

SMALLRIG 251631-SR

SmallRig Mini Parabolic Softbox RA-D30 Instruction Manual

MODEL: 251631-SR

Introduction

The SmallRig Mini Parabolic Softbox RA-D30 is designed to provide soft, even illumination for your photography and videography needs. Its quick-release mechanism ensures efficient setup and breakdown, making it an ideal accessory for both studio and on-location shoots. This manual provides detailed instructions for the proper use and care of your softbox.

Setup

The RA-D30 Mini Parabolic Softbox features a quick-release design for efficient assembly and disassembly. To set up the softbox, gently pull up the opposite rods until the frame locks into an open position. To detach or fold it back, simply click the quick-release buttons located at the base of the softbox. While the quick-release mechanism simplifies attachment to the light, initial unfolding of the softbox frame from its compact travel configuration may require a firm but careful application of force to ensure all rods are properly extended and locked. Avoid excessive force to prevent damage.

Quick Release Design

Saving time and effort with the new generation
of self-developed quick-release design

Easy to install

Easy to detach

Just click the quick release buttons
to fold it back

The softbox is designed to be lightweight and portable, weighing only 290g and folding compactly for easy storage and transport in the included carrying bag.

Compatibility with RC 60B COB Light

100W PD Charger for RC 60B (ID: 4315/4370/4371/4372)

RC 60B COB Light (ID: 4376)

100W PD Charger for RC 60B (ID: 4315)

Image: The softbox in its folded, portable state, demonstrating its compact size.

Operating

The SmallRig Mini Parabolic Softbox allows for adjustable light direction and diffusion. The included diffuser cloth and honeycomb grid can be combined to achieve various lighting effects. The diffuser cloth softens the light output, while the honeycomb grid narrows the beam to a 45° angle for more controlled lighting. Attach the diffuser cloth by aligning its edges with the softbox opening and securing it. The honeycomb grid can then be attached over the diffuser if desired.

Lightweight and Portable

Weighing only 290g
and foldable for easy storage

Image: Examples demonstrating the effects of using the softbox with and without the diffuser and honeycomb grid.

Maintenance

To ensure the longevity and optimal performance of your SmallRig Mini Parabolic Softbox, keep it clean and free from dust and debris. Use a soft, dry cloth to wipe down the exterior. For the diffuser cloth and honeycomb grid, gentle spot cleaning with a damp cloth may be performed if necessary. Ensure all components are completely dry before folding and storing the softbox in its carrying bag. Store in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter any issues with your SmallRig Mini Parabolic Softbox, please review the setup instructions to ensure all components are correctly assembled. If the softbox does not open or close smoothly, gently check for any obstructions or misaligned rods. Do not force the mechanism. For persistent issues or concerns not addressed in this manual, please contact SmallRig customer support for assistance.

Specifications

Feature	Detail
Brand	SMALLRIG
Model Number	251631-SR
Product Dimensions	2.36 x 1.57 x 1.57 inches
Item Weight	10.2 ounces
Opening Softbox Size	11.2 x 8.7 inches (Φ29cm)
