SBONNI M-P08E

SBONNI M-P08E Exhaust Fan Remote Control User Manual

Model: M-P08E

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your SBONNI M-P08E Exhaust Fan Remote Control. Please read this manual thoroughly before use to ensure proper functionality and longevity of the device.

PRODUCT OVERVIEW

The SBONNI M-P08E is an infrared remote control designed for specific exhaust fan models, offering convenient control over fan speed, direction, and LED lighting. It features a compact design and intuitive button layout.

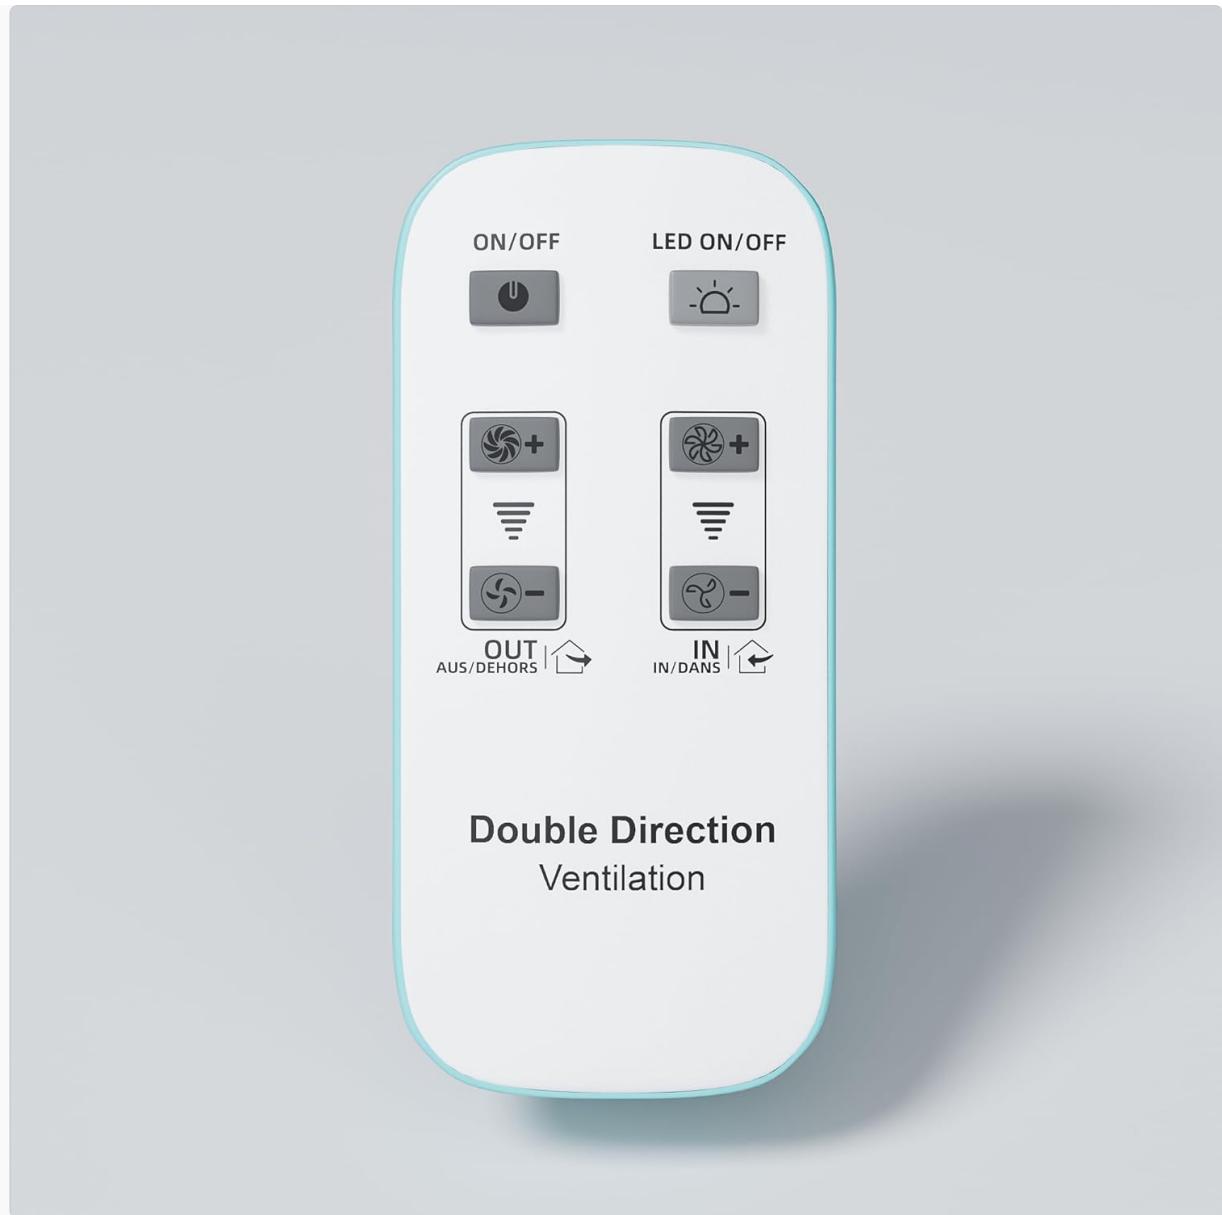

Figure 1: SBONNI M-P08E Remote Control. This image displays the front face of the remote control, highlighting the power button, LED control, fan speed adjustment buttons (plus and minus), and fan direction buttons (OUT/AUS/DEHORS and IN/IN/DANS).

SETUP

1. Battery Installation

1. Locate the battery compartment cover on the back of the remote control.
2. Slide or gently pry open the cover.
3. Insert two (2) AAA batteries, ensuring the positive (+) and negative (-) terminals align with the markings inside the compartment. The remote control requires 2 AAA batteries, which are included.
4. Replace the battery compartment cover, ensuring it clicks securely into place.

2. Pairing (If Applicable)

The SBONNI M-P08E remote control typically operates via infrared (IR) and does not require a complex pairing process. Ensure the remote control is pointed directly at the exhaust fan's IR receiver for optimal performance. If your exhaust fan model requires a specific pairing procedure, please refer to the fan's instruction manual.

OPERATING INSTRUCTIONS

Point the remote control directly towards the exhaust fan's receiver when pressing buttons.

- **ON/OFF Button (■)**: Press this button to turn the exhaust fan ON or OFF.
- **LED ON/OFF Button (■)**: Press this button to turn the fan's integrated LED light ON or OFF.
- **Fan Speed Increase Button (▲)**: Press this button to increase the fan speed.
- **Fan Speed Decrease Button (▼)**: Press this button to decrease the fan speed.
- **OUT / AUS / DEHORS Button (➡)**: Press this button to set the fan to exhaust air outwards.
- **IN / IN / DANS Button (⬅)**: Press this button to set the fan to draw air inwards.

The remote control supports "Double Direction Ventilation," allowing you to control both intake and exhaust functions of your fan.

MAINTENANCE

- **Cleaning**: Wipe the remote control with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement**: Replace batteries when the remote control's range decreases or it stops responding. Always replace both batteries simultaneously with new AAA batteries.
- **Storage**: If not in use for an extended period, remove the batteries to prevent leakage and damage. Store in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote control not responding.	<ul style="list-style-type: none">• Dead or incorrectly installed batteries.• Obstruction between remote and fan.• Remote control out of range.	<ul style="list-style-type: none">• Replace batteries with new AAA batteries, ensuring correct polarity.• Remove any objects blocking the line of sight to the fan's IR receiver.• Move closer to the exhaust fan.
Fan responds intermittently.	<ul style="list-style-type: none">• Weak batteries.• Interference from other IR devices.	<ul style="list-style-type: none">• Replace batteries.• Ensure no other IR devices are operating nearby or causing interference.

SPECIFICATIONS

- **Brand**: SBONNI
- **Model**: M-P08E
- **Dimensions**: 14 x 5.6 x 2.7 cm
- **Weight**: 53 grams
- **Connectivity Technology**: Infrared (IR)
- **Controller Type**: Button Control

- **Batteries Required:** 2 x AAA (included)
- **Battery Composition:** Zinc
