# Faroro Automatic Pet Feeder with Camera User Manual

Model: PF22

## 1. INTRODUCTION

The Faroro Automatic Pet Feeder with Camera is designed to provide convenient and reliable feeding for your cats and dogs, ensuring they are fed on schedule even when you are away. This smart feeder integrates advanced technology to monitor your pet, manage feeding times, and provide real-time updates.

### Key Features:

- **3MP HD Camera with IR Night Vision:** Monitor your pet with clear video, day or night.
- **Smart APP Control:** Schedule up to 8 meals daily with customizable portions (1-10 portions, approx. 10g each).
- **4L Capacity:** Suitable for dry, freeze-dried, and air-dried food (kibble size up to 10mm).
- **Dual Power Supply:** Operates via USB cable with battery backup (3 x No.1 batteries, not included) for power outages.
- **Real-time Pop-up Notifications:** Receive alerts for motion detection, low food, or device offline status.
- **Two-way Audio & Personalized Meal Call:** Interact with your pet and record custom voice messages.

### Package Contents:

- 1 x Automatic Pet Feeder with Camera (4L)
- 1 x Anti-bite USB Cable
- 1 x Power Adapter
- 1 x User Manual
- 1 x Desiccant Bag

## Package Includes

Image: The Faroro Automatic Pet Feeder, its packaging box, power adapter, USB cable, user manual, and desiccant bag, illustrating the complete package contents.

## 2. SETUP

### 2.1 Unpacking and Placement

1. Carefully remove all components from the packaging.
2. Place the feeder on a flat, stable surface in a location accessible to your pet and within Wi-Fi range.
3. Ensure the feeder is not exposed to direct sunlight or excessive moisture.

### 2.2 Power Connection

1. Connect the anti-bite USB cable to the feeder and the power adapter.
2. Plug the power adapter into a standard electrical outlet.
3. For backup power, insert three No.1 batteries (not included) into the battery compartment at the bottom of the feeder. This ensures uninterrupted feeding during power outages.

Image: The pet feeder connected to a wall outlet, illustrating its dual power supply capability with an icon for battery backup.

### 2.3 App Download and Wi-Fi Setup

1. Download the **Faroro App** from your smartphone's app store (iOS or Android). Scan the QR code provided in the physical user manual for direct access.
2. Open the Faroro App and create an account or log in.
3. Follow the in-app instructions to add your new pet feeder. Ensure your phone is connected to a 2.4GHz Wi-Fi network during the setup process. The feeder supports 5G WiFi for enhanced

connectivity.

4. Once successfully paired, the feeder's indicator light will change, and you will receive a confirmation in the app.

### **3. OPERATING THE FEEDER**

#### **3.1 Filling the Food Reservoir**

1. Open the lid of the food reservoir.
2. Pour dry pet food into the reservoir. The feeder has a 4L (16.9 cups) capacity. Ensure kibble size does not exceed 10mm (0.39 in) to prevent jamming.
3. Place the included desiccant bag in its designated slot to maintain food freshness.
4. Close the lid securely to keep food fresh and prevent spills.

#### **3.2 Scheduling Meals via App**

1. In the Faroro App, navigate to the feeding schedule section.
2. You can schedule up to 8 meals per day.
3. For each meal, set the desired time and the number of portions (1-10 portions, approximately 10g per portion).
4. Save your feeding plan. The app will keep a real-time feeding record.

#### **3.3 Manual Feeding**

You can dispense food manually at any time using the app. Simply tap the "Feed" button in the app and select the number of portions you wish to dispense.

#### **3.4 Camera and Two-Way Audio**

# Always Keep An Eye on Your Pet

Check your pet's status in ultra-clear HD

3MP HD Camera

Motion Detection

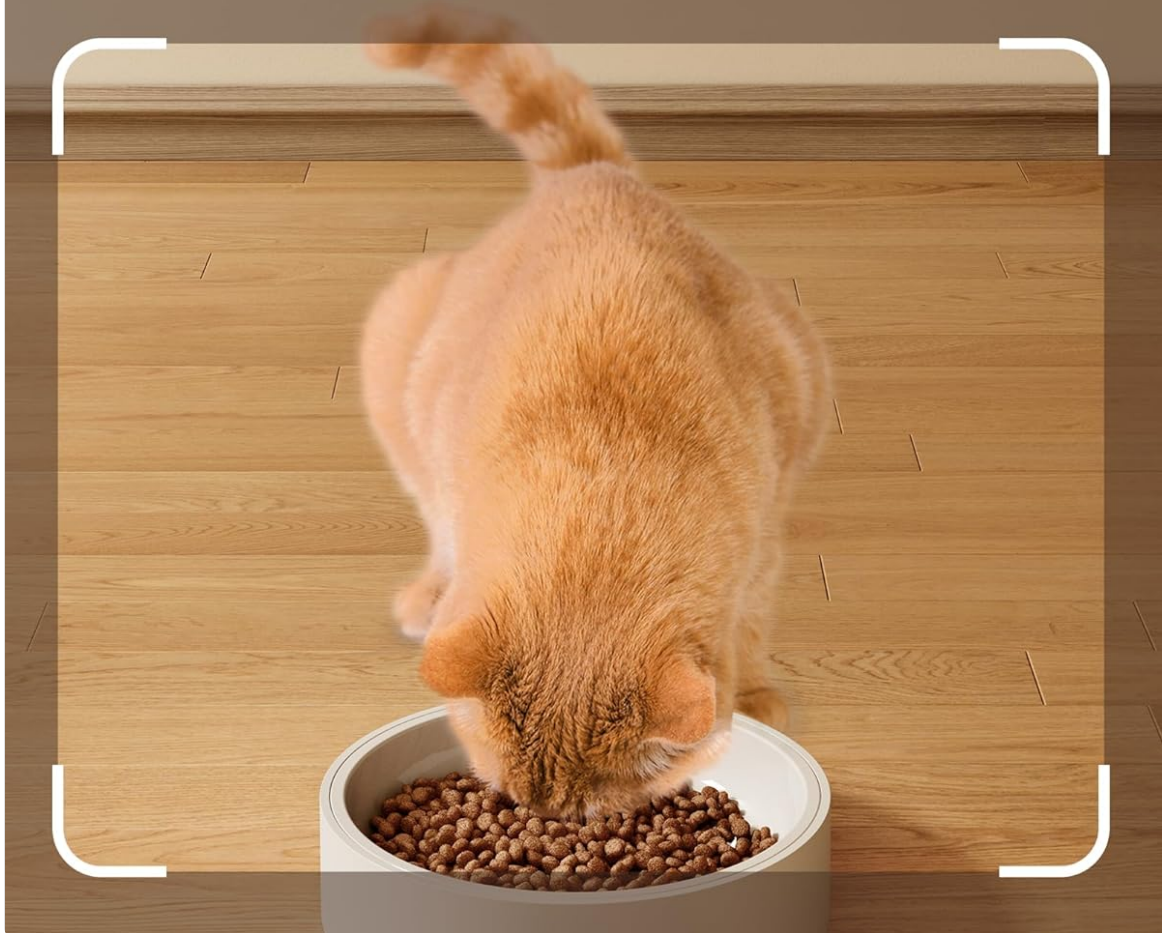

Image: A cat eating from the feeder, with an overlay indicating 3MP HD Camera and Motion Detection features.

- **Live View:** Access the 3MP HD camera live feed through the app to monitor your pet. The 110° wide viewing angle provides a comprehensive view.
- **Night Vision:** The feeder automatically switches to IR night vision in low-light conditions, allowing clear monitoring 24/7.
- **Two-Way Audio:** Use the built-in microphone and speaker to communicate with your pet in real-time. This can help reduce separation anxiety or deter mischievous behavior.
- **Personalized Meal Call:** Record a voice message (e.g., "Hey, baby, it's time to eat!") that will play automatically at meal times to call your pet.

# See Your Pet Clearly Even at Night

Image: A smartphone screen showing a cat in black and white night vision mode, with a 110° wide-angle view, demonstrating the feeder's night vision capability.

## Real-time Two-way Audio

Image: A woman speaking into her phone, with a thought bubble "Hey, baby, it's time to eat!", and a cat at the feeder with a "Woof...Woof..." thought bubble, illustrating the two-way audio feature.

### 3.5 Notifications and Recording

- **Motion Alerts:** The feeder's motion detector will send real-time alerts to your phone when movement is sensed. You can adjust sensitivity (high, medium, low).
- **Low Food Sensor:** Receive notifications when the food level in the reservoir is low, prompting you to refill.
- **Device Offline Alerts:** Be informed if the feeder loses its internet connection.
- **Video Recording:** To record and playback videos of your pet's activities, insert a MicroSD card (Class 10 or higher, 8GB to 256GB, not included) into the designated slot.

# Get Notifications for Peace of Mind

Notifications come in when pet food is low or device is offline

Image: A smartphone showing pop-up notifications for "Food Running Low" and "Security Camera Heads Up!", with a cat next to the feeder.

## Recording to Micro card supported (Not included)

Note: Supports MicroSD cards of Class 10 or higher, ranging from 8GB to 256GB.

## 4. MAINTENANCE

Regular cleaning of your Faroro Automatic Pet Feeder is essential to ensure hygiene and proper function. This machine is suitable for all sizes of cats and small dogs and needs to be washed regularly.

### Cleaning Instructions:

1. Unplug the feeder from the power outlet and remove any backup batteries.
2. Empty any remaining food from the reservoir.
3. Disassemble the detachable parts: the food reservoir, feeding bowl, and any removable dispensing components.
4. Wash all detachable parts by hand using mild soap and water. **Do not wash the main machine base, which contains electronic components.**
5. Rinse all parts thoroughly to remove soap residue.
6. Wipe all parts completely dry before reassembling to prevent moisture damage and maintain food freshness.

7. Reassemble the feeder, ensuring all parts are securely in place.

## Easy to Clean

Detachable structure for a hygienic feeding environment

Note: Wipe all parts dry before use. Do not wash the machine base.

Image: Exploded view of the feeder components with water splashes, illustrating its detachable structure for easy cleaning.

## 5. TROUBLESHOOTING

If you encounter issues with your Faroro Automatic Pet Feeder, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Feeder is offline / Cannot connect to App	Incorrect Wi-Fi password. Feeder is out of Wi-Fi range. Router is using 5GHz band only (feeder requires 2.4GHz for initial setup). Temporary network issue.	Verify Wi-Fi password and ensure it's a 2.4GHz network. Move feeder closer to the Wi-Fi router. Restart your Wi-Fi router and the feeder. Re-pair the feeder with the app if necessary.
Food not dispensing / Jammed	Kibble size too large. Food stuck in dispenser mechanism. Low food level.	Ensure kibble size is within 10mm. Clean the dispensing mechanism thoroughly (refer to Maintenance section). Refill the food reservoir.
Camera image is blurry or dark	Protective film on lens. Lens is dirty. Insufficient lighting (for color image).	Remove any protective film from the camera lens. Gently clean the camera lens with a soft, dry cloth. Ensure adequate lighting or rely on night vision for dark environments.

## 6. SPECIFICATIONS

Feature	Detail
Model Name	Automatic Cat Feeder with Camera
Item Model Number	PF22
Brand	faroro
Capacity	4 Liters (approx. 16.9 cups)
Camera Resolution	3MP HD
