Hikity 4 Core 2+64G

Hikity Android Car Stereo User Manual

For Honda CRV (2007-2011) - Model 4 Core 2+64G

1. PRODUCT OVERVIEW

This Hikity Android Car Stereo is designed specifically for Honda CRV models from 2007 to 2011. It features a 9-inch capacitive IPS 2.5D touchscreen display, running on the latest Android system with 2GB RAM and 64GB internal storage. The unit supports wireless Apple Carplay and wired Android Auto, GPS navigation, WiFi, Bluetooth, FM radio with RDS, and includes an EQ for audio customization. A backup camera is also supported and included.

2. COMPATIBILITY AND INSTALLATION NOTES

Before installation, verify your vehicle's center console configuration. This unit is compatible if your car has a large screen similar to configurations A or B, and the rear CD port matches configuration C. If your car's console or rear port does not match these examples, please contact customer service for assistance.

Please Note!!!

Please check your car's center console before purchasing. This unit fits if your car has a large screen like A/B and the rear CD port matches C. If your car has a large screen but does not match C, please contact customer service.

4. KEY FEATURES AND OPERATION

4.1 Display and User Interface

The unit features a 9-inch capacitive IPS 2.5D touchscreen with a resolution of 1024x600, supporting 1080P video playback. The Android operating system provides a customizable interface with multiple UI themes.

4.2 Wireless Carplay and Android Auto

Connect your smartphone wirelessly via Apple Carplay or wired via Android Auto for seamless integration of navigation, music, calls, and messages. This feature allows for voice assistant control (Siri/Google Assistant).

- **Carplay Connection:** Enable Bluetooth/USB Cable and pair with your device in settings. Tap SpeedPlay and wait for automatic connection confirmation.

- **Android Auto Connection:** Activate Bluetooth/USB Cable and complete device pairing. Select Android Auto to establish automatic connection.

4.4 GPS Navigation and WiFi

The car stereo has a built-in GPS module and comes with an offline map application (HereWeGo). Connect to WiFi or a mobile hotspot to download map data, use online navigation apps, and access other online services like YouTube, TikTok, and Waze.

Image: Display showing GPS navigation in action and icons representing various online applications accessible via WiFi.

4.5 Audio Features (FM RDS & EQ)

Enjoy FM radio with RDS (Radio Data System) for station information. The integrated EQ (Equalizer) allows for detailed sound customization to suit your preferences, with various preset sound effects and a sound field adjustment.

Your browser does not support the video tag.

4.6 Backup Camera

The included AHD rear view camera provides a clear image with night vision and a 170-degree viewing angle, automatically displaying when the vehicle is in reverse gear. Ensure the reverse input cable is plugged in for optimal Bluetooth/WiFi signal, even if not using the backup camera.

Item Dimensions L x W x H	9.59"L x 6.05"W x 1.56"H
Item Weight	0.58 Kilograms

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your Hikity Android Car Stereo.

- **No Power:** Check all power connections. Ensure the car's fuse for the stereo is not blown. Verify the ignition wire is correctly connected.
- **No Sound:** Check speaker connections. Ensure volume is not muted or set too low. Verify audio settings in the EQ.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the stereo and your phone. Delete previous pairings and try reconnecting. Allow all necessary permissions on your phone.
- **GPS Not Working:** Ensure the GPS antenna is properly connected and placed in an area with clear sky view. Check GPS settings in the stereo. Download offline maps if using them for the first time.
- **Backup Camera Not Displaying:** Verify the camera input cable is securely connected to the stereo and the camera. Ensure the camera is receiving power (usually from the reverse light).
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be

necessary (note: this will erase all user data).

- **Carplay/Android Auto Not Connecting:** For wireless connections, ensure Bluetooth and WiFi are active. For wired connections, use a high-quality USB cable and ensure USB debugging is enabled on Android phones if prompted.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact customer support.

8. WARRANTY AND SUPPORT

Hikity offers a 15-day money-back guarantee, a 12-month replacement warranty, and lifetime technical support for this product.

For technical assistance, warranty claims, or any other inquiries, please contact Hikity electronic customer service. You can typically find contact information on the seller's page or through the provided email address.
