## QXMH BS-WH003

# User Manual for QXMH WiFi Universal IR Remote Control

Model: BS-WH003

## 1. INTRODUCTION

The QXMH WiFi Universal IR Remote Control is a smart hub designed to centralize control of your infrared-controlled home appliances. Compatible with the Tuya Smart app, Alexa, and Google Home, it allows for convenient remote control, voice commands, and smart automation scenarios, enhancing your smart home experience.

## 2. SETUP GUIDE

Follow these steps to set up your WiFi Universal IR Remote Control and connect it to your smart home system.

### 2.1 Initial Power-On

- Connect the device to a power source using the provided USB cable.
- The indicator light will turn on. If it does not blink rapidly, long press the reset button for approximately 5 seconds until it enters fast blinking mode.

### 2.2 App Installation and Pairing

- Download and open the 'Smart Life' or 'Tuya Smart' app from your device's app store (available on Apple App Store and Google Play).
- Click the '+' icon or 'Add Device' within the app.

- Select 'Universal Remote Controller' under the 'Others' category.
- Confirm that the device's indicator light is rapidly blinking, then click 'Confirm indicator rapidly blink' in the app.
- Enter your 2.4GHz WiFi network password. **Note: 5GHz networks are not supported.**
- Wait for the device to connect. Once successfully added, click 'Done'.

## 3. OPERATING INSTRUCTIONS

Once your device is set up, you can begin controlling your home appliances and automating your living space.

### 3.1 Adding and Controlling Appliances

- In the app, click 'Add Remote Control'.
- Choose the type of appliance you wish to control (e.g., TV, Air Conditioner, Set-Top Box, Fan, DVD).
- Select the brand of your appliance from the list.
- The app will attempt to match the signal. Test the controls to ensure proper functionality.
- The device offers 360° infrared coverage, allowing control of appliances within approximately 8 meters.

# 360° full coverage

Infrared control range of about 8 meters, stable signal

Image: The device provides 360° full coverage for infrared control.

### 3.2 Voice Control Integration

The device is compatible with Amazon Alexa and Google Home, allowing for hands-free control of your connected appliances.

- Link your Smart Life/Tuya Smart account to your Alexa or Google Home app.
- Use voice commands such as "Alexa, turn on the TV" or "Hey Google, set the air conditioner to 22 degrees."

# Intelligent voice control

Use voice command control to free your hands and make life more convenient

## 3.3 DIY Learning Function

If your specific device or brand is not found in the app's database, you can use the DIY learning function to copy commands from your original infrared remote control.

- Select the DIY option in the app when adding a new remote.
- Follow the on-screen prompts to point your original remote at the smart hub and press the desired buttons to learn their functions.

## 3.4 Smart Functions and Scheduling

Create smart instructions and schedules to automate your home environment.

- **Scheduling:** Set specific times for appliances to turn on or off (e.g., turn on the air conditioner before you arrive home).
- **Smart Scenes:** Combine multiple actions into a single command or trigger (e.g., a 'Good Morning' scene that opens curtains and turns on the TV).
- **Device Sharing:** Share control of your smart devices with family members through the app.

# Preset schedule/remote control

Supports scheduled settings and remote control to make life more convenient and smarter

## 4. MAINTENANCE

The QXMH WiFi Universal IR Remote Control requires minimal maintenance to ensure optimal performance.

- Keep the device in a dry environment and avoid exposure to direct sunlight or extreme temperatures.
- Clean the exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Ensure the USB power cable is securely connected.

## 5. TROUBLESHOOTING

If you encounter issues with your device, please refer to the following common solutions:

- **Device not connecting to WiFi:** Ensure your WiFi network is 2.4GHz. The device does not support 5GHz networks. Verify your WiFi password is correct.
- **Indicator light not blinking rapidly during setup:** Long press the reset button on the device for approximately 5 seconds until the light blinks rapidly.
- **Appliance not responding:** Ensure the smart hub is within range (approx. 8 meters) and has a clear line of sight to the appliance's IR receiver. Try using the DIY learning function if the pre-set codes do not work.
- **Voice control issues:** Confirm that your Smart Life/Tuya Smart account is correctly linked to your Alexa or Google Home app. Check your internet connection.

For further technical assistance, please contact QXMH customer support. We provide 24/7 technical support and aim to reply within 24 hours.

## 6. SPECIFICATIONS

Feature	Detail
Model Number	BS-WH003
Item Weight	1.76 ounces
