## STEP ONE Boxer Brief

# STEP ONE Men's Boxer Briefs User Manual

Model: Boxer Brief

## INTRODUCTION

Thank you for choosing STEP ONE Men's Boxer Briefs. Designed for ultimate comfort and performance, these boxer briefs feature anti-chafing technology, moisture-wicking fabric, and a supportive 3D pouch. This manual provides essential information for proper use and care to ensure the longevity and effectiveness of your underwear.

## KEY FEATURES

- **Invisible Feel:** Ultra-breathable fabric designed to feel exceptionally soft against the skin.
- **3D Pouch Support:** Cradles and supports for comfort and stability.
- **Anti-Chafing Ultraglyde Panels:** Unique technology to prevent rubbing and ride-up, especially beneficial for individuals with thicker legs.
- **Moisture-Wicking:** Fabric removes sweat to keep you cool and dry.
- **Ethically Made:** Designed in Australia with a focus on sustainable practices.

## WEARING INSTRUCTIONS

---

STEP ONE Boxer Briefs are designed for a comfortable, supportive fit. Simply pull them on as you would any standard underwear. The elastic waistband is designed to sit comfortably without digging in, and the 3D pouch will naturally conform to provide support. The Ultraglyde panels are positioned to reduce friction between the thighs.

## MAINTENANCE AND CARE

---

To maintain the quality and longevity of your STEP ONE Boxer Briefs, please follow these care instructions:

- **Washing:** Machine wash cold with like colors.
- **Drying:** Tumble dry low or hang dry. Avoid high heat, as it can damage the fabric and elastic. Do not put them in the dryer for extended periods.

- **Bleaching:** Do not bleach.
- **Ironing:** Do not iron.

## TROUBLESHOOTING

- **Sizing Concerns:** If the boxer briefs feel too snug, consider ordering one size up. Refer to the size guide for accurate measurements.
- **Chafing Persists:** Ensure the Ultraglyde panels are properly positioned. If chafing continues, verify you have selected the correct style (Boxer Briefs are longer for thicker legs, Trunks are shorter for thinner legs).
- **Elastic Band Loosening:** Over time and with repeated washing, the elastic band may slightly loosen. This is normal wear and tear for elastic textiles.

**STEP ONE** **V.S** **Basic Cotton**

**Anti-Chafe Panels**

**Moisture-wicking**

**Super-soft**

**Excellent ventilation**

**Viscose made from Bamboo**

**Non-absorbent**

**Coarse & rough**

**Less breathable**

**Large carbon footprint**
