# WOOX R6118-4P Smart Wi-Fi Plug (4-Pack) Instruction Manual with Energy Monitoring

Model: R6118-4P | Brand: WOOX

## 1. INTRODUCTION

This instruction manual provides comprehensive guidance for the setup, operation, and maintenance of your WOOX R6118-4P Smart Wi-Fi Plugs. Please read this manual carefully before using the product to ensure safe and optimal performance. Keep this manual for future reference.

## 2. SAFETY INFORMATION

Your WOOX Smart Wi-Fi Plugs are designed with safety as a priority. Adhere to the following guidelines:

- **TÜV Certified:** The product is TÜV certified, guaranteeing high safety and quality standards.
- **Flame-Retardant Materials:** Constructed from acrylonitrile butadiene styrene (ABS) and polycarbonate (PC), which are flame-retardant materials, to minimize fire hazards.
- **Overload Protection:** Equipped with overload protection to prevent damage to connected appliances and the plug itself from excessive current. Do not exceed the maximum load of 16A / 3680W.
- **Child Safety:** Features child safety mechanisms to prevent accidental access to live parts.
- **Proper Installation:** Ensure the plug is fully inserted into a compatible wall socket. Do not use in wet environments.
- **Memory Mode:** The plug includes a memory mode that restores the previous operating state after a power outage, enhancing safety and convenience.

## 3. PRODUCT OVERVIEW

The WOOX R6118-4P Smart Wi-Fi Plug is a smart home device designed to make your electrical appliances intelligent and controllable. It allows for remote control, voice commands, scheduling, and energy consumption monitoring. This package includes four smart plugs.

**Figure 3.1:** This diagram provides a comprehensive overview of the WOOX Smart Wi-Fi Plug's main functionalities, including energy monitoring, remote app control, voice command compatibility, safety features, and scheduling options.

## 4. SETUP

### 4.1 App Installation

To control your WOOX Smart Wi-Fi Plugs, you need to install the WOOX Home app (or Tuya Smart app, as WOOX products often integrate with the Tuya platform) on your smartphone or tablet.

1. Search for "WOOX Home" or "Tuya Smart" in the Apple App Store (for iOS devices) or Google Play Store (for Android devices).
2. Download and install the app.
3. Open the app and register for a new account or log in if you already have one.

## 4.2 Device Pairing

Follow these steps to pair your WOOX Smart Wi-Fi Plug with the app:

1. Plug the WOOX Smart Wi-Fi Plug into a power outlet.
2. Ensure your smartphone is connected to a **2.4 GHz Wi-Fi network**. The plugs do not support 5 GHz Wi-Fi.
3. Open the WOOX Home app. Tap the "+" icon in the top right corner to add a device.
4. Select "Electrical" or "Socket (Wi-Fi)" from the device list.
5. Follow the on-screen instructions to put the plug into pairing mode (usually by pressing and holding the power button on the plug until the indicator light blinks rapidly).
6. Confirm the indicator light is blinking rapidly in the app.
7. Enter your 2.4 GHz Wi-Fi network password.
8. The app will then attempt to connect to the device. Once connected, you can rename the plug for easier identification.

**Bluetooth Pairing (for faster connection):** The plug supports Bluetooth for a quicker initial connection to the app. Ensure Bluetooth is enabled on your phone during the pairing process. This facilitates the Wi-Fi setup but the plug operates primarily over Wi-Fi.

### Kontrolle bei fehlender Netzverbindung

Bei instabilen oder getrennten Netzwerk kann auch lokal über die APP steuern (Innerhalb von 30ft)

**Figure 4.1:** The WOOX Smart Wi-Fi Plug supports local control via Bluetooth, allowing you to manage devices through the app even if your Wi-Fi network is unstable or temporarily disconnected, provided you are within range (approximately 30ft).

## 5. OPERATING INSTRUCTIONS

### 5.1 Remote Control via App

Once paired, you can control your smart plugs from anywhere using the WOOX Home app:

- Tap on the device name in the app to access its control interface.
- Use the on/off toggle to switch the connected appliance's power.
- Access other features like timers, schedules, and energy monitoring from this interface.

**Figure 5.1:** Manage your WOOX Smart Wi-Fi Plugs remotely from anywhere using the dedicated mobile application. This feature allows you to turn devices on or off, set schedules, and monitor energy consumption even when you are away from home.

### 5.2 Voice Control (Alexa & Google Home)

Integrate your WOOX Smart Wi-Fi Plugs with Amazon Alexa or Google Home for hands-free control:

1. In the WOOX Home app, navigate to "Me" > "More Services" (or similar) and link your Alexa or Google Home account.
2. Follow the instructions in the Alexa or Google Home app to discover new devices.

3. Once discovered, you can use voice commands such as:

- "Alexa, turn on [device name]"
- "Hey Google, turn off [device name]"
- "Alexa, set [device name] to [on/off]"

**Figure 5.2:** Control your WOOX Smart Wi-Fi Plugs using voice commands through Amazon Alexa or Google Home. Simply connect the plug to your smart home assistant and use phrases like 'Alexa, turn on the TV' for convenient operation.

## 5.3 Timer and Scheduling Functions

The app offers 6 different modes for automating your devices:

- **Countdown:** Set a timer for the device to turn on or off after a specified duration.
- **Schedule:** Create daily or weekly schedules for automatic power on/off at specific times.
- **Cycle:** Set the device to repeatedly turn on and off for defined intervals.
- **Random:** Randomly turn the device on and off within a set timeframe, useful for simulating occupancy.
- **Astronomical:** Automate based on sunrise and sunset times in your location.
- **Inching:** Set the device to turn on for a very short, specific duration and then automatically turn off.

## 5.4 Energy Monitoring

The WOOX Smart Wi-Fi Plug provides real-time and historical energy consumption data:

- In the device's control interface within the app, look for the "Energy Monitoring" or "Statistics" section.
- View daily, monthly, or yearly electricity usage (kWh) and current power draw (W).
- This feature helps you understand and manage the energy consumption of your appliances, potentially leading to energy savings.

## 5.5 Group Control and Device Sharing

- **Group Control:** In the app, you can create groups of smart plugs to control multiple devices simultaneously with a single command. This is useful for controlling all lights in a room or multiple appliances at once.
- **Device Sharing:** Share control of your smart plugs with family members. They will need to download the WOOX Home app and create an account. You can then invite them to control specific devices.

## 6. MAINTENANCE

- **Cleaning:** Disconnect the plug from the power outlet before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Firmware Updates:** Periodically check the WOOX Home app for available firmware updates. Keeping your device's firmware up-to-date ensures optimal performance, security, and access to new features.
- **Storage:** When not in use for extended periods, store the plugs in a cool, dry place away from direct sunlight and moisture.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device cannot connect to Wi-Fi.	Incorrect Wi-Fi password, 5 GHz Wi-Fi network, plug too far from router, router issues.	Ensure you are using a 2.4 GHz Wi-Fi network. Verify the Wi-Fi password. Move the plug closer to the Wi-Fi router. Restart your Wi-Fi router. Try pairing again using Bluetooth-assisted setup.
Voice control not working.	Not linked to Alexa/Google Home, incorrect device name, internet connection issues.	Ensure the WOOX Home app is correctly linked to your Alexa/Google Home account. Check the device name in both apps for consistency. Verify your internet connection. Try rediscovering devices in your Alexa/Google Home app.
Plug is unresponsive.	No power, network issue, device malfunction.	Check if the power outlet is working. Unplug and re-plug the smart plug. Check your Wi-Fi connection. If issues persist, perform a factory reset (refer to app instructions for specific reset procedure).
