

MEDION P350W

MEDION P350W Cordless 2-in-1 Vacuum Cleaner Instruction Manual

Model: P350W

1. INTRODUCTION

Thank you for choosing the MEDION P350W Cordless 2-in-1 Vacuum Cleaner. This manual provides essential information for the safe and efficient use, maintenance, and troubleshooting of your new appliance. Please read these instructions carefully before first use and keep them for future reference.

The MEDION P350W is a versatile cordless vacuum cleaner featuring bagless cyclonic technology, a powerful 350-watt motor, and a 2-in-1 design that allows for both upright and handheld use. It is equipped with a dust sensor, HEPA H13 filter, and an LED touch screen for enhanced cleaning performance and user convenience. Its unique design also includes a removable water tank for simultaneous vacuuming and mopping.

2. SAFETY INSTRUCTIONS

Always observe the following safety precautions to reduce the risk of fire, electric shock, or injury:

- Read all instructions before using the appliance.
- Do not use the vacuum cleaner outdoors or on wet surfaces.
- Do not allow children to operate the vacuum cleaner. Close supervision is necessary when used near children.
- Do not pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use without the dust cup and/or filters in place.
- Turn off the appliance before connecting or disconnecting the motorized brush or other accessories.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not handle the charger or appliance with wet hands.
- If the charging cable is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- Store the appliance indoors in a cool, dry area.

3. PACKAGE CONTENTS

Verify that all items are present and in good condition upon unpacking:

- MEDION MD 11609 Cordless Vacuum Cleaner (P350W)
- Power Adapter
- Soft Brush (for delicate surfaces)
- 2-in-1 Dust Nozzle
- Crevice Tool
- Pet Brush
- Water Tank including 2 Mops
- Replacement HEPA H13 Filter
- Wall Mount with Charging Function

4. SETUP

4.1 Assembly

The MEDION P350W can be assembled as an upright stick vacuum or a compact handheld unit. To assemble, connect the desired attachments (e.g., extension wand, floor brush, or various nozzles) to the main motor unit until they click securely into place.

4.2 Charging the Battery

Before first use, fully charge the vacuum cleaner's Lithium-Ion battery. The charging time is approximately 300 minutes (5

hours) for a full charge, providing up to 1 hour of runtime depending on the power level used.

- Connect the power adapter to the charging port on the main unit.
- Plug the power adapter into a wall outlet.
- The LED touch display will indicate the charging status.

4.3 Wall Mount Installation

The included wall mount allows for convenient storage and charging. Install the wall mount in a suitable location near a power outlet, ensuring it is securely fastened to the wall. The vacuum cleaner can be charged while stored on the wall mount.

Image: The MEDION P350W vacuum cleaner is shown securely mounted on its wall bracket, which also serves as a charging station. This setup provides convenient storage and ensures the vacuum is always ready for use.

5. OPERATING INSTRUCTIONS

5.1 Powering On and Suction Levels

Press the power button to turn on the vacuum cleaner. The LED touch display allows you to select from 3 different suction power levels to suit various cleaning needs. The display also shows the current battery status and selected mode.

Image: A close-up view of the MEDION P350W's LED touch display, showing battery percentage and suction mode settings. The display provides real-time information during operation.

5.2 Dust Sensor Technology

The integrated dust sensor automatically adjusts the suction power based on the amount of dust detected, ensuring thorough and efficient cleaning while optimizing battery life.

Image: The floor brush of the MEDION P350W is shown in action, with blue light indicating the dust sensor detecting dirt particles on the floor, automatically adjusting suction power.

5.3 2-in-1 Vacuum and Mop Function

Attach the water tank with a mop to the floor brush to enable simultaneous vacuuming and mopping. Fill the water tank with clean water (and a suitable floor cleaning solution if desired) before attaching. This feature is ideal for hard floors.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your vacuum cleaner.

6.1 Emptying the Dust Container

The bagless cyclonic technology allows for practical and hygienic emptying of the dust container. Press the release button to detach the dust cup from the main unit and empty its contents into a waste bin. Clean the dust cup with a damp cloth if necessary, ensuring it is completely dry before reattaching.

6.2 Cleaning the HEPA H13 Filter

The HEPA H13 filter should be cleaned regularly to maintain suction power. Remove the filter from the dust cup and tap it gently to dislodge dust. For a more thorough cleaning, rinse the filter under cold running water. Allow the filter to air dry

completely for at least 24 hours before reinstalling. Do not use a brush or any abrasive materials on the filter.

6.3 Cleaning the Water Tank and Mops

After each use of the mopping function, empty any remaining water from the tank. Rinse the water tank and the mop pads thoroughly with clean water. The mop pads can be machine washed or hand washed. Ensure all components are dry before storing.

6.4 Cleaning the Brush Roll

Periodically check the motorized brush roll for tangled hair or debris. Remove the brush roll (refer to the diagram in the product manual for specific instructions) and carefully cut away any tangled hair or fibers using scissors. Reinstall the brush roll securely.

7. TROUBLESHOOTING

If you encounter issues with your MEDION P350W, refer to the following common problems and solutions:

- **No Power:** Ensure the battery is fully charged. Check if the power adapter is correctly connected during charging.
- **Reduced Suction:** Empty the dust container. Clean or replace the HEPA H13 filter. Check for blockages in the nozzle, extension wand, or floor brush.
- **Brush Roll Not Rotating:** Check for tangled hair or debris obstructing the brush roll. Ensure the brush roll is correctly installed.
- **Water Leaking from Tank:** Ensure the water tank is correctly attached and sealed. Do not overfill the water tank.
- **Unusual Noise:** Turn off the vacuum and check for any foreign objects lodged in the brush roll or air pathways.

If the problem persists after attempting these solutions, please contact customer support.

8. SPECIFICATIONS

Feature	Specification
Brand	MEDION
Model Number	P350W
Product Dimensions	26.5 x 27.5 x 114 cm
Item Weight	2.9 kg
Power / Wattage	350 watts
Voltage	220 Volts
Capacity (Dust)	0.7 litres
Number of Speeds	3
Runtime	Up to 1 hour
Battery Type	Lithium Ion
Filter Type	HEPA H13 Filter

Special Features	Cyclonic technology, Dust sensor, LED Touch Display, 2-in-1 function, LED lighting on brush
Surface Recommendation	Hard Floor, Carpet

114 cm
