Instruction Manual: Mega Pokémon - Pokeball Construx Series 20, HWR21

Model: HWR21

1. INTRODUCTION

This manual provides instructions for assembling and interacting with your Mega Pokémon - Pokeball Construx Series 20, featuring Fennekin. This set allows you to build a poseable Fennekin character and its accompanying Friend Ball using the included building bricks and pieces. It is designed for ages 6 and up, promoting creativity and problem-solving skills.

2. WHAT'S IN THE BOX

Your Mega Pokémon - Pokeball Construx Series 20 package should contain the following items:

- 1 buildable and poseable Fennekin character.
- 1 pronged Friend Ball.
- Approximately 32 building bricks and pieces required for assembly.
- Instruction Manual (this document).

3. SETUP AND ASSEMBLY

Follow these steps to assemble your Fennekin character and Friend Ball:

1. Carefully open the Friend Ball packaging to access all the building bricks and pieces.
2. Sort the pieces by color and shape to facilitate easier assembly.

3. Refer to the included visual instructions (if provided separately in the physical box) to begin constructing the Fennekin character. The Fennekin is designed to be poseable once assembled.
4. Assemble the Friend Ball. The Friend Ball is designed to open, allowing the Fennekin character to be stored inside or displayed on top.
5. Once both the Fennekin and the Friend Ball are assembled, you can place the Fennekin on top of the Friend Ball using the designated prongs.

4. OPERATING AND USAGE

Once assembled, your Mega Pokémon Fennekin and Friend Ball offer various ways to play and display:

- **Posing:** The Fennekin character is designed with articulation points, allowing you to pose it in various stances. Adjust its limbs and head to recreate dynamic scenes or display it as desired.
- **Storage:** The Friend Ball can be opened to store the Fennekin character inside when not in use, keeping all pieces together.
- **Display:** The Fennekin can be securely placed on top of the Friend Ball using the integrated prongs for display purposes.
- **Compatibility:** The building pieces are compatible with other Mega Pokémon building sets and other major building block brands, allowing for expanded creative play and custom constructions.

5. MAINTENANCE

To ensure the longevity of your Mega Pokémon building set, follow these simple maintenance guidelines:

- **Cleaning:** To clean the building bricks and pieces, gently wipe them with a damp cloth. For more thorough cleaning, use mild soap and water, then rinse thoroughly and air dry completely before reassembly or storage. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the set in a cool, dry place away from direct sunlight to prevent discoloration or warping of the plastic pieces. The Friend Ball can serve as a convenient storage container for the Fennekin and its pieces.
- **Handling:** Handle the assembled model with care to prevent pieces from detaching.

6. TROUBLESHOOTING

If you encounter any issues with your Mega Pokémon building set, consider the following common solutions:

- **Missing Pieces:** Carefully check all packaging materials and the inside of the Friend Ball. If pieces are genuinely missing, contact Mega Brands customer support (see Section 8).
- **Difficulty Assembling:** Ensure you are following the assembly instructions precisely. Sometimes, pieces may require a firm push to connect properly. If a piece does not fit, double-check that it is the correct piece for that step.

- **Loose Connections:** If assembled parts feel loose, ensure all connections are fully pressed together. Over time, frequent disassembly and reassembly can slightly loosen connections; however, this is generally not an issue with new sets.
