

Brookstone BK15-4ML1T-BK

Brookstone 3-in-1 Wireless Charging Station User Manual

Model: BK15-4ML1T-BK

Brand: Brookstone

INTRODUCTION

The Brookstone 3-in-1 Wireless Charging Station is designed to provide a convenient and efficient charging solution for multiple Apple devices simultaneously. This versatile station integrates magnetic charging for iPhones, a dedicated spot for Apple Watches, and a Qi-compatible pad for AirPods or other Qi-enabled devices. It features an adjustable viewing angle and a built-in night light, making it an ideal addition to any desk, nightstand, or countertop.

PRODUCT FEATURES

- 3-in-1 Magnetic Fast Charging:** Charge your iPhone, Apple Watch, and AirPods simultaneously. Also compatible with Qi charging for Android phones.
- Magnetic Charging Holder:** Utilizes MagSafe technology for precise alignment, allowing for easy one-handed placement of your iPhone.
- Safe Wireless Charger Stand:** Equipped with an intelligent chip for safe and fast charging, offering protection against overcurrent, over-voltage, overheating, short circuits, magnetic field interference, power issues, and foreign object detection.
- Fast Wireless Charging:** Delivers up to 15 watts for iPhone and 5 watts for Apple Watch and AirPods. Dual charging coil supports both portrait and landscape modes.
- Adjustable Viewing Angle:** The charging stand allows for upward and downward angle adjustments (5° to 55°) to optimize viewing comfort.
- Integrated Night Light:** Features a dimmable LED night light on the base with three adjustable brightness settings.
- USB Output:** Includes a USB-A port for charging additional devices via cable.

PACKAGE CONTENTS

Upon unpacking, please ensure all items listed below are present:

- 1 x Brookstone 3-in-1 Wireless Charging Station
- 1 x USB-C Cable
- 1 x User Guide

PACKAGE INCLUDES

Brookstone®

Type C Cable

Charging Station

SETUP INSTRUCTIONS

- Connect Power:** Insert the provided USB-C cable into the USB-C port on the back of the charging station. Connect the other end of the cable to a compatible USB power adapter (not included). A 12V input voltage is recommended for optimal performance.
- Placement:** Place the charging station on a stable, flat surface, such as a desk or nightstand. Ensure there is adequate ventilation around the device.
- Initial Power-On:** Once connected to power, the integrated night light may briefly illuminate, indicating the device is ready for use.

OPERATING INSTRUCTIONS

Charging Devices

- **Charging iPhone:** Place your MagSafe-compatible iPhone (iPhone 12 series and newer) directly onto the magnetic charging pad. The phone will snap into place, ensuring proper alignment for 15W fast wireless charging. You can charge in both portrait and landscape modes.
- **Charging Apple Watch:** Place your Apple Watch onto the dedicated charging puck on the right arm of the station. Ensure the watch is properly seated for 5W wireless charging.
- **Charging AirPods/Qi Devices:** Place your AirPods (Pro, 3, 2) or any other Qi-compatible wireless charging earbuds/devices onto the flat charging pad on the left arm. This pad also provides 5W wireless charging.
- **Charging Additional Devices (USB-A):** For devices requiring a wired connection, use the USB-A output port located on the back of the base. Connect your device's charging cable to this port.

Adjusting Viewing Angle

The main phone charging pad can be adjusted to an angle between 5° and 55° for optimal viewing. Gently tilt the phone

holder to your desired position. This allows for comfortable viewing of videos, FaceTime calls, or messages while your device charges.

Using the Night Light

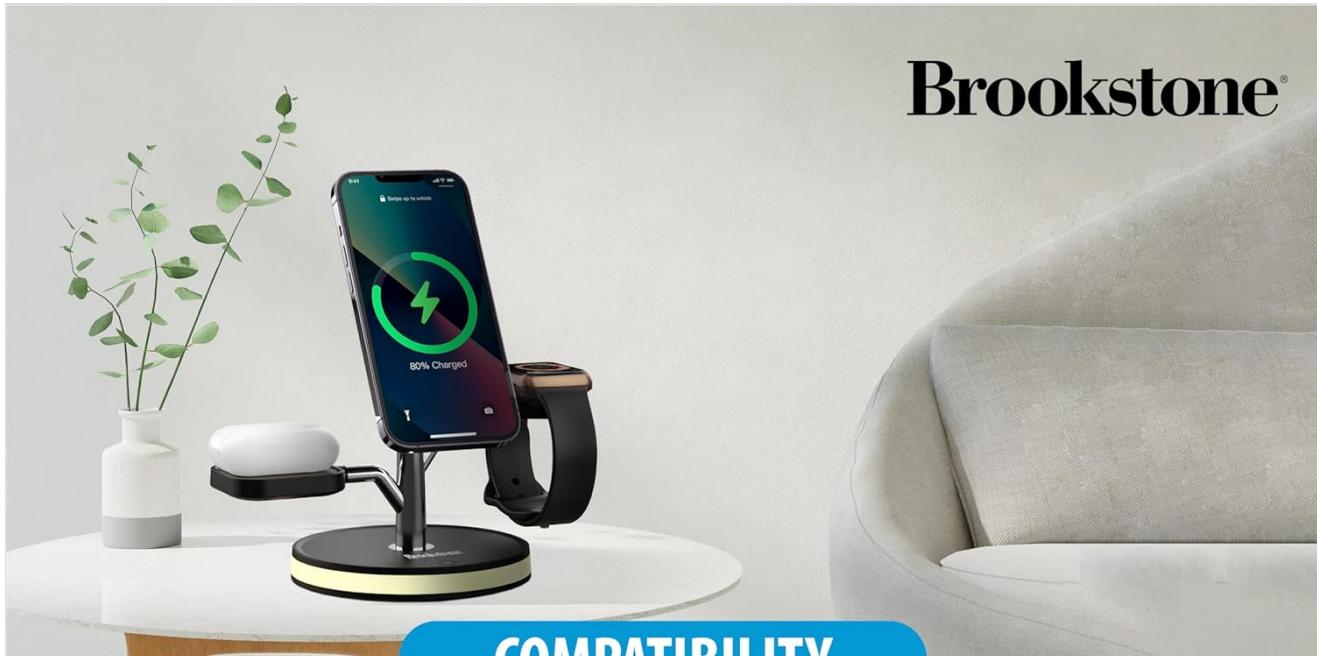

The base of the charging station features an integrated LED night light. To operate the night light, gently touch the light icon on the base. Each touch will cycle through three brightness settings (low, medium, high) and then off. This feature is ideal for use on a nightstand.

COMPATIBILITY

The Brookstone 3-in-1 Wireless Charging Station is designed for broad compatibility with Apple and Qi-enabled devices:

- **iPhones:** Compatible with iPhone 15, 14, 13, 12 Pro Max, Pro, Mini, and Plus series (requires MagSafe compatibility or a MagSafe-compatible case).
- **Apple Watches:** Compatible with Apple Watch series Ultra, Ultra 2, 8, 7, SE, 6, 5, 4, 3, and 2.
- **AirPods:** Compatible with AirPods Pro, 3rd Generation, and 2nd Generation.
- **Other Qi-Enabled Devices:** The AirPods charging pad is also compatible with other Qi-enabled Android phones (with

Qi2 or Qi with compatible magnet cases/rings) or earbuds that support wireless charging.

MAINTENANCE

- Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe down the charging station. Do not use abrasive cleaners, solvents, or harsh chemicals.
- Storage:** When not in use for extended periods, store the charging station in a cool, dry place away from direct sunlight and extreme temperatures.
- Cable Care:** Avoid bending or crimping the USB-C cable excessively to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device not charging.	Improper device placement. Incompatible power adapter. Foreign object on charging pad. Device not Qi/MagSafe compatible. Protective case interfering.	Ensure device is centered on the charging pad. Use a power adapter with sufficient output (12V recommended). Remove any metal objects or foreign materials from the charging surface. Verify device compatibility (refer to Compatibility section). Remove thick or non-MagSafe compatible cases.
Charging is slow.	Insufficient power input. Device not optimally placed.	Ensure power adapter meets recommended specifications. Adjust device position for optimal alignment.
Night light not working.	Not connected to power. Button not pressed correctly.	Verify power connection. Gently tap the light icon on the base to cycle through settings.

Safety Protections

The charging station is built with multiple safety features to protect your devices and the charger itself:

- Overcurrent Protection
- Over-voltage Protection
- Overheating Protection
- Short Circuit Protection
- Magnetic Field Interference Protection
- Power Issue Detection
- Foreign Object Detection (FOD)

SPECIFICATIONS

Feature	Detail
Product Dimensions	5 x 5.26 x 6 inches
Item Weight	7.6 ounces
Model Number	BK15-4ML1T-BK
Input Voltage	12 Volts
