RAINPOINT 009-THD

RAINPOINT WiFi Hub 009 User Manual

Model: 009-THD

INTRODUCTION

The RAINPOINT WiFi Hub 009 is designed to extend the functionality of your RAINPOINT Model 102B Hose Timer by enabling remote control and monitoring via a Wi-Fi connection. This hub acts as a bridge, connecting your Bluetooth-enabled hose timer to your home Wi-Fi network, allowing you to manage your watering schedules from anywhere using the RAINPOINT app.

SAFETY INFORMATION

- This device is intended for indoor use only. Do not expose to water or excessive humidity.
- Keep out of reach of children.
- Do not disassemble or attempt to repair the device. This will void the warranty.
- Ensure the power outlet meets the device's power requirements.
- Unplug the device during lightning storms or when unused for long periods.

PACKAGE CONTENTS

- RAINPOINT WiFi Hub 009 (Model: 009-THD)
- User Manual (this document)

PRODUCT OVERVIEW

The WiFi Hub 009 features a simple design for ease of use.

- **Power Plug:** For connecting to a standard electrical outlet.
- **Indicator Light:** Displays the status of the hub (e.g., pairing mode, connected, disconnected).
- **Function Button:** Used for pairing and resetting the device.

SETUP GUIDE

Step 1: Download the RAINPOINT App

Search for "RAINPOINT" in your smartphone's app store (iOS App Store or Google Play Store) and download the official application. Create an account or log in if you already have one.

Step 2: Power On the WiFi Hub

Plug the RAINPOINT WiFi Hub 009 into a standard indoor electrical outlet. The indicator light on the hub should begin to flash, indicating it is ready for pairing.

Step 3: Add the Hub to the App

1. Open the RAINPOINT app.
2. Tap the "+" icon (or "Add Device") to add a new device.
3. Select "WiFi Hub" from the list of available devices.
4. Follow the on-screen instructions to connect the hub to your 2.4 GHz Wi-Fi network. You may need to press and hold the function button on the hub to enter pairing mode if the light is not flashing.
5. Once connected, the indicator light on the hub will turn solid, and the app will confirm successful pairing.

Step 4: Connect the 102B Hose Timer to the Hub

Ensure your RAINPOINT Model 102B Hose Timer is within Bluetooth range of the WiFi Hub. The hub will automatically detect and connect to nearby 102B timers that are in pairing mode or already configured with your account. You can then manage your timer through the app via the hub's Wi-Fi connection.

OPERATING INSTRUCTIONS

Using the RAINPOINT App

Once the WiFi Hub and your 102B Hose Timer are successfully connected, you can use the RAINPOINT app to:

- Set and modify watering schedules for your 102B timer.
- Manually start or stop watering cycles remotely.
- Monitor the status of your timer and view watering history.
- Receive notifications related to your watering system.

Refer to the RAINPOINT app's in-app help or the 102B Hose Timer's specific user manual for detailed instructions on programming and advanced features.

Indicator Light Status

Light Status	Meaning
Flashing slowly	Ready for pairing (AP mode)
Flashing rapidly	Ready for pairing (EZ mode)
Solid	Connected to Wi-Fi
Off	No power or device malfunction

MAINTENANCE

- Keep the hub clean by wiping it with a dry, soft cloth. Do not use liquid cleaners.
- Ensure the hub is placed in a location with good Wi-Fi signal strength and within effective Bluetooth range of your 102B Hose Timer.
- Avoid placing the hub near large metal objects or other electronic devices that may cause interference.

TROUBLESHOOTING

Hub not connecting to Wi-Fi:

- Ensure your Wi-Fi network is 2.4 GHz. The hub does not support 5 GHz networks.
- Check your Wi-Fi password for accuracy.
- Move the hub closer to your Wi-Fi router.
- Restart your Wi-Fi router.
- Try resetting the hub by pressing and holding the function button for 5-10 seconds until the indicator light flashes rapidly. Then attempt pairing again.

102B Timer not connecting to Hub:

- Ensure the 102B Hose Timer is powered on and within Bluetooth range of the hub.
- Check the batteries in your 102B Hose Timer.
- Ensure the 102B Timer is not currently connected to another Bluetooth device (e.g., your phone directly).

- Restart both the hub and the 102B timer.

App shows "Offline" status:

- Verify your home Wi-Fi network is active and has internet access.
- Check the hub's indicator light. If it's not solid, refer to the "Hub not connecting to Wi-Fi" section.
- Restart the RAINPOINT app.

SPECIFICATIONS

Feature	Detail
Model Number	009-THD
Product Dimensions	1 x 1 x 1 inches
Item Weight	2.39 ounces
Color	White
Material	Plastic
Data Transfer Rate	2.4 GHz (Wi-Fi)
Connectivity	Wi-Fi (2.4GHz), Bluetooth (for timer connection)
