WETOOLPLUS 20V Max Lithium-Ion Dual-Port Fast Charger

Instruction Manual

INTRODUCTION

Thank you for choosing the WETOOLPLUS 20V Max Lithium-Ion Dual-Port Fast Charger. This charger is designed for efficient and simultaneous charging of two Hyper Tough 20V Max lithium-ion batteries. Please read this manual thoroughly before use to ensure safe and optimal performance of your charger.

SAFETY INFORMATION

WARNING: Risk of Fire or Electric Shock.

- Do not interconnect output terminations.
- Always disconnect the charger from the power source before attempting any cleaning or maintenance.
- Do not expose the charger to rain or wet conditions.
- Use only with Hyper Tough 20V Max lithium-ion batteries. Using incompatible batteries may result in fire, electric shock, or injury.
- Do not operate the charger if it has received a sharp blow, been dropped, or otherwise damaged. Take it to a qualified service person.
- Do not disassemble the charger. Incorrect reassembly may result in a risk of electric shock or fire.
- Ensure adequate ventilation during charging. Do not block ventilation openings.
- Keep the charger away from heat sources and direct sunlight.

PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x WETOOLPLUS 20V Max Dual-Port Fast Charger

PRODUCT OVERVIEW

The WETOOLPLUS Dual-Port Fast Charger features two charging ports and LED indicator lights to show the battery charge status. The integrated power cord provides convenient connection to an AC outlet.

SETUP

1. Unpack the charger and inspect it for any damage.
2. Place the charger on a stable, flat, and dry surface. Ensure the area is well-ventilated and away from flammable materials.
3. Plug the charger's power cord into a standard 240V AC electrical outlet.

OPERATING INSTRUCTIONS

Charging Batteries

1. Ensure the charger is plugged into a live electrical outlet.
2. Align the Hyper Tough 20V Max lithium-ion battery with one of the charging ports on the charger.
3. Slide the battery firmly into the charging port until it clicks into place. You can insert a second battery into the other port for simultaneous charging.
4. Observe the LED indicator lights on the charger.

LED Indicator Status

- **Solid Red:** Battery is charging.
- **Solid Green:** Battery is fully charged.
- **Flashing Red:** Battery error or charger malfunction. Disconnect the battery and charger, then try again. If the issue persists, refer to the Troubleshooting section.

Approximate Charging Times

- 20V Max 2.0Ah Lithium-ion batteries: Approximately 1 hour
- 20V Max 4.0Ah Lithium-ion batteries: Approximately 2 hours

Once charging is complete (solid green light), remove the battery by pressing the release tab (if present) and sliding it out of the port. Disconnect the charger from the power outlet when not in use.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source. Use a soft, dry cloth to wipe down the exterior of the charger. Do not use abrasive cleaners or solvents.
- **Storage:** Store the charger in a cool, dry place, away from direct sunlight and moisture. Ensure the charger is disconnected from the power outlet and no batteries are inserted when storing.
- **Inspection:** Periodically inspect the power cord for any signs of damage, such as cuts or fraying. If damaged, do not use the charger and contact customer support.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Charger not working / No LED light	Not plugged in; No power from outlet; Damaged charger/cord	Ensure charger is securely plugged in; Test outlet with another device; Inspect cord for damage; Contact customer support if damaged.
Battery not charging / Flashing Red LED	Battery not properly inserted; Battery too hot/cold; Battery fault; Charger fault	Re-insert battery firmly; Allow battery to reach room temperature; Try another battery if available; If issue persists, contact customer support.
Slow charging	Environmental factors; Battery condition	Ensure charger is in a well-ventilated area; Battery may be nearing end of life.

SPECIFICATIONS

Feature	Specification
Model Number	WTA0297
Input Voltage	240 Volts AC
Output Voltage	20 Volts DC
Product Dimensions	5.9 x 6.7 x 2.8 inches (15.0 x 17.0 x 7.1 cm)
Item Weight	1.34 pounds (0.61 kg)
Compatibility	Hyper Tough 20V Max Lithium-Ion Batteries (HT21-401-003-13)
Charging Ports	2
