TOSHIBA TW-127XH3R(W)

TOSHIBA TW-127XH3R(W) Drum Type Washing Machine Dryer User Manual

Model: TW-127XH3R(W)

INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your TOSHIBA TW-127XH3R(W) Drum Type Washing Machine Dryer. Please read this manual thoroughly before using the appliance and keep it for future reference.

SAFETY PRECAUTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Ensure the appliance is properly grounded.
- Do not allow children to play on or in the appliance.
- Do not wash or dry articles that have been cleaned in, washed in, soaked in, or spotted with combustible or explosive substances.
- Unplug the appliance before cleaning or performing any maintenance.
- Do not operate the appliance if it is damaged.

PRODUCT OVERVIEW

The TOSHIBA TW-127XH3R(W) is a high-performance drum type washing machine dryer designed for efficient and thorough laundry care. It features advanced technologies such as antibacterial ultra fine bubble wash, heat pump drying, and automatic detergent dispensing.

SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance and longevity of your washing machine dryer.

Unpacking

1. Carefully remove all packaging materials.
2. Check for any damage during transit. Report any damage to your dealer immediately.
3. Remove all transit bolts from the rear of the machine. Keep them for future transport.

Location Requirements

The appliance should be placed on a firm, level surface. Ensure there is sufficient space around the unit for ventilation and door opening.

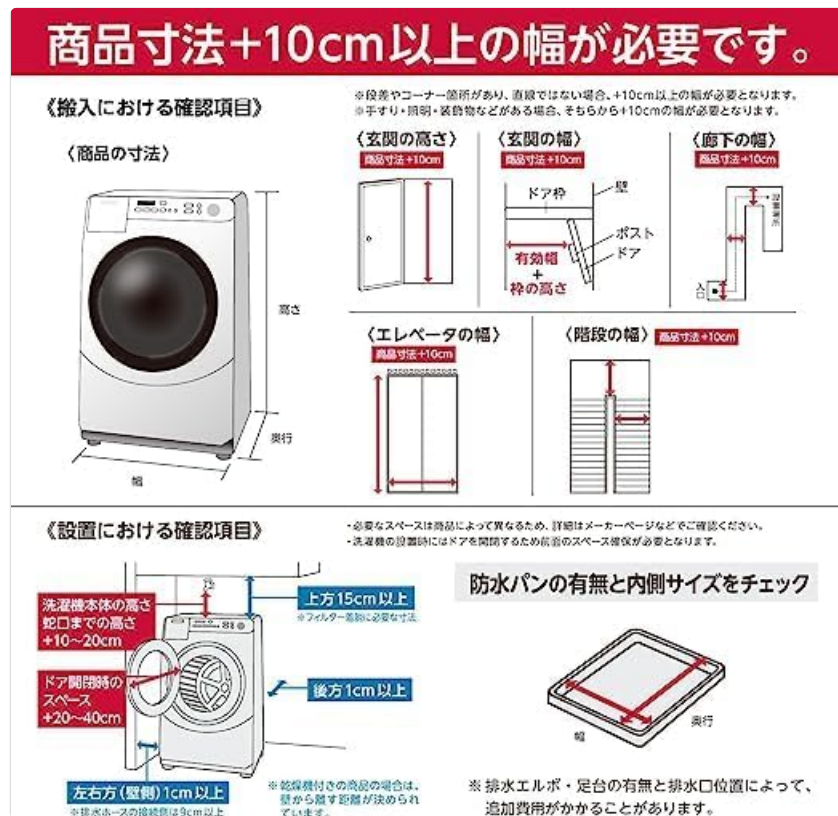

Image: Diagram illustrating the required installation space, including dimensions for width, depth, height, and clearance from walls. It also shows considerations for waterproof pans and drain hose connections.

Water and Electrical Connections

1. Connect the water supply hoses to the hot and cold water taps.
2. Ensure the drain hose is properly installed into a suitable drain.
3. Plug the power cord into a grounded electrical outlet (100V).

OPERATING INSTRUCTIONS

This section details the steps for operating your washing machine dryer.

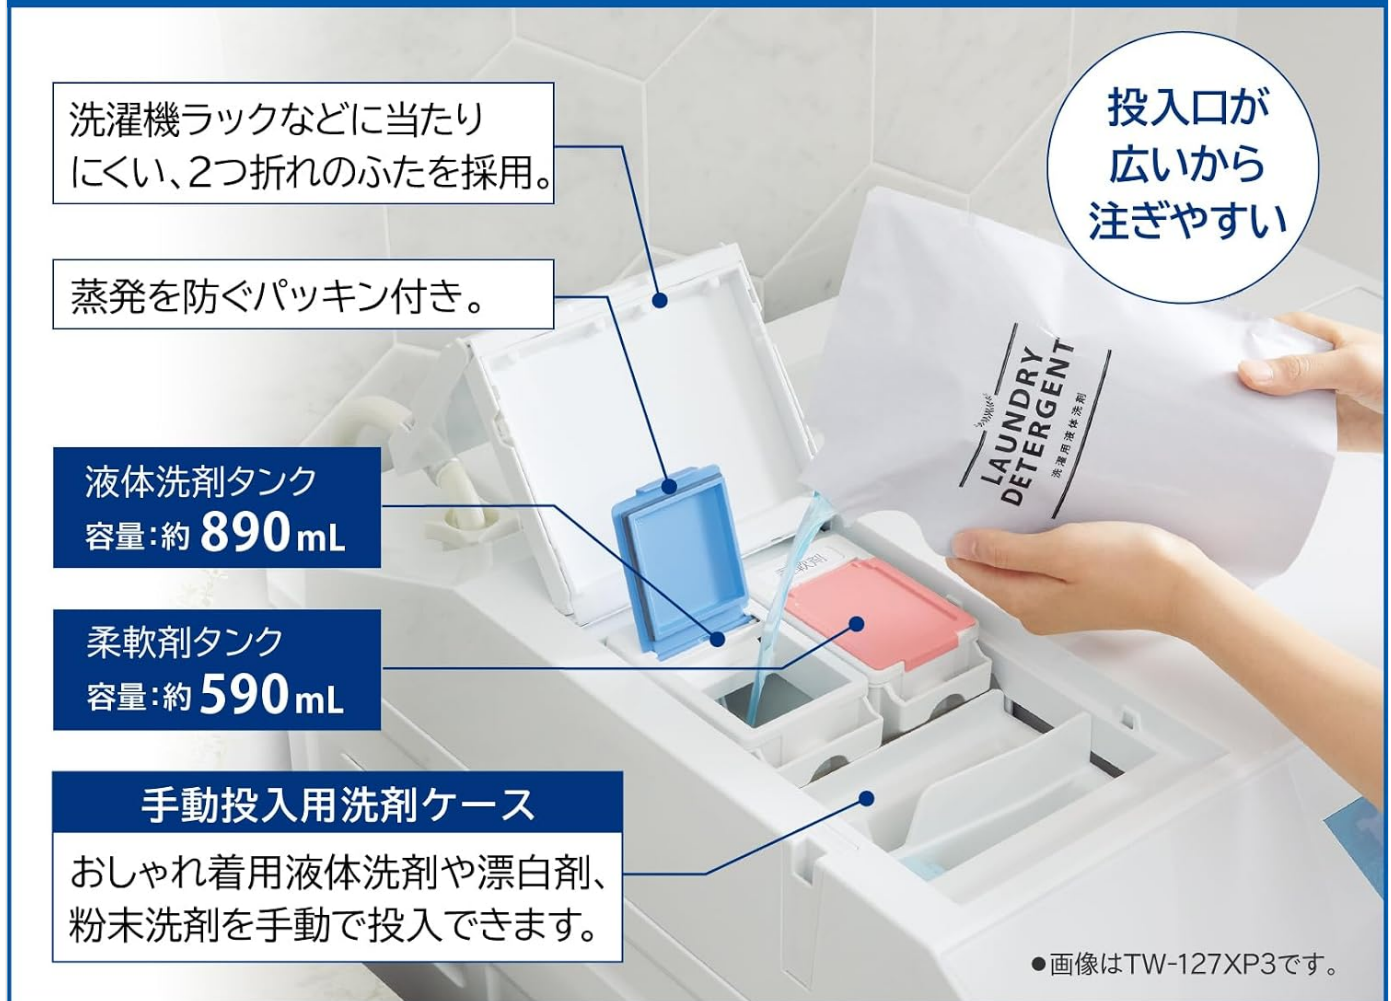

Loading Laundry

1. Sort laundry by fabric type, color, and degree of soiling.
2. Open the door and load laundry loosely into the drum, ensuring not to overload. The maximum wash capacity is 12kg, and dry capacity is 7kg.

Adding Detergent and Softener

The appliance features an automatic liquid detergent and softener dispenser.

液体洗剤・柔軟剤 自動投入

ここが
便利

- ▶ 計量や投入の手間を減らせる
- ▶ 自動で適量を量るから経済的
- ▶ 洗剤・柔軟剤の置き場所いらず

● 液体洗剤は890mL以下、柔軟剤は590mL以下の詰め替え用タイプの中身を1本全部入れられます。

Image: Close-up view of the automatic liquid detergent and softener dispenser compartments, showing how to refill them. The wide opening makes pouring easy.

1. Pour liquid detergent into the designated detergent compartment (approx. 890ml capacity).
2. Pour softener into the designated softener compartment (approx. 590ml capacity).
3. The machine will automatically dispense the correct amount based on the load.
4. For special detergents or powder detergents, use the manual input case.

Selecting a Program

Use the large color touch panel to select your desired wash and dry program.

2. **Ultra Fine Bubble Rinse:** Adsorbs and removes residual detergent components for a clean rinse.
3. **Hot Water Antibacterial Ultra Fine Bubble Wash W:** Enhances cleaning power with warm water for more effective stain removal.
4. **Heat Pump Dehumidifying Drying:** Dries clothes quickly with large airflow while minimizing wrinkles, using gentle heat pump technology for a fluffy finish.
5. **UV Sterilization Drying Course (up to 4kg):** UV irradiation before washing and synergistic effect with warm air during drying sterilizes clothes and suppresses viruses.
6. **Mite Care Course (up to 3kg):** UV irradiation followed by warm air heating before washing to effectively remove mites. Recommended for blankets and bedding covers.

Starting the Cycle

1. Close the door securely.
2. Press the Start/Pause button to begin the cycle.

Smartphone Link (App Compatible)

Control your washing machine dryer remotely using the dedicated smartphone app for added convenience.

MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and optimal performance of your appliance.

Cleaning the Lint Filter

Clean the lint filter after every drying cycle to maintain drying efficiency.

Image: Diagram showing how to remove and clean the lint filter, emphasizing the "Push de Pon!" mechanism for easy removal.

1. Open the filter cover.
2. Remove the lint filter and clean off any accumulated lint.
3. Rinse the filter under running water if necessary and ensure it is completely dry before reinserting.

Cleaning the Detergent Dispenser

Periodically clean the detergent and softener compartments to prevent residue buildup.

1. Remove the dispenser drawer.
2. Wash the drawer under running water and remove any residue.
3. Clean the housing of the dispenser with a damp cloth.

Drum Cleaning

Use the drum clean function regularly to keep the drum hygienic.

1. Refer to the control panel for the specific "Drum Clean" program.
2. Run the program without laundry.

TROUBLESHOOTING

Before contacting service, please refer to the following common issues and their solutions.

Problem	Possible Cause	Solution
Machine does not start	Power cord not plugged in; Door not closed properly; Child lock activated.	Check power connection; Ensure door is securely latched; Deactivate child lock.
Excessive vibration/noise	Transit bolts not removed; Appliance not level; Uneven load.	Remove transit bolts; Adjust leveling feet; Redistribute laundry evenly.

Problem	Possible Cause	Solution
Clothes not drying properly	Lint filter clogged; Overloaded dryer; Incorrect program selected.	Clean lint filter; Reduce load size; Select appropriate drying program.
Water leakage	Hoses not properly connected; Drain hose blocked.	Check and tighten hose connections; Clear any blockages in the drain hose.
