## MAINTENANCE

Proper care will extend the life and appearance of your chair:

- **Cleaning:** Wipe clean with a damp cloth. For cushions, use mild soap and water. The Olefin fabric is designed to be easy to wash.
- **Weather Protection:** While the wicker and cushions are weather-resistant, covering the chair during prolonged periods of harsh weather or storing it indoors during off-season will help preserve its condition.
- **Cushion Care:** Allow cushions to air dry completely after cleaning or rain to prevent mildew.

## TROUBLESHOOTING

If you encounter any issues with your chair, please refer to the following:

- **Difficulty Assembling:** Ensure all parts are correctly oriented as per the assembly diagrams. Do not overtighten screws until all components are loosely fitted. If issues persist, contact customer support.
- **Wobbling/Instability:** Check that all screws are securely tightened. Ensure the chair is placed on a flat, even surface. The non-slip pads should provide stability.
- **Stiff Swivel/Rocking:** Ensure no debris is obstructing the mechanism. A small amount of silicone-based lubricant can be applied to moving parts if necessary, avoiding contact with wicker or fabric.
