jutyum 4L Automatic Cat Food Dispenser Model Jr574 User Manual

Model: Jr574

INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your jutyum 4L Automatic Cat Food Dispenser, Model Jr574. Please read this manual carefully before using the device to ensure proper function and safety.

PRODUCT OVERVIEW

The jutyum 4L Automatic Cat Food Dispenser is designed to provide scheduled meals for your pet. It features a 4-liter capacity, programmable meal times, and a dual power supply for reliable operation.

Figure 1: Front view of the jutyum 4L Automatic Cat Food Dispenser, highlighting its features such as 4L capacity, 1-4 meals/day, 1-9 portions/meal, and 6-10g per portion.

SETUP

1. **Unpack the Dispenser:** Carefully remove all components from the packaging. Ensure all parts are present: the main dispenser unit, food storage container, lid, and feeding bowl.
2. **Assemble the Unit:** Attach the food storage container to the base unit. Place the feeding bowl in front of the dispenser's outlet.
3. **Power Supply:** The dispenser supports dual power modes.

- **Adapter Power (Recommended):** Connect the 5V DC adapter to the dispenser and plug it into a wall outlet.
- **Battery Power:** For backup or portable use, insert 3 AA batteries (not included) into the battery compartment located at the bottom of the unit. In battery mode, the dispenser can operate for up to 3 weeks.

Dual Power Supply

Two modes so your funny friend won't go hungry.
(prioritizes use of adapter power)

External power supply

Powered by 3 AA dry batteries

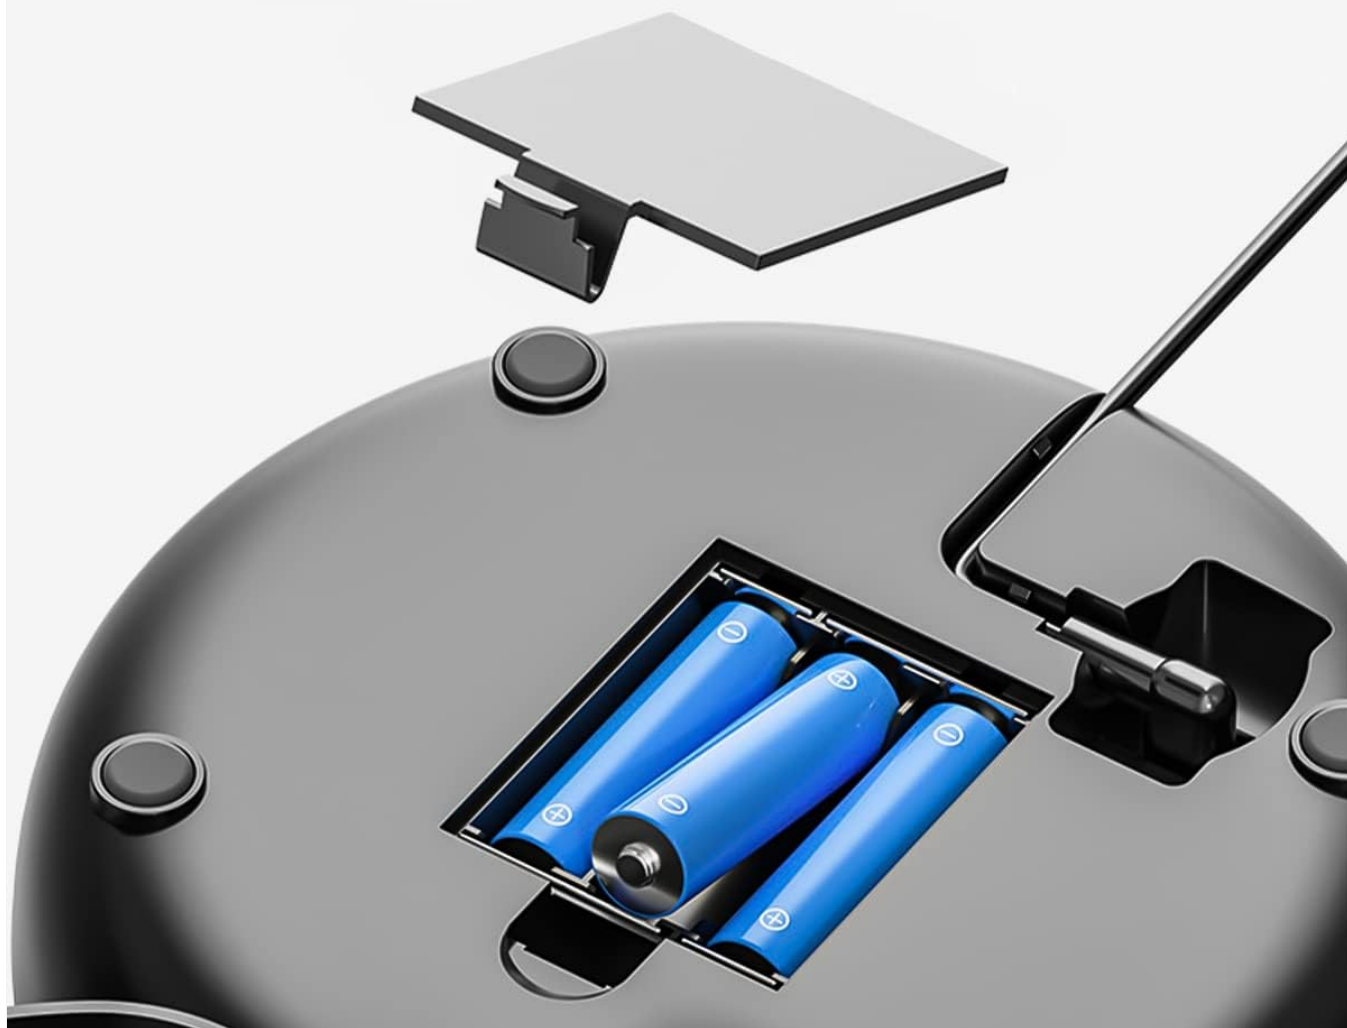

Figure 2: Dual power supply options, showing the battery compartment and adapter port.

4. **Fill the Food Container:** Open the lid and pour dry pet food into the 4-liter storage container. The dispenser is suitable for pet food up to 0.71 inches in size. Ensure the lid is securely closed to maintain freshness.

OPERATING INSTRUCTIONS

Setting the Time

Refer to the display and control buttons on the front of the unit. Use the 'SET' button to enter programming mode and the arrow buttons to adjust values. Confirm settings with 'OK'.

Programming Meal Schedules

The dispenser allows for 1 to 4 meals per day. For each meal, you can set the time and the number of portions (1 to 9 servings). Each serving is approximately 6-10g, depending on the food size.

- Press 'SET' to cycle through meal settings (Meal 1, Meal 2, etc.).
- Adjust the meal time using the arrow buttons.
- Set the number of portions for that meal.
- Confirm each setting with 'OK'.

The built-in memory chip saves all programmed schedules even if the device is powered off.

Manual Feeding

To dispense food manually, press the manual feed button (refer to the button layout on your device, typically labeled with a food icon or 'MANUAL'). This will dispense one portion of food.

45° STEEP SLOPE DESIGN

Smooth food delivery, No food jams, Safe feeding

Figure 3: The 45-degree steep slope design ensures smooth food delivery and prevents jams.

Feeding Amount Guide

The following table provides a general guide for daily feeding amounts based on pet weight. Adjust portions as needed for your pet's specific dietary requirements and activity level. Note: 1 portion (pt) is approximately 7.5g.

Suitable for pet food up to 0.71 inches (Cat food can be freeze-dried)

Figure 4: Recommended daily feeding amounts for pets.

Cat Weight	Daily Feeding Amount	Dog Weight (Approx.)
4-9 lbs (2-4 kg)	50-70g / day	~4 lbs (2 kg)
9-13 lbs (4-6 kg)	70-85g / day	~9 lbs (4 kg)
13-18 lbs (6-8 kg)	85-100g / day	~13 lbs (6 kg)

Cat Weight	Daily Feeding Amount	Dog Weight (Approx.)
18-22 lbs (8-10 kg)	100-120g / day	
	120-200g / day	13-20 lbs (6-9 kg)
	200-360g / day	20-50 lbs (9-20 kg)

MAINTENANCE

- **Cleaning:** The dispenser features a detachable design for easy cleaning. Regularly disassemble the food storage container and feeding bowl for thorough cleaning. Use mild soap and water, then rinse and dry completely before reassembly. The stainless steel bowl is rust-resistant and easy to clean.
- **Food Freshness:** Ensure the lid of the food storage container is always securely closed to maintain food freshness and prevent moisture ingress. The closed drinking outlet design is airtight and does not require additional desiccant.
- **Battery Check:** If using battery power, check the battery level periodically and replace batteries as needed to ensure continuous operation.

TROUBLESHOOTING

- **Dispenser Not Powering On:**
 - Check if the power adapter is securely plugged into both the dispenser and the wall outlet.
 - If using batteries, ensure they are inserted correctly and are not depleted. Replace if necessary.
- **Food Not Dispensing:**
 - Verify that the food container has enough food.
 - Check for any food jams in the dispensing mechanism. The 45-degree slope design is intended to prevent jams, but large or unusually shaped kibble might occasionally cause issues.
 - Ensure the scheduled meal times are correctly set.
- **Incorrect Portion Size:**
 - Re-check the programmed portion settings.
 - Note that portion weight (6-10g) can vary slightly depending on the size and density of the pet food.
- **Display Not Responding:**
 - Try disconnecting and reconnecting the power, or removing and reinserting batteries to reset the device.
