### 3. SETUP AND CONNECTIVITY

The Tatybo XW6 headset offers versatile connectivity options for various gaming platforms.

#### 3.1. Connecting to PC, PS4/PS5, Nintendo Switch (Dock Mode)

Use the included USB Sound Card for these platforms to enable virtual 7.1 surround sound and RGB lighting.

1. Connect the headset's 3.5mm jack to the 7.1 Sound Card (USB adapter).
2. Plug the USB Sound Card into an available USB port on your PC, PS4, PS5, or Nintendo Switch dock.
3. Ensure the headset is selected as the audio input and output device in your system settings.

#### 3.2. Connecting to Xbox Controller, PS4/PS5 Controller, Nintendo Switch (Handheld), Mobile Devices

For devices with a 3.5mm audio port, connect directly using the headset's 3.5mm jack. Note that 7.1 surround sound and RGB lighting are typically not available via 3.5mm connection.

1. Plug the headset's 3.5mm jack directly into the 3.5mm audio port on your controller or device.

2. Adjust audio settings on your device as needed.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your headset, follow these maintenance guidelines:

- Clean the headset regularly with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive cleaners.
- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- Do not expose the headset to water or excessive moisture.
- Handle the cables gently to prevent damage.

## 7. TROUBLESHOOTING

If you encounter issues with your Tatybo XW6 headset, refer to the following common problems and solutions:

- **No Sound:**

- Ensure the headset is properly connected to your device (USB or 3.5mm jack).

- Check the volume controls on the in-line controller and your device.
- Verify that the headphone mute button on the in-line controller is not active.
- Confirm the headset is selected as the default audio output device in your system settings.

- **Microphone Not Working:**

- Ensure the microphone is positioned correctly and not muted via the in-line controller.
- Check your device's audio settings to ensure the headset microphone is selected as the input device.
- Test the microphone on another device if possible to rule out a device-specific issue.

- **7.1 Surround Sound Not Working:**

- Ensure the headset is connected via the USB Sound Card. 7.1 surround sound is not available via 3.5mm connection.
- Press the 7.1 button on the in-line controller to activate the feature.
- Verify that your operating system or game settings are configured for 7.1 surround sound output.

- **RGB Lights Not On:**

- Ensure the headset is connected via the USB Sound Card. RGB lighting requires USB power.
- Check the USB connection for proper seating.
