2. PRODUCT FEATURES

- **Sensitive Touch:** The ultra-thin 0.1mm design ensures the original touch sensitivity of your smartwatch is maintained for quick and responsive interaction.
- **Maximum Coverage:** The flexible TPU material provides maximum coverage, fitting the curved edges of your smartwatch screen for comprehensive protection.
- **Ultra Clear:** Enjoy 99% HD clarity with high-definition transparency, preserving the bright and colorful image quality of your smartwatch display.
- **Automatic Repair:** Self-healing technology automatically repairs minor scratches and eliminates small bubbles within 24 hours.
- **Scratch Resistant:** Designed to resist scratches from daily use, protecting your watch screen from damage.

Automatic Repair

The self-healing technology constantly eliminates minor scratches and bubbles within 24hrs.

3. WHAT'S IN THE BOX

Your Lamshaw screen protector package includes:

- 6 x Screen Protectors
- 1 x Clean Set (includes wet wipe, dry wipe, and fiber cloth)

4. INSTALLATION INSTRUCTIONS

Follow these steps carefully for optimal application of your screen protector:

1. **Clean the Screen:** Use the wet wipe from the clean set to thoroughly clean your watch screen. Follow with the dry wipe to remove any moisture. Finally, use the fiber cloth to polish the display and remove any dust or smudges.
2. **Remove Back Film (Step 1):** Carefully peel off the back protective film labeled '1' from the screen protector.

3. **Align Position:** Align the screen protector precisely with the edges and cutouts of your watch screen.
4. **Apply Edge:** Gently align one edge of the screen protector to the watch screen and slowly press it down, allowing it to adhere to one side.
5. **Press Entire Screen:** Using your finger or a soft card, press the entire screen protector from the center outwards towards the edges to ensure full adhesion and remove air.
6. **Remove Top Film (Step 2) & Remove Bubbles:** Carefully remove the top protective film labeled '2'. If any small bubbles remain, gently push them towards the nearest edge with your finger or the fiber cloth until they disappear.

Installation Instructions

1: Clean the screen: use wet paper first,
second use the dry paper,
last clean the display use the fiber cloth

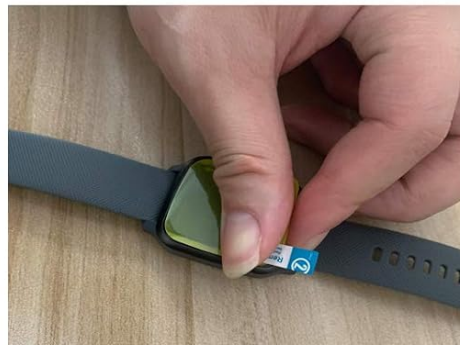

2: Remove Back stick 1

3: Align the position

4: Align the edge of the screen and
stick to one side

5: Press the entire screen with
your hand to the edge

6: Remove the stick 2. if there have bubble,
please use your hand
make the bubble disappear

5. OPERATING

Once installed, the Lamshaw screen protector is designed to be virtually unnoticeable. It maintains the original touch sensitivity and display clarity of your TOOBUR ID155 Fitness Tracker Watch, allowing for seamless operation of all its functions.

6. MAINTENANCE AND CARE

To ensure the longevity and clarity of your screen protector:

- Clean the screen protector regularly with a soft, lint-free cloth (like the fiber cloth provided in the clean set).
- Avoid using harsh chemicals or abrasive materials, as these can damage the protector's surface.
- While the protector is scratch-resistant, extreme impacts or sharp objects can still cause damage. Handle your watch with care.

7. TROUBLESHOOTING

- **Bubbles After Installation:** Small bubbles often disappear naturally within 24-48 hours due to the self-healing properties of the TPU material. For larger bubbles, gently push them towards the nearest edge using a soft cloth or a credit card wrapped in cloth.
- **Screen Protector Peeling:** Ensure the screen was thoroughly cleaned and free of dust before installation. Proper alignment and firm pressing during application are crucial for strong adhesion. If peeling persists, it may indicate improper installation or a need to replace the protector.
- **Reduced Touch Sensitivity:** While rare, if you experience reduced touch sensitivity, ensure the protector is applied smoothly without air gaps. Re-installation might be necessary if the issue persists.
