Tribesigns HOGA-F1712 Shoe Cabinet Instruction Manual

Model: HOGA-F1712

1. INTRODUCTION

Thank you for choosing the Tribesigns HOGA-F1712 Shoe Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new shoe storage unit. Please read these instructions carefully before beginning assembly and retain them for future reference.

Important Safety Information

- Keep all small parts and packaging materials out of reach of children.
- Assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all connections are secure before use.
- Do not overload shelves beyond their intended capacity.

2. PACKAGE CONTENTS

Before assembly, verify that all components and hardware are present. The package includes clearly marked parts and necessary tools for assembly. If any parts are missing or damaged, please contact customer support.

Components Overview

The shoe cabinet consists of engineered wood panels for the main structure, doors with geometric patterns, five adjustable shelves, and metal legs with adjustable feet. All required screws, dowels, and connectors are provided in labeled bags.

NOTE Storage quantity is up to the style of your shoes and size

3. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly typically takes about 30 minutes. For optimal results and ease of assembly, it is recommended that two people work together, and an electric drill may be helpful.

Assembly Steps:

- 1. Prepare the Workspace:** Clear a spacious area and lay out all parts on a soft, clean surface to prevent damage. Identify all components using the provided labels.
- 2. Assemble the Main Frame:** Connect the side panels to the bottom and top panels using the designated hardware (e.g., cam locks and dowels). Ensure all connections are snug but do not overtighten.
- 3. Install Back Panel:** Secure the back panel to the main frame. This adds stability to the cabinet.
- 4. Attach Metal Legs:** Fasten the gold-finished metal legs to the bottom of the cabinet. The legs feature adjustable feet to ensure stability on uneven surfaces.
- 5. Insert Shelves:** Place the five shelves into the cabinet. The shelves are removable and can be adjusted to different heights to accommodate various shoe sizes and types.

6. **Mount Doors:** Attach the two geometric patterned doors to the front of the cabinet using the provided hinges. Ensure the doors are aligned correctly and open/close smoothly.
7. **Install Handles:** Secure the gold door handles to the front of the doors.
8. **Final Adjustments:** Adjust the feet at the base of the metal legs to level the cabinet and prevent wobbling. Check door alignment and adjust hinges if necessary.

4. OPERATING INSTRUCTIONS

The Tribesigns HOGA-F1712 Shoe Cabinet is designed for efficient and organized shoe storage in various rooms.

Using Your Shoe Cabinet:

- **Shoe Storage:** Open the two front doors to access the five internal shelves. The cabinet can hold approximately 15-20 pairs of shoes, depending on their size and style.

- **Adjustable Shelves:** The shelves are removable, allowing you to customize the internal height to accommodate taller items like boots or larger shoe sizes. Simply lift and reposition the shelves as needed.
- **Top Surface:** The flat top surface can be used to display decorative items, store keys, or other small essentials.
- **Bottom Space:** The elevated design with metal legs provides a small space underneath the cabinet, which can be utilized for storing additional flat shoes or slippers.

Figure 4.2: Utilizing the space beneath the cabinet for additional shoe storage.

5. MAINTENANCE

Proper care will ensure the longevity and appearance of your shoe cabinet.

Cleaning and Care:

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, as these can damage the finish.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth to prevent buildup.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

6. TROUBLESHOOTING

If you encounter any issues with your shoe cabinet, refer to the following common solutions:

Common Issues and Solutions:

- **Wobbling Cabinet:** Ensure the cabinet is placed on a level surface. Use the adjustable feet on the metal legs to stabilize the unit by rotating them until all four feet make firm contact with the floor.
- **Doors Not Aligning:** Check that all hinge screws are tightened evenly. Slight adjustments to the hinge screws can help align the doors. Also, ensure the cabinet itself is level.
- **Difficulty Closing Doors:** Verify that no items inside the cabinet are obstructing the doors. Check hinge alignment and ensure all assembly screws are fully tightened.
- **Missing Parts:** If any parts were missing upon delivery, please contact customer support with your purchase details.

7. SPECIFICATIONS

Model Number	HOGA-F1712
Brand	Tribesigns

Dimensions (L x W x H)	80 cm x 38 cm x 95 cm (31.5 x 14.96 x 37.4 inches)
