Lapcare LPB-405

Lapcare Bolt Pro 20000mAh Transparent Power Bank User Manual

Brand: **Lapcare** | Model: **LPB-405**

1. Introduction

Thank you for choosing the Lapcare Bolt Pro 20000mAh Transparent Power Bank. This high-capacity portable charger is designed to provide reliable and fast power to your mobile devices on the go. Featuring a transparent design, 22W Power Delivery (PD) fast charging, dual Quick Charge (QC) USB ports, and a smart LED display, it ensures your devices stay powered efficiently and safely. Please read this manual carefully before using the product to ensure optimal performance and longevity.

2. Key Features

- **Massive 20000mAh Capacity:** Provides multiple charges for smartphones, tablets, and other USB-powered devices.
- **22W Type-C PD Fast Charging:** Offers rapid power delivery for compatible devices, significantly reducing charging time.
- **Dual USB QC Ports:** Allows simultaneous fast charging of two devices using Quick Charge technology.
- **Smart LED Display:** Clearly indicates the remaining battery percentage and charging status.
- **Transparent Design:** A unique aesthetic that showcases the internal components.
- **Multi-Circuit Protection:** Built-in safeguards against overcharging, over-discharging, over-voltage, over-current, short circuits, and overheating.
- **Multi-Protocol Support:** Compatible with various charging protocols for broad device compatibility.
- **Ultra-Lightweight Design:** Despite its high capacity, it is designed for portability.

Feature Visuals

Image: The Lapcare Bolt Pro power bank highlighting its 22.5W power output and 20000mAh capacity, along with the model number LPB-405.

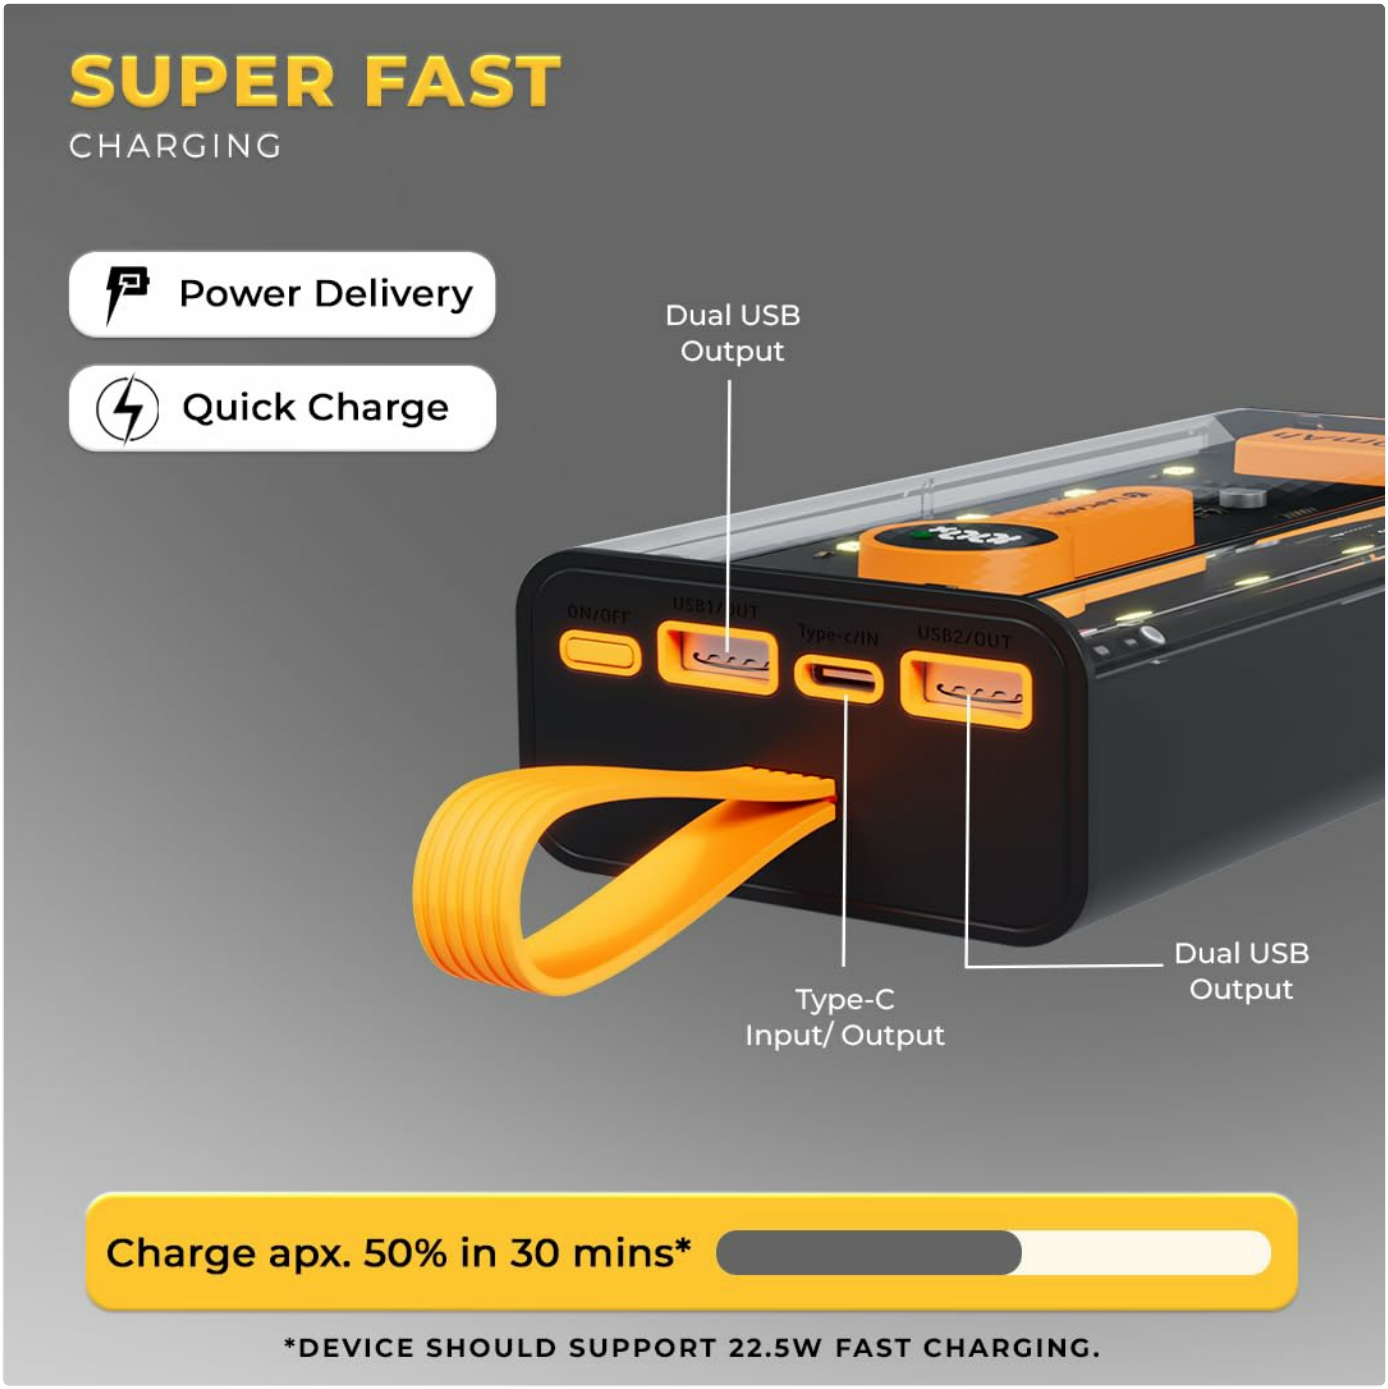

Image: A detailed view of the power bank's ports, indicating dual USB output and a Type-C input/output port, emphasizing Power Delivery and Quick Charge features. It also notes that the device can charge approximately 50% in 30 minutes.

Image: Visual representation of the power bank's smart protection mechanisms, including safeguards against short circuits, over-voltage, over-current, and circuit identification protection, ensuring safe charging.

Image: An exploded diagram illustrating the internal and external components of the 20000mAh transparent power bank, including the acrylic glass, 10 LED flashlights, power button, USB output ports, Type-C input/output, digital LED display, and solid ABS casing.

Image: This visual demonstrates the charging capability of the power bank, showing it can charge a Samsung S23 Ultra 5G approximately 3 times and an iPhone 15 Pro Max approximately 4 times. It also depicts the power bank actively charging a smartphone.

3. What's in the Box

- Lapcare Bolt Pro 20000mAh Power Bank (LPB-405)
- USB Charging Cable
- User Manual (this document)

4. Setup and First Use

4.1 Initial Charging of the Power Bank

1. Connect the provided USB charging cable to the Type-C input/output port of the power bank.
2. Connect the other end of the cable to a compatible USB wall adapter (not included) or a computer's USB port. For

fastest charging, use a 22W PD compatible adapter.

3. The LED display on the power bank will illuminate, showing the current battery percentage. It will increase as the power bank charges.
4. Charge the power bank until the LED display shows "100%". This may take several hours depending on the charger's output.

It is recommended to fully charge the power bank before its first use to optimize battery performance.

5. Operating Instructions

5.1 Charging Your Devices

1. Connect your device's charging cable to one of the USB output ports (USB Output 1, USB Output 2) or the Type-C input/output port on the power bank.
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. The LED display will show the power bank's remaining battery percentage.
4. You can charge up to three devices simultaneously using the dual USB-A ports and the Type-C port.
5. Once your device is fully charged, disconnect it from the power bank. The power bank will automatically turn off after a short period of inactivity.

5.2 Recharging the Power Bank

Refer to section 4.1 "Initial Charging of the Power Bank" for detailed instructions on how to recharge your power bank. Always use a compatible charging cable and adapter for optimal charging speed and safety.

5.3 Understanding the LED Display

The transparent design of the Lapcare Bolt Pro features a digital LED display that shows the exact battery percentage of the power bank. This allows you to monitor the remaining power at a glance, ensuring you know when it's time to recharge the power bank.

- **Display On:** Press the power button once to check the battery level.
- **Charging Indicator:** The percentage will increase while the power bank is being charged.
- **Discharging Indicator:** The percentage will decrease while the power bank is charging a device.

6. Maintenance and Care

- **Cleaning:** Wipe the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** To prolong battery life, fully charge and discharge the power bank at least once every three months if not in regular use. Avoid completely draining the battery for extended periods.
- **Avoid Drops:** Do not drop or subject the power bank to strong impacts, as this can damage internal components.
- **Water Exposure:** Keep the power bank away from water and liquids.

7. Troubleshooting

7.1 Power Bank Not Charging

- **Check Cable:** Ensure the charging cable is securely connected to both the power bank and the power source. Try a different cable.
- **Check Adapter:** Verify that the wall adapter is working correctly and provides sufficient power. Try a different adapter.
- **Power Source:** Ensure the power outlet or USB port you are using is active.

7.2 Device Not Charging from Power Bank

- **Check Cable:** Ensure the cable connecting your device to the power bank is functional and securely connected. Try a different cable.
- **Power Bank Battery:** Check the LED display to ensure the power bank has sufficient charge.
- **Device Compatibility:** Ensure your device is compatible with USB charging.
- **Restart Power Bank:** Disconnect all cables, wait a few seconds, then reconnect.

7.3 Slow Charging

- **Cable Quality:** Use a high-quality, certified charging cable that supports fast charging.
- **Adapter Output:** For fast charging the power bank, use a 22W PD compatible wall adapter. For charging devices, ensure your device and cable support fast charging protocols.
- **Multiple Devices:** Charging multiple devices simultaneously may reduce the charging speed for each individual device.

8. Specifications

Model Number	LPB-405
Battery Capacity	20000 mAh
Input (Type-C)	22W PD (Power Delivery)
Output (Type-C)	22W PD (Power Delivery)
Output (USB-A 1 & 2)	Quick Charge (QC) compatible
Product Dimensions	13.8 x 6.8 x 3.8 cm
Item Weight	443 g
Battery Type	Lithium Polymer
Color	Black (Transparent Design)
Special Features	22W TYPE-C -PD Delivery, Dual USB QC Port, Multi Circuit Smart Protection, Multi Protocol Support, LED Display
Country of Origin	India

9. Warranty and Support

Lapcare products are manufactured with high-quality standards. For any warranty claims, technical support, or product inquiries, please contact Lapcare customer service through their official website or the retailer from whom you purchased the product. Please retain your purchase receipt as proof of purchase for warranty purposes.
