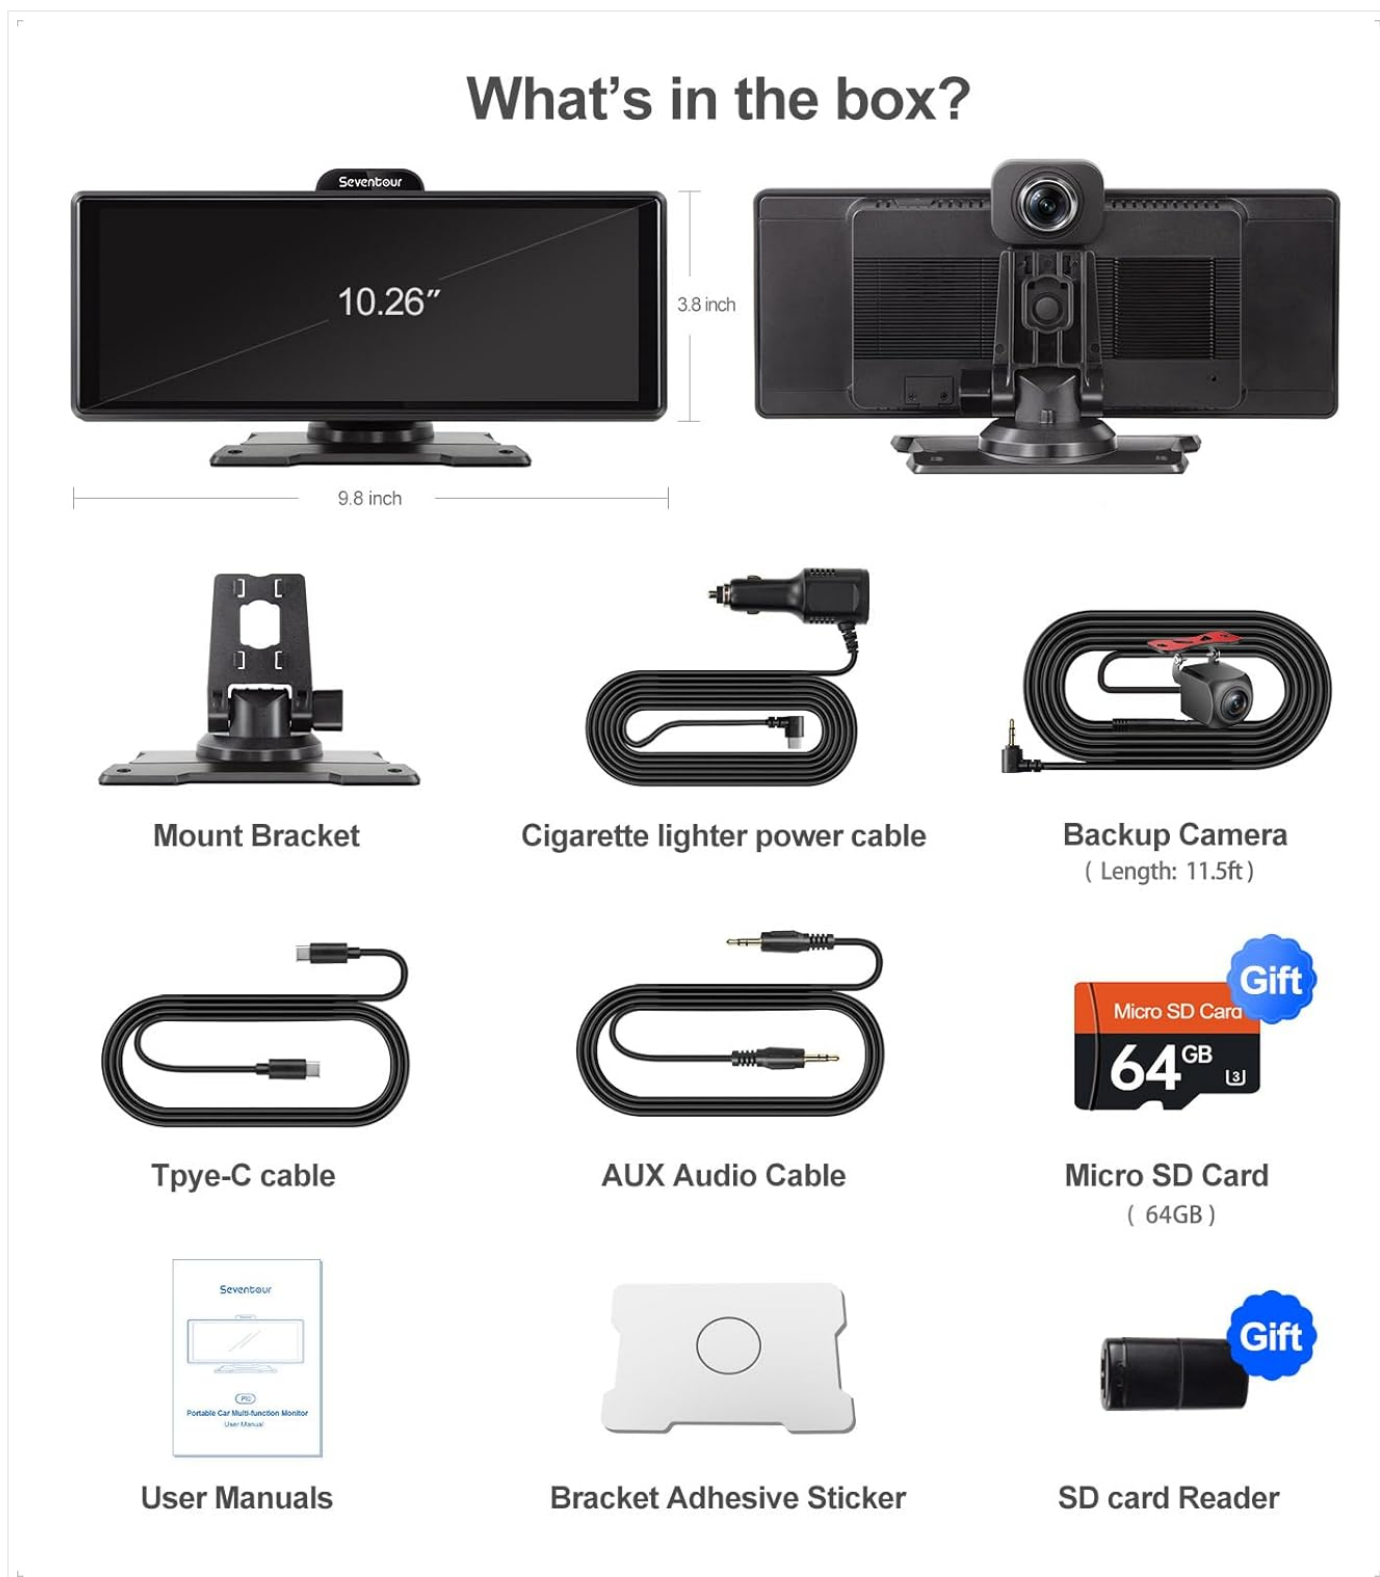

Image: Illustration of the various audio output methods available for connecting the P10-3 to your vehicle's sound system.

## 5.4 Dash Cam Operation

- The built-in 4K front camera and 1080P backup camera automatically begin recording when the device is powered on.

- Recordings are saved to the included 64GB Micro SD card. The system supports loop recording, overwriting the oldest files when the card is full.
- Gravity sensing (G-sensor) automatically locks video files in case of sudden impacts or collisions, preventing them from being overwritten.
- View and play recorded videos directly on the 10.26-inch screen.
- The unit also features Forward Collision Warning (FCW) and Lane Departure Warning (LDW) functions to assist with driving safety.

Image: Various display modes, including full-screen dash cam view and split-screen options for simultaneous navigation and camera monitoring.

Image: A close-up view of the dash cam interface on the P10-3 screen.

Image: The included 64GB Micro SD card for video storage.

Image: The system supports 24-hour parking monitoring, providing continuous surveillance.

## 5.5 Mirror Link Function

The Mirror Link function allows you to mirror your smartphone's screen onto the P10-3 display.

- For iOS devices, use AirPlay. For Android devices, use Miracast.
- Ensure your phone and the P10-3 are connected to the same Wi-Fi network or directly connected via USB.
- Activate the Mirror Link function on the P10-3 and follow the instructions on your smartphone to cast its screen.

## 5.6 GPS Navigation

When connected to Apple CarPlay or Android Auto, the P10-3 utilizes your smartphone's GPS capabilities.

- Access navigation applications (e.g., Apple Maps, Google Maps, Waze) directly from the CarPlay or Android Auto interface.
- The system provides real-time positioning, turn-by-turn directions, and traffic updates, ensuring smooth travel.

## 6. MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your Seventour P10-3 unit.

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the unit. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.

- **Cable Management:** Ensure all cables are neatly routed and secured to prevent damage or interference with driving.
- **Software Updates:** Periodically check the manufacturer's website for any available firmware or software updates to ensure the best performance and compatibility.
- **SD Card Care:** Regularly back up important dash cam footage from the Micro SD card. Format the SD card periodically (e.g., once a month) to maintain optimal recording performance and prevent data corruption.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter with your P10-3 unit.

Problem	Possible Cause / Solution
Unit does not power on.	<ul style="list-style-type: none"><li>• Ensure the cigarette lighter power cable is securely connected to both the unit and the vehicle's power socket.</li><li>• Check if the vehicle's cigarette lighter socket is receiving power (e.g., by testing with another device).</li><li>• Verify the vehicle's fuse for the cigarette lighter socket is not blown.</li></ul>
Cannot connect to Apple CarPlay / Android Auto wirelessly.	<ul style="list-style-type: none"><li>• Ensure Bluetooth and Wi-Fi are enabled on your smartphone.</li><li>• Forget the device from your phone's Bluetooth settings and try pairing again.</li><li>• Restart both the P10-3 unit and your smartphone.</li><li>• Try a wired connection using the Type-C cable to rule out wireless issues.</li></ul>
Microphone not working well / Call audio choppy.	<ul style="list-style-type: none"><li>• Ensure there are no obstructions near the unit's microphone.</li><li>• Check if your phone's audio output is correctly routed to the P10-3 for calls.</li><li>• If using Bluetooth audio to car speakers, ensure your car's Bluetooth profile supports phone calls from the P10-3. Some car systems prioritize their own Bluetooth for calls.</li><li>• Try resetting the unit to factory settings (refer to user manual for specific steps).</li></ul>
Unit gets excessively hot.	<ul style="list-style-type: none"><li>• Ensure the unit has adequate ventilation and is not placed in direct sunlight for prolonged periods.</li><li>• If the issue persists and affects performance, contact customer support.</li></ul>
FM transmission has static.	<ul style="list-style-type: none"><li>• Try changing the FM frequency on both the P10-3 and your car radio to a clearer, unused channel.</li><li>• Ensure there are no strong local radio stations interfering with the chosen frequency.</li><li>• Consider using Bluetooth or AUX audio output for better sound quality.</li></ul>
Unit does not turn off automatically.	<ul style="list-style-type: none"><li>• The unit is designed to power on/off with the vehicle's cigarette lighter socket. If your socket is constantly powered, you may need to manually unplug the unit or use a switched power source.</li></ul>
