User Manual for OEM Part- Remote Control

Brand: Generic

Model(s): 100018971, 100012588, 100012587, 100012586

INTRODUCTION

This manual provides instructions for the OEM Part- Remote Control, compatible with various ONN Roku LED Smart TV models. This remote is designed for immediate use without any complex setup or programming. Simply insert batteries, and it's ready to operate your compatible television.

SETUP

1. Battery Installation

The remote control requires two (2) AAA batteries (not included). Follow these steps to install them:

1. Locate the battery compartment cover on the back of the remote control.
2. Slide the cover downwards to open the compartment.
3. Insert two new 1.5V AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Slide the battery compartment cover back into place until it clicks securely.

Image: Rear view of the remote control with the battery cover removed, revealing the two AAA battery slots. Note the polarity markings inside the compartment.

2. Initial Use

This remote control requires no programming or pairing. Once the batteries are correctly installed, it is ready for immediate use with compatible ONN Roku LED Smart TV models.

OPERATING INSTRUCTIONS

Familiarize yourself with the buttons and their functions for optimal control of your TV.

MAINTENANCE

Cleaning the Remote

To maintain the remote control's appearance and functionality, clean it regularly:

- Use a soft, dry cloth to wipe the surface of the remote.
- For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid excessive moisture.
- Do not use harsh chemicals, abrasive cleaners, or solvents, as these can damage the remote's finish or internal components.

Battery Replacement

Replace the batteries when the remote's performance degrades or it stops responding. Always replace both batteries at the same time with new 1.5V AAA batteries. Dispose of old batteries according to local regulations.

TROUBLESHOOTING

If you encounter issues with your remote control, try the following solutions:

- **Remote Not Responding:**
 - Ensure batteries are inserted correctly with the correct polarity (+/-).
 - Replace old batteries with new ones.

- Point the remote directly at the TV's IR receiver.
- Remove any obstructions between the remote and the TV.

• **Limited Range:**

- Check battery level; low batteries can reduce range.
- Ensure no strong light sources (like direct sunlight) are interfering with the IR signal.

• **Specific Buttons Not Working:**

- Check for any debris or stickiness around the button.
- If only certain buttons fail, the remote might be damaged and may need replacement.

If the problem persists after trying these steps, please refer to the Support section.
