

## RORRY D12

# RORRY 3-in-1 Wireless Charging Station User Manual

Model: D12

## 1. INTRODUCTION

Thank you for choosing the RORRY 3-in-1 Wireless Charging Station. This versatile device is designed to simplify your charging experience by providing a centralized solution for your iPhone, Apple Watch, and AirPods. It features a detachable 10000mAh power bank for on-the-go charging and a foldable design for portability. Please read this manual carefully to ensure proper use and maintenance of your charging station.

## 2. KEY FEATURES

- **3-in-1 Charging:** Simultaneously charges your iPhone (MagSafe compatible), Apple Watch, and AirPods.
- **Detachable 10000mAh Power Bank:** Provides portable power for your iPhone, allowing for charging on the go.
- **Foldable Design:** Compact and adjustable for easy storage and travel.
- **Magnetic Alignment:** Ensures precise and efficient charging for MagSafe-compatible iPhones.
- **Safety Protections:** Built-in safeguards against overcharge, overcurrent, and short-circuiting.

### 3. PACKAGE CONTENTS

Please check the package contents upon unboxing:

- 1 x Detachable power bank
- 1 x PD 20W charging adapter
- 1 x MagSafe charger station (base unit)
- 1 x USB Type-C Cable

### 4. SETUP GUIDE

#### 4.1 Initial Setup

1. Connect the provided USB Type-C cable to the charging station's input port.
2. Plug the other end of the USB Type-C cable into the included PD 20W charging adapter.
3. Insert the PD 20W charging adapter into a wall outlet. The indicator light on the charging station will illuminate, indicating it is powered on and ready for use.

#### 4.2 Detachable Power Bank Integration

The detachable power bank magnetically attaches to the main charging station. Ensure it is properly aligned and seated for charging when docked.

# Detachable Power Bank

Strong Suction & Big Capacity

10000mAh

Image: The detachable 10000mAh power bank shown with an iPhone magnetically attached, demonstrating its strong suction and high capacity for portable charging.

## 5. OPERATING INSTRUCTIONS

### 5.1 Charging iPhone (MagSafe)

Place your MagSafe-compatible iPhone onto the magnetic charging pad of the station. The phone will automatically align and begin charging. Ensure your iPhone is centered for optimal charging efficiency.

### 3.5W For Apple Watch

Image: An iPhone charging wirelessly on the station's MagSafe pad, illustrating its 15W charging capability for compatible iPhone models.

### 5.2 Charging Apple Watch

Place your Apple Watch onto the dedicated watch charging module. The watch will magnetically snap into place and begin charging. This module can be folded for compact storage or extended for use.

### 5.3 Charging AirPods

Place your AirPods charging case onto the wireless charging pad located at the base of the station. Ensure the case is centered on the pad for effective charging.

Image: An AirPods charging case placed on the base wireless charging pad, demonstrating its 5W charging capability for AirPods and AirPods Pro models.

## 5.4 Using the Detachable Power Bank

To use the power bank independently, detach it from the main station. To activate the power bank, **press the power button twice** to turn it on. Attach your MagSafe-compatible iPhone to the power bank for portable wireless charging. The integrated watch charger can also be used when detached.

# Power is Ready Whenever You Need

Take out & go !

## 6. MAINTENANCE AND CARE

- Keep the charging station away from water, moisture, and extreme temperatures.

- Clean the surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Avoid dropping or subjecting the device to strong impacts.
- Store in a cool, dry place when not in use for extended periods.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging	Incorrect power adapter; loose connection; device misalignment; foreign object on charging pad.	Ensure using the provided PD 20W adapter. Check all cable connections. Realign device on the charging pad. Remove any metal objects or thick cases.
Detachable power bank not turning on/charging	Not activated; low battery.	<b>Press the power button twice</b> to activate the power bank. Ensure it is fully charged by docking it on the main station.
Charging station or device gets hot	Normal during wireless charging; poor ventilation; foreign object.	Slight warmth is normal. Ensure adequate ventilation around the charger. Remove any foreign objects. If excessively hot, disconnect and allow to cool before resuming use.
Slow charging	Using non-optimal power adapter; device case interference.	Use the included PD 20W adapter. Remove thick phone cases or cases with metal components.

## 8. PRODUCT SPECIFICATIONS

Feature	Detail
