Storage and Safety Information

Storage:

Store the product in a cool, dry place away from direct sunlight to maintain its potency and quality.

Important Warnings:

- Keep out of reach of children.
- Consult with your healthcare professional before taking this supplement if you are pregnant, nursing, or have any pre-existing health conditions.

- Do not purchase or use if tampering is evident around the ring or if the seal is broken or missing.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

Additional Information

Why Vitamin D is Separate from AG1 Powder:

Vitamin D is challenging for the body to process from foods and is more effectively absorbed when delivered in an oil form with Vitamin K2. AG1 Vitamin D3+K2 is formulated separately from the AG1 powder to ensure optimal absorption of these high-quality vitamins. This separation also allows users to modify their dosage based on the time of year and individual lifestyle needs.
