Yakry C2

Yakry Automatic Pet Feeder with Camera (Model C2) - User Manual

Your comprehensive guide to setting up, operating, and maintaining your smart pet feeder.

Introduction

The Yakry Automatic Pet Feeder with Camera is designed to simplify pet feeding by providing automated, scheduled meals and remote monitoring capabilities. This smart feeder ensures your pets receive balanced and timely nutrition, even when you are away. With its integrated HD 1080P camera, two-way audio, and easy-to-clean design, it offers convenience and peace of mind for pet owners.

Key Features

- **Automatic Feeding Schedule:** Program precise feeding times and portion sizes via the mobile application.
- **HD 1080P Camera:** Monitor your pet with clear video quality, day or night, using the built-in infrared night vision.
- **Two-Way Audio & Voice Recording:** Communicate with your pet remotely and record personalized meal calls.
- **Dual Power Supply:** Operates via USB power with battery backup (3 x D batteries, not included) to ensure continuous feeding during power outages.
- **Easy to Clean Design:** Features a removable food storage bucket and a detachable stainless steel bowl for hygienic maintenance.
- **Memory Function:** Retains feeding schedules even after power interruptions when backup batteries are installed.
- **Visible Hopper:** 4.5L capacity with a transparent window to easily monitor food levels.

Image: An infographic highlighting the feeder's features: Easy to Setup, Support 5G/2.4G Network, Feed/Call Pets Anytime, Anywhere, Feeding Voices Recording Custom Voice, Phone Real-time Monitoring HD 1080P Camera, Easy to Clean Removable Stainless Steel Bowl Liner.

Setup Guide

1. **Unpack and Assemble:**
   - Remove all components from the packaging.
   - Assemble the food storage bucket onto the base unit.
   - Place the stainless steel bowl into the feeder's designated slot.
2. **Power Connection:**
   - Connect the USB cable to the feeder and plug the adapter into a power outlet.
   - For backup power, insert 3 x D batteries (not included) into the battery compartment at the bottom of the unit. It is recommended to use both power sources simultaneously.

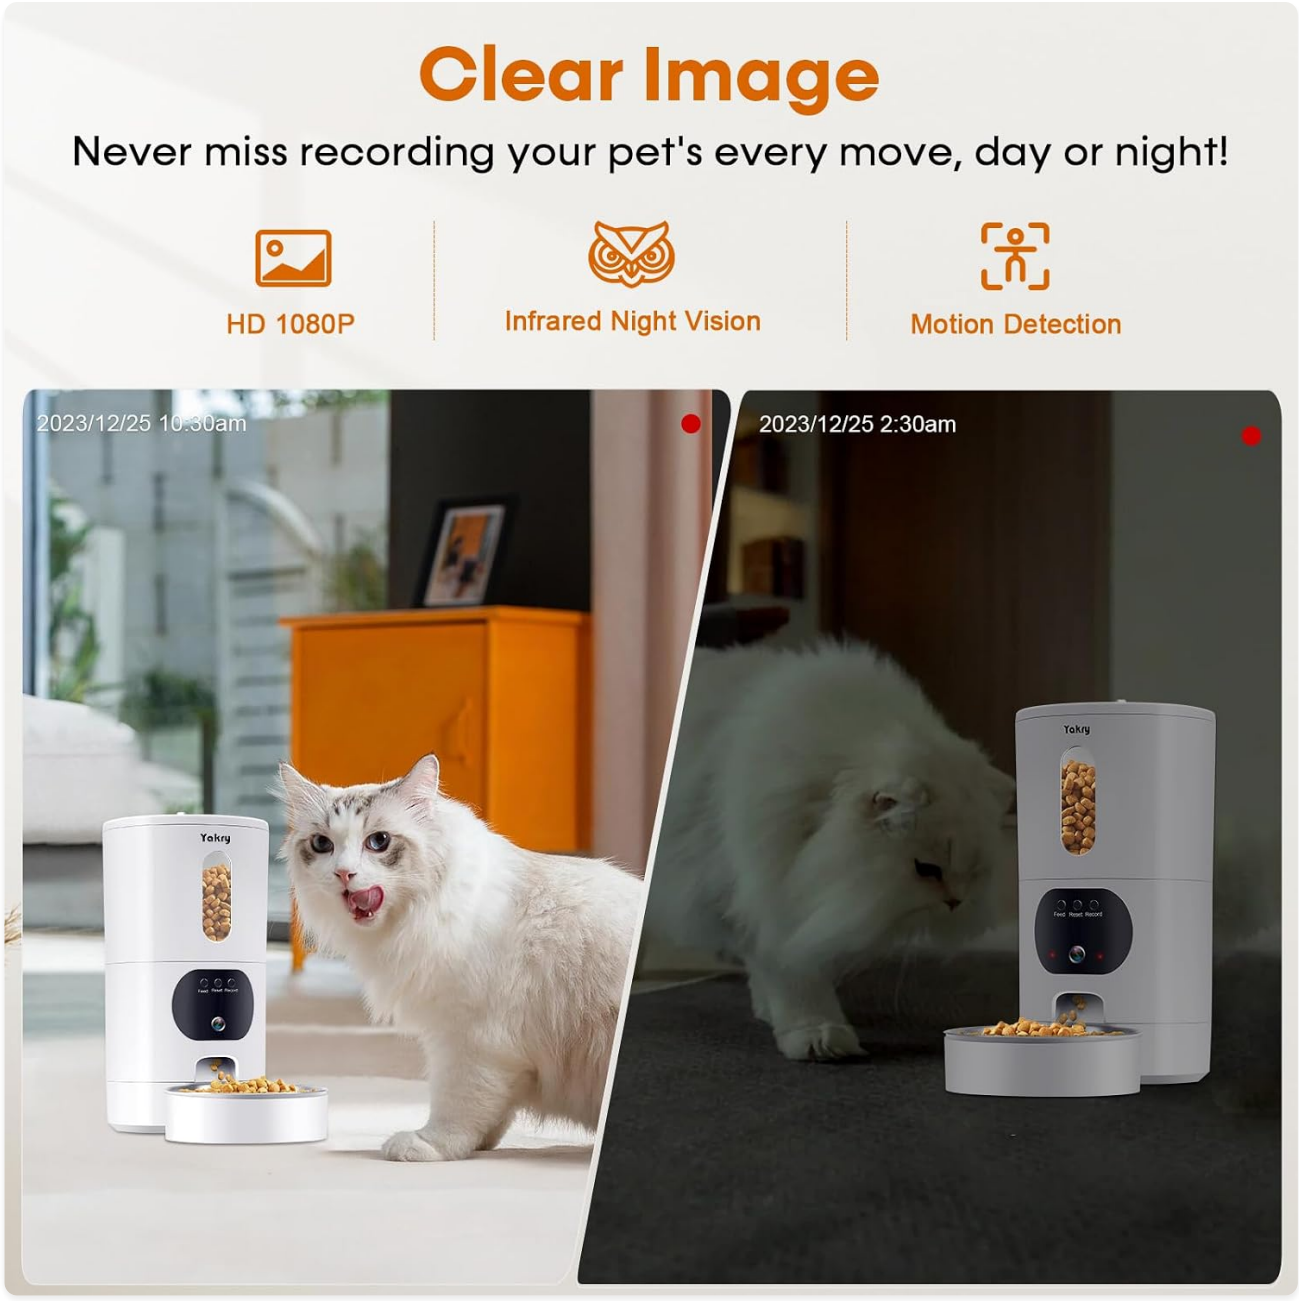

Image: This image details the dual power supply options for the feeder: USB powered and battery powered (batteries not included). An inset shows the battery compartment.

3. **Download and Install App:**
    - Scan the QR code in the product manual or search for the "Smart Life" app (or specified app name) on your smartphone's app store (iOS or Android).
    - Install the application and create an account.
4. **Connect to Wi-Fi:**
    - Open the app and follow the on-screen instructions to add a new device.
    - Ensure your phone is connected to a 2.4GHz or 5GHz Wi-Fi network. The feeder supports both.
    - Follow the app's prompts to connect the feeder to your home Wi-Fi network. This typically involves pressing a reset button on the feeder and entering your Wi-Fi password in the app.
5. **Fill Food Hopper:**
    - Open the lid of the food storage bucket.
    - Fill the hopper with dry pet food. Ensure kibble size is between 2-12mm (0.08-0.5 inches) to prevent blockages.
    - Close the lid securely. The rotating locking lid design helps prevent pets from opening it and keeps food

fresh.

Operating Instructions

1. **Setting Feeding Schedule:**
    - Within the app, navigate to the feeder's control interface.
    - Select the "Schedule" or "Timer" option.
    - Set desired feeding times and the number of portions for each meal. The feeder allows for multiple meals per day.
    - Save your settings. The feeder will now automatically dispense food at the programmed times.

Image: This image illustrates the customizable feeding schedule feature, showing multiple meal times per day. It also indicates the feeder is suitable for cats, small dogs, and rabbits, with various breeds pictured.

2. **Manual Feeding:**
    - You can manually dispense food at any time through the app by selecting the "Feed Now" option.
    - Alternatively, press the "Feed" button on the feeder's control panel for an immediate single portion.
3. **Using the Camera and Two-Way Audio:**

- Access the live camera feed through the app to monitor your pet. The camera provides HD 1080P video with infrared night vision.
- To speak to your pet, tap the microphone icon in the app and speak into your phone. Your voice will be played through the feeder's speaker.
- To record a personalized meal call (up to 10 seconds), use the "Record" function in the app. This recording will play when food is dispensed.

Image: Two panels show the feeder's camera capabilities: HD 1080P daytime view with a cat eating, and infrared night vision view in a dark room.

Maintenance

Regular cleaning of your Yakry Automatic Pet Feeder is essential to ensure hygiene and proper functionality. The design allows for easy disassembly of food-contact parts.

1. **Disassembly for Cleaning:**
    - Ensure the feeder is unplugged and backup batteries are removed before cleaning.
    - Remove the food storage bucket by twisting or unlatching it from the base.
    - Detach the stainless steel bowl from its holder.
    - Remove any internal components related to food dispensing, such as the impeller, if they are designed to be removable.
2. **Cleaning Components:**
    - Wash the food storage bucket, lid, and stainless steel bowl with warm, soapy water. Rinse thoroughly and allow them to air dry completely before reassembly.
    - **Important: Do not wash the main base unit, which contains electronic components.**Wipe the exterior

of the base unit with a damp cloth and dry immediately.

Image: This image demonstrates the ease of cleaning, showing the removable food storage bucket, lid, and stainless steel bowl being hand-washed. A note reminds not to wash the base.

3. **Desiccant Bag Replacement:**
    - The feeder comes with a desiccant bag to keep food fresh and dry. Check its condition periodically.
    - Replace the desiccant bag every 1-2 months, or as needed, to maintain optimal food freshness.
4. **Reassembly:**
    - Once all parts are completely dry, reassemble the feeder in reverse order of disassembly.
    - Ensure all connections are secure before plugging the unit back in.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Feeder not dispensing food.	No power or low battery. Food hopper empty. Food blockage. Incorrect schedule settings.	Check power connection and/or replace backup batteries. Refill food hopper. Check for kibble stuck in the dispenser. Ensure kibble size is appropriate (2-12mm). Verify schedule settings in the app.
Cannot connect to Wi-Fi.	Incorrect Wi-Fi password. Feeder too far from router. Router frequency mismatch (2.4GHz vs 5GHz).	Double-check Wi-Fi password. Move feeder closer to the Wi-Fi router. Ensure your router is broadcasting a 2.4GHz or 5GHz network and your phone is connected to the correct one during setup.
Camera feed is unclear or dark.	Poor lighting conditions. Lens obstruction.	Ensure adequate lighting for daytime viewing. The feeder has infrared night vision for low-light conditions. Clean the camera lens gently with a soft cloth.
Loud recording sound.	This issue has been addressed with product upgrades.	If you experience this, ensure your device firmware is up to date via the app. Contact customer support if the issue persists.
Pet knocks feeder, one portion dispenses.	Normal operation due to backup portion at exit.	This is expected behavior. Only one portion will drop. The feeder is designed to be stable and prevent further accidental dispensing.

Specifications

Feature	Detail
Model Name	C2
Brand	Yakry
Capacity	4.5 Liters
Camera Resolution	HD 1080P
Night Vision	Infrared
Connectivity	Wi-Fi (2.4GHz or 5GHz)
Power Supply	USB Cable and Adapter; 3 x D Batteries (backup, not included)
Material	Acrylonitrile Butadiene Styrene, PC, Stainless Steel
Item Dimensions (LxWxH)	7 x 12.8 x 7 inches
Item Weight	3.86 pounds
Recommended Kibble Size	2-12mm (0.08-0.5 inches)

Feature	Detail
Care Instructions	Hand Wash Only (removable parts)

Warranty and Support

The Yakry Automatic Pet Feeder (Model C2) comes with a**two-year guarantee** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use.

For technical support, troubleshooting assistance, or warranty claims, please contact Yakry customer service through the following channels:

- **Email:** Refer to your product packaging or the "Contact Us" section within the mobile application for the most current email address.
- **Online Support:** Visit the official Yakry website for FAQs, support articles, and contact forms.

Please retain your proof of purchase for warranty validation.

Important Notes

- This feeder is designed for dry pet food only. Do not use wet food, canned food, or treats that may cause blockages.
- Ensure the feeder is placed on a stable, level surface to prevent tipping.
- While the feeder has a memory function, it is recommended to keep backup batteries installed to ensure continuous operation during power outages.
- No official seller videos were available for embedding based on the provided data.
