MONTERAL 2372352

MONTERAL Dishwasher Lower Basket Wheels (2-Pack)

Compatible with Miele (Original Code 2372352)

INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your MONTERAL Dishwasher Lower Basket Wheels. These replacement wheels are designed for compatibility with various dishwasher models, including Miele, Imperial, Quelle, Privileg, and Matura, corresponding to original code 2372352. Please read these instructions carefully before installation and use.

Quelle MATURA **privileg**
Miele

SETUP AND INSTALLATION

The installation of these dishwasher lower basket wheels is designed to be straightforward and does not require specialized tools or expertise. Follow these steps for proper installation:

1. Carefully remove the lower basket from your dishwasher.
2. Locate the old or damaged wheels on the lower basket.
3. Gently pull or unclip the old wheels to remove them.
4. Align the new MONTERAL wheel with the mounting point on the basket.
5. Press the new wheel firmly into place until it clicks or is securely seated.
6. Repeat for all necessary wheels.
7. Ensure all new wheels are securely attached before returning the basket to the dishwasher.

SIMPLE INSTALLATION

OPERATING INSTRUCTIONS

Once installed, the MONTERAL lower basket wheels enable smooth and stable movement of your dishwasher's lower rack. These wheels are designed to support the weight of dishes and ensure proper alignment during loading and unloading, as well as during the wash cycle.

- Ensure the lower basket slides in and out freely without obstruction.
- Avoid overloading the basket, which can strain the wheels and the dishwasher mechanism.
- Periodically check the wheels for any signs of wear or damage.

PERFECT FOR THE BOTTOM BASKET

Image: A woman giving an 'OK' sign next to a dishwasher with its lower basket extended, emphasizing the wheels are perfect for the bottom basket.

MAINTENANCE

The MONTERAL dishwasher lower basket wheels are manufactured from durable, high-quality polypropylene (PP) material that resists deformation at high temperatures. This ensures a long lifespan and minimal maintenance requirements.

- **Cleaning:** No specific cleaning is required for the wheels themselves. Regular dishwasher cleaning cycles will keep them free of food debris.
- **Inspection:** Occasionally inspect the wheels for any accumulation of food particles or foreign objects that might impede their smooth rotation. Remove any such debris carefully.
- **Replacement:** If a wheel becomes damaged, cracked, or no longer rotates smoothly, replace it promptly to maintain optimal dishwasher performance and prevent damage to the basket or rails.

TROUBLESHOOTING

If you encounter issues with your dishwasher's lower basket after installing the MONTERAL wheels, consider the following:

- **Basket not sliding smoothly:**
 - Check if the wheels are correctly seated and fully pressed into their mounting points.
 - Inspect the dishwasher rails for any obstructions or damage.
 - Ensure no debris (e.g., food particles, broken glass) is caught in the wheel mechanism or on the rails.
- **Wheels appear loose or fall off:**
 - Re-install the wheel, ensuring it clicks securely into place.
 - Verify that the wheel's mounting clip is not damaged. If damaged, replace the wheel.
- **Wheels do not fit:**
 - Confirm that your dishwasher model requires wheels compatible with original code 2372352.
 - Double-check the dimensions of the new wheels against your old ones if available.

SPECIFICATIONS

Product Name	MONTERAL Dishwasher Lower Basket Wheels
Quantity	2 pieces per set
Compatibility Code	Original code 2372352
Compatible Brands	Miele, Imperial, Quelle, Privileg, Matura
Material	Polypropylene (PP)
Wheel Diameter	34 mm
Wheel Length	23.2 mm
Mounting Width	4 mm
