

UPIKIT Cat Litter Box

UPIKIT Self-Cleaning Cat Litter Box User Manual

Model: Cat Litter Box

1. PRODUCT OVERVIEW

The UPIKIT Self-Cleaning Cat Litter Box is designed to provide a convenient and hygienic solution for cat owners. This automatic litter box features smart APP control, ionic deodorization, and a robust incident protection mechanism, ensuring a clean environment for your feline companions and ease of use for you. It is compatible with various types of clumping cat litter and is suitable for cats over 6 months old, weighing between 1 and 8 kg.

2. KEY FEATURES

- **Smart APP Remote Control:** Manage cleaning modes, monitor cat usage frequency, and check the litter box status from anywhere via the Tuya APP (2.4GHz Wi-Fi connection required).
- **Ionic Deodorization:** Utilizes a scientific ionic deodorization system to eliminate up to 99.8% of odors, ensuring a fresh environment without the need for consumable replacements.
- **Large Capacity & Low Entry:** Features a 65-liter interior space and a 9-liter waste collection bin, suitable for multi-cat households (up to 3 adult cats). The 5.9-inch low entry design accommodates older cats, short-legged cats, and those with limited mobility.
- **Multi-Cat Data Monitoring:** Tracks bathroom data for multiple cats, providing insights into their health and habits.

- **Enhanced Safety:** Equipped with 4 sets of gravity sensors, a thermal column bioradar, and an incident protection mechanism to ensure your pet's safety during operation. Includes an anti-bite power cord.
- **One-Key Litter Replacement:** Simplifies the process of emptying old litter and adding new, making maintenance effortless.
- **Compatible with Various Litters:** Designed to work effectively with all kinds of clumping cat litter, including tofu, bentonite, and ore litters.

3. SETUP GUIDE

The UPIKIT Self-Cleaning Cat Litter Box is designed for easy assembly. It consists primarily of two main parts: the litter compartment and the base.

- 1. Unpack Components:** Carefully remove all components from the packaging. Verify that all items listed in the package contents (Smart Cat Litter Box, Cat Mat, Power Adapter, Waste Bag, User Manual) are present.
- 2. Assemble the Unit:** Place the litter compartment securely onto the base unit. Ensure it clicks into place or is firmly seated to prevent movement during operation.
- 3. Connect Power:** Plug the anti-bite power cord into the designated port on the litter box, then connect the adapter to a standard electrical outlet.

4. **Add Litter:** Pour your preferred clumping cat litter into the main compartment. Refer to the specifications for the recommended amount (approx. 3.1 kg).
5. **Initial Setup (APP):** Download the Tuya Smart app from your device's app store. Follow the in-app instructions to connect the litter box to your 2.4GHz Wi-Fi network. This will enable smart control and monitoring features.

Take Less Place More Inner Space

4. OPERATING INSTRUCTIONS

The UPIKIT Self-Cleaning Cat Litter Box offers multiple operating modes for your convenience.

4.1 Automatic Cleaning Mode

Once set up, the litter box will automatically detect when your cat has used it and initiate a cleaning cycle after a set

delay. This mode is ideal for hands-free operation.

4.2 Manual Cleaning Mode

You can manually initiate a cleaning cycle at any time using the control panel on the device or through the Tuya Smart APP. This is useful for immediate cleaning or specific situations.

4.3 One-Key Litter Replacement

This feature allows for quick and easy disposal of all old litter. Simply activate the 'Replace' function on the control panel or APP, and the unit will empty the main compartment into the waste bin.

More Convenient Litter Change Mode

All the old litter can be recovered through the touch panel of the device or App operation to replace into the new litter.

4.4 APP Control and Monitoring

The Tuya Smart APP provides comprehensive control and monitoring capabilities:

- **Remote Cleaning:** Start or stop cleaning cycles remotely.
- **Mode Switching:** Easily switch between automatic and manual modes.
- **Usage Tracking:** Monitor your cat's litter box usage frequency and duration.
- **Status Alerts:** Receive notifications regarding waste bin fullness, cleaning status, and any potential issues.
- **Health Monitoring:** Track your cat's bathroom data, which can be useful for monitoring their health.

5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your UPIKIT Self-Cleaning Cat Litter Box.

5.1 Waste Bin Emptying

The 9-liter waste collection bin can hold waste for up to 15 days for a single cat. When the bin is full, the APP will notify you, and the device may indicate it on its display. Simply pull out the waste drawer, tie the waste bag, and replace it with a new one. The waste bin is washable for easy cleaning.

Dynamic defecation collection,
better loading

Image: The litter box illustrating its 9L waste collection capacity, capable of holding waste for up to 15 days, ideal for owners who travel.

5.2 Cleaning the Main Compartment

Periodically, it is recommended to clean the main litter compartment. The non-stick bottom tray helps prevent litter from sticking. For thorough cleaning, you can easily disassemble the litter compartment from the base. Use a mild detergent and water, then dry thoroughly before reassembling.

5.3 Sensor Cleaning

Ensure the gravity sensors and bioradar are free from dust or litter particles to maintain accurate detection. Gently wipe them with a soft, dry cloth.

6. TROUBLESHOOTING

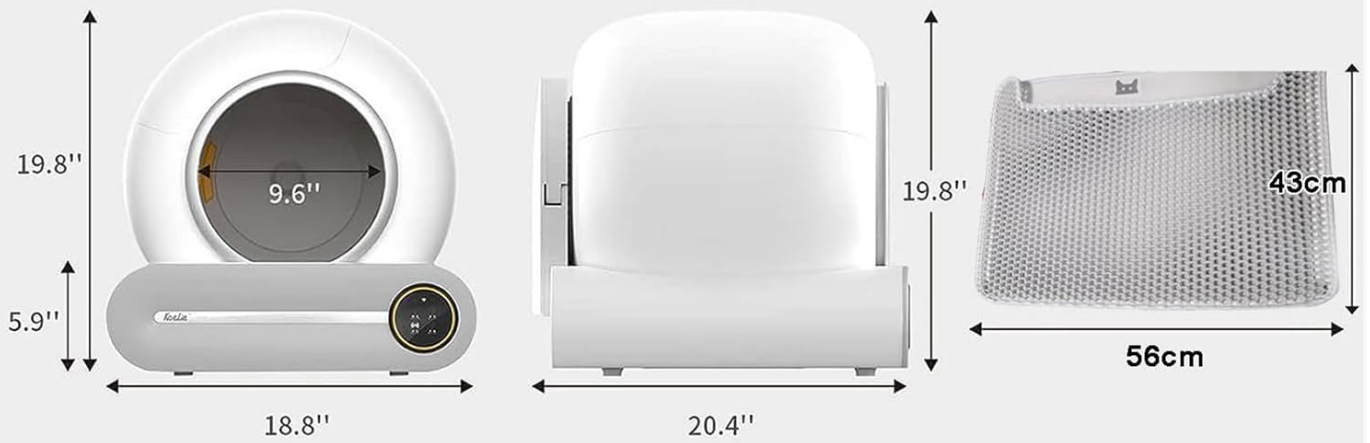

If you encounter any issues with your UPIKIT Self-Cleaning Cat Litter Box, please refer to the following common solutions:

- **Device Not Responding:** Ensure the power cord is securely connected and the unit is plugged into a working outlet. Try unplugging and plugging it back in.
- **APP Connectivity Issues:** Verify that your Wi-Fi network is 2.4GHz. Ensure the litter box is within range of your Wi-Fi router. Restart your router and the litter box, then try reconnecting via the APP.
- **Cleaning Cycle Not Initiating:** Check if the waste bin is full. Ensure there are no obstructions in the litter compartment. Clean the sensors to ensure proper detection.
- **Odor Persists:** Confirm that the ionic deodorization system is active. Ensure the waste bin is emptied regularly. Consider changing the type of litter if odors persist.
- **Cat Not Using Litter Box:** Ensure the litter type is familiar and comfortable for your cat. Check for any unusual noises or movements that might deter your cat. Ensure the litter box is placed in a quiet, accessible location.

If the problem persists after attempting these solutions, please contact customer support for further assistance.
