## FOHERE HB-B106K

# FOHERE Nut Milk Maker Machine User Manual

Model: HB-B106K | Brand: FOHERE

### INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient operation, maintenance, and troubleshooting of your FOHERE Nut Milk Maker Machine. Designed for versatility, this appliance allows you to prepare a variety of plant-based milks, baby food, and juices with ease. Please read this manual thoroughly before first use and retain it for future reference.

### PRODUCT FEATURES

- **Powerful Motor and Blades:** Equipped with an 800W high-power motor and sturdy food-grade stainless steel 8-blades for efficient grinding and smooth results. The stirring column on the inner wall ensures thorough mixing.

Image: Detailed view of the machine's solid 8-blade system and 800W high-power motor, emphasizing its grinding capabilities.

- **Large Capacity:** A 35 oz (1000ml) capacity allows for making 4-5 cups of fresh plant milk, suitable for family use.

Image: The nut milk maker pouring liquid into multiple glasses, illustrating its 35 oz large capacity.

- **Multi-functional Operation:** Capable of making various beverages and foods including nut milk, oat milk, soy milk, milkshakes, rice cereal, and baby food. It integrates functions of a blender, kettle, food supplement machine, and juicer.

Image: A visual display of different types of nut milks, fruit juice, and baby food that can be prepared with the machine.

- **Timing and Keep Warm Functions:** Features a delayed start function (1-12 hours) for preparing beverages in advance and a 2-hour keep warm function.

Image: The machine displaying its delayed start and temperature settings, showing ingredients being added for overnight preparation.

- **Automatic Self-Cleaning:** A 120-second cycle flushing self-cleaning function simplifies maintenance.

# Diy Your Nut Milk

Now You Can Make Healthy and Nutritious Food at Home

Image: The machine actively performing its self-cleaning function, with water swirling inside.

- **Safety Features:** Includes a waterproof silicone ring inside the top cover to prevent spills, a safety lock that ensures operation only when securely locked, anti-slip feet for stability, and overheating protection (automatic shut-down if temperature exceeds 266°F).

## Silicone Waterproof

With Silicone Waterproof Ring, Anti-Leakage Function

## SAFETY INFORMATION

Please adhere to the following safety guidelines to ensure safe operation and prevent damage to the appliance or injury:

- Always ensure the water level is below the maximum line to prevent overflow, especially when processing ingredients that expand or foam.
- Do not operate the machine without the cover securely in place, especially when blending hot liquids.

- Keep pour openings closed when blending hot liquids.
- The machine will automatically shut down if it overheats, preventing potential hazards.
- Ensure the machine is placed on a stable, flat surface during operation.
- For cleaning, hand wash only. Do not immerse the main unit in water.

## SETUP AND FIRST USE

Before using your FOHERE Nut Milk Maker for the first time, please follow these steps:

1. Unpack all components and remove any packaging materials.
2. Wash the interior of the machine, the lid, and any accessories (measuring cup, filter bag, cleaning brush) with warm, soapy water. Rinse thoroughly and dry.
3. Place the machine on a stable, dry, and flat surface.
4. Ensure the power cord is securely plugged into a grounded electrical outlet.

## OPERATING INSTRUCTIONS

### General Operation Steps:

Image: Visual guide for basic operation: adding nuts, adding water, and pressing start.

1. Add desired ingredients to the machine's interior.
2. Add water, ensuring it does not exceed the "Max" fill line.
3. Securely close the lid.
4. Select the desired function using the "Menu/Cancel" button.
5. Press the "Start" button to begin operation.

### Making Nut Milk (e.g., Almond, Soy, Oat Milk):

For hot nut milk, the process typically takes around 30 minutes. Cold nut milk can be made in about 12 minutes.

- Add pre-soaked (if required by recipe) nuts or grains to the machine.
- Fill with water up to the "Max" line.
- Select "Soy Milk" or "Room Temp" (for cold milk) function.
- After the cycle, use the provided filter bag to strain the milk for a smoother consistency.
- You can add honey, sugar, or other flavorings during the last 2 minutes of the cycle when the machine beeps, as shown in the video below.

Video: Demonstrates the process of making nut milk, including adding ingredients, selecting the function, and filtering the finished product. (Source: FOHERE Seller)

### Making Juices and Baby Food:

The machine can prepare juices in approximately 2 minutes and baby food. For juices, ensure fruits are cut into small pieces and do not exceed the recommended amount.

Image: Various fruits like watermelon and orange cut into small pieces, ready for juicing in the machine.

- Add chopped fruits or vegetables for juice, or appropriate ingredients for baby food.
- Add water as needed.
- Select "Juice" or "Baby Food" function.

Video: Shows the versatility of the FOHERE Nut Milk Maker in preparing various beverages and baby food. (Source: FOHERE Seller)

### Delayed Start Function:

- After adding ingredients, press "Delay Start" and set the desired delay time (1-12 hours).
- The machine will automatically start the selected program after the set delay.

Regular cleaning ensures the longevity and optimal performance of your FOHERE Nut Milk Maker.

### Self-Cleaning Function:

- After use, add clean water to the machine.
- Select the "Self Clean" function. The 120-second cycle will flush the interior.
- For best results and to remove any remaining residue or odor, use the provided cleaning brush after the self-clean cycle.

### Manual Cleaning:

- Always unplug the machine before manual cleaning.
- Wipe the exterior with a damp cloth. Do not immerse the main unit in water.
- The interior can be cleaned with warm, soapy water and the cleaning brush. Rinse thoroughly.
- Ensure all parts are completely dry before storing.

## TROUBLESHOOTING

If you encounter issues with your FOHERE Nut Milk Maker, please refer to the following common solutions:

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outage; safety lock not engaged.	Check power connection; ensure lid is securely closed and locked; check circuit breaker.
Overflow during operation.	Water/ingredients exceeded MAX fill line.	Always ensure ingredients and water are below the MAX line. Clean up any spills immediately.
Nut milk is gritty.	Insufficient blending time; too many ingredients; not using filter bag.	Ensure correct program is selected; do not overfill; use the provided filter bag for smoother results.
Machine stops unexpectedly.	Overheating protection activated.	Unplug the machine and allow it to cool down for at least 15-20 minutes before attempting to use it again.

If the problem persists after attempting these solutions, please contact FOHERE customer support for assistance.

## SPECIFICATIONS

Attribute	Detail
Brand	FOHERE
Model Name	HB-B106K
Color	Black

Attribute	Detail
Material	Stainless Steel
Product Dimensions	5.5"W x 11.4"H
Item Weight	2.19 pounds (35 Ounces)
Capacity	1000 Milliliters (35 oz)
Wattage	800 watts
Power Source	AC
Special Features	Safety Lock, Multiple Speeds, Keep Warm Setting, Delay Start, Automatic Cleaning
Recommended Uses	Soy milk, Residential, Juices, Nut milk, Oat milk
Product Care Instructions	Hand Wash Only
