HOOBRO JR90CT03

HOOBRO Cat Tree Floor to Ceiling, Cactus Cat Tower, Adjustable Height (94-110 Inches), Model JR90CT03 User Manual

Model: JR90CT03

1. PRODUCT OVERVIEW

The HOOBRO JR90CT03 Cat Tree is a multi-tiered, floor-to-ceiling cat tower designed to provide a stimulating and comfortable environment for indoor cats. It features an adjustable height mechanism to securely fit various ceiling heights, multiple platforms, a cozy hammock, a cat condo, and scratching surfaces. The unique cactus design adds an aesthetic element to your home.

Key Features:

- **Adjustable Height:** Fits ceilings from 94 to 110 inches (240-280 cm).
- **Multi-Tiered Design:** Five levels for climbing, playing, and resting.
- **Cozy Hammock:** A soft, comfortable spot for relaxation.
- **Cat Condo:** Enclosed space for privacy and security.
- **Scratching Surfaces:** Integrated scratching posts to satisfy natural instincts.

- **Durable Construction:** Designed for stability and long-term use.

2. SETUP INSTRUCTIONS

Please follow these instructions carefully to ensure proper assembly and stability of your cat tree. It is recommended to assemble the unit on a soft, flat surface to prevent damage.

2.1 Unpacking

- Carefully open the packaging and remove all components.
- Verify that all parts listed in the included parts list are present and undamaged.
- Keep small parts away from children and pets during assembly.

2.2 Assembly Steps

1. Begin by attaching the base plate to the lowest support post. Ensure all screws are tightened securely.
2. Assemble the cat condo onto the base, following the diagram in your physical instruction manual.
3. Attach the various platforms and scratching posts in ascending order, as indicated in the assembly guide. Pay attention to the orientation of each piece.
4. Install the hammock and any hanging toys.
5. Once the main structure is built, position the cat tree in its desired location.
6. Adjust the top tension rod to fit snugly against the ceiling. Turn the adjustment mechanism clockwise until the tree is stable and firm. Do not overtighten, as this can damage the ceiling or the tree.

3. OPERATING GUIDELINES

This section provides guidance on how to best utilize your HOOBRO Cat Tree for your feline companions.

3.1 Placement

- Place the cat tree in a location where your cat feels safe and can observe its surroundings, such as near a window.
- Ensure the ceiling surface where the tree makes contact is sturdy and can withstand gentle pressure.
- Avoid placing the tree in high-traffic areas where it might be easily bumped or disturbed.

3.2 Cat Introduction

- Encourage your cat to explore the tree by placing treats or favorite toys on different levels.
- Allow your cat to acclimate to the new structure at its own pace.
- The scratching posts are designed to deter scratching on furniture. If your cat is not using them, try applying catnip.

Large Platform

Offering a more comfortable rest and play space with a cactus design.

Image 3.1: A cat comfortably resting on the large platform of the cat tree, demonstrating a potential use for the space.

Image 3.2: A kitten engaging with the scratching post section of the cat tree, highlighting its utility for natural feline behavior.

4. MAINTENANCE

Regular maintenance will extend the life of your cat tree and ensure a hygienic environment for your pet.

4.1 Cleaning

- **Spot Cleaning:** For minor spills or dirt, use a damp cloth with mild soap to spot clean affected areas.
- **Hand Wash Only:** The fabric components are designed for hand washing. Do not machine wash or tumble dry.
- **Vacuuming:** Regularly vacuum the carpeted surfaces to remove loose fur and dust.
- **Odor Control:** If odors develop, sprinkle baking soda on the fabric, let it sit for 15-30 minutes, then vacuum thoroughly.

4.2 Inspection

- Periodically check all screws and connections to ensure they remain tight. Retighten as necessary.
- Inspect the scratching posts for excessive wear. While designed to be durable, heavily used posts may eventually need replacement to maintain effectiveness.
- Ensure the top tension rod remains securely pressed against the ceiling. Adjust if any looseness is detected.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your cat tree.

5.1 Stability Issues

- **Tree feels wobbly:**
 - Ensure the top tension rod is properly adjusted and tightened against the ceiling. The rod should apply firm pressure without causing damage.
 - Verify that all assembly screws are fully tightened. Loose connections can lead to instability.
 - Check if the cat tree is placed on a level surface. Uneven flooring can affect stability.
 - Consider using the included wall anchor strap (if applicable) to secure the tree to a wall for added

stability, especially if you have very active or multiple cats.

- **Top section appears bent or damaged:**

- This can occur from overtightening the tension rod or if the internal structure is compromised. Ensure the tension is firm but not excessive.
- If the top section is damaged, contact customer support for assistance.

5.2 Cat Not Using the Tree

- **Lack of interest:**

- Try placing catnip on the scratching posts or platforms.
- Place favorite toys or treats on different levels to encourage exploration.
- Ensure the tree is in a quiet, comfortable location where your cat feels secure.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	HOOBRO
Model Number	JR90CT03
ASIN	B0CPDW7HBS
Item Weight	26.8 pounds
Product Dimensions (LxWxH)	23.6 x 11.8 x 94.5 inches
Adjustable Height Range	94-110 inches (240-280 cm)
Number of Levels	5
