Viconor Red Light Therapy Belt (Large)

Viconor Red Light Therapy Belt User Manual

Model: Red Light Therapy Belt (Large)

Brand: Viconor

Introduction

The Viconor Red Light Therapy Belt is an innovative device designed for body comfort, featuring wireless APP control and dual power modes. It incorporates a split design with a red light pad and an elastic band, offering flexibility and convenience for various applications. This manual provides essential information for the safe and effective use of your Viconor Red Light Therapy Belt.

The belt utilizes 120 arrays of 660nm red lights and 240 units of 850nm invisible lights, providing a comprehensive light therapy experience. It supports both battery power supply and direct charging, ensuring versatility in use.

Setup Guide

1. Unboxing and Component Check

Carefully remove all components from the packaging. Ensure you have the following items:

- Viconor Red Light Therapy Pad
- Elastic Belt
- Power Adapter/Charger
- Rechargeable Battery (if included)
- User Manual (this document)

Figure 1: Main components of the Viconor Red Light Therapy Belt, showing the light pad, elastic belt, charger, battery, and a smartphone displaying the control app.

2. Assembling the Belt

Attach the red light therapy pad to the elastic belt. The split design allows for flexible positioning. Ensure the pad is securely fastened to the belt for comfortable and effective use.

3. Powering the Device

The Viconor Red Light Therapy Belt offers two power supply options:

- **Battery Power:** Connect the included rechargeable battery to the designated port on the light pad. Ensure the battery is fully charged before first use.
- **Direct Charging:** Connect the power adapter directly to the light pad for continuous operation. This mode is suitable for use near a power outlet.

4. APP Control Setup

For enhanced control, download the Viconor APP on your smartphone. The APP allows for seamless adjustment of settings without traditional wired switches.

1. Scan the QR code in the product packaging or search for the "Viconor" APP in your device's app store.
2. Install the APP and open it.
3. Follow the on-screen instructions to pair your device with the belt via Bluetooth. No registration is required to protect your privacy.

Operating Instructions

1. Turning On/Off

Press and hold the power button on the light pad or use the ON/OFF toggle within the Viconor APP to power the device on or off.

2. Mode Selection and Intensity Adjustment

The device offers three default modes and adjustable intensity:

- **Red Mode:** 16W (100% illumination)
- **White Mode:** 8W (50% illumination)
- **Blue Mode:** 2W (10% illumination)

You can manually adjust these modes using the buttons on the device or precisely control the infrared light intensity (2-16W) through the mobile APP. The APP allows for smooth, granular control over the illumination level.

3. Setting the Timer

Use the timing control feature in the APP to set the duration of your therapy session. This ensures consistent and safe usage.

4. Application Areas

The flexible design of the Viconor Red Light Therapy Belt allows it to be applied to various body parts for targeted comfort. Common application areas include:

- Waist
- Shoulders
- Legs (e.g., knees, thighs)
- Other areas requiring comfort

Figure 6: The Viconor Red Light Therapy Belt designed for "Power On-the-Go," suitable for use in various environments like the office, gym, or during travel.

Maintenance

1. Cleaning the Device

To clean the light pad, gently wipe the surface with a soft, damp cloth. Do not immerse the device in water or use harsh chemicals. Ensure the device is completely dry before storage or next use.

2. Storage

Store the Viconor Red Light Therapy Belt in a cool, dry place away from direct sunlight and extreme temperatures. Keep it out of reach of children and pets.

3. Battery Care

If your device uses a rechargeable battery, ensure it is charged regularly, even if not in frequent use, to maintain battery health. Avoid fully discharging the battery for extended periods.

Troubleshooting

If you encounter any issues with your Viconor Red Light Therapy Belt, please refer to the following common solutions:

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or power connection issue.	Ensure the battery is charged or connect the device directly to the power adapter. Check all connections are secure.
APP cannot connect to the device.	Bluetooth is off or device is not in pairing mode.	Ensure Bluetooth is enabled on your smartphone. Restart the device and the APP. Try re-pairing the device through the APP settings.
Lights are dim or flickering.	Insufficient power or device malfunction.	Charge the battery or use direct power. If the problem persists, contact customer support.

If you experience issues not listed here, please contact Viconor customer support for assistance.
