

## LUBEX DT003

# LUBEX Painless Sapphire Ice Cooling IPL Laser Hair Removal Device

Model: DT003 | Brand: LUBEX

## 1. INTRODUCTION

The LUBEX Painless Sapphire Ice Cooling IPL Laser Hair Removal Device is designed for safe and effective hair removal at home. Utilizing advanced Intense Pulsed Light (IPL) technology combined with sapphire ice cooling, it offers a comfortable and efficient solution for reducing unwanted hair on various body parts.

## 2. SAFETY INFORMATION

Before using the device, please review the following safety guidelines:

- Always check your skin tone and hair color to ensure compatibility with IPL technology. Refer to the skin and hair color chart provided in the manual.
- Do not use the device on tattooed areas, sunburned skin, or areas with moles and freckles.
- Avoid use during pregnancy.
- Wear the provided protective goggles during operation to shield your eyes from the intense light flashes.
- Ensure the device's light window is clean before and after each use.
- Do not use more than three flashes on one area during a single treatment.
- If you experience any redness or burning sensation, apply cooling gel and avoid sun exposure for 24 hours.

## 3. PREPARATION BEFORE USE

Proper preparation is crucial for effective and safe hair removal. Follow these steps before each session:

1. **Shave the Area:** Thoroughly shave the hair on the area to be treated. Ensure the skin is clean and dry, free from any lotions, oils, or deodorants.
2. **Skin and Hair Color Check:** Consult the chart below to confirm your skin tone and hair color are suitable for IPL treatment. IPL works best on light to medium skin tones with dark hair.

## **3** Weeks Visible Result

3 Weeks

6-8 Week

completely inhibit hair growth and  
effect is visible

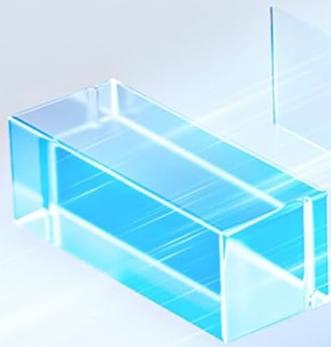

Complete hair removal

The LUBEX device features Sapphire Ice Cooling technology to ensure a comfortable experience, even for sensitive skin. This technology cools the contact surface to 41°F-50°F, providing instant and long-lasting cooling during treatment.

## 360° Frost Painless Ice-Cooling 3.0 Technology

### Speedy Cooling:

Cools to 50°F in 3 seconds after startup

### Extreme Cooling:

Lowers to 41°F

### Long-lasting Cooling:

Maintains 50°F for 30 minutes of continuous use

## 4. SETUP

Setting up your LUBEX IPL device is quick and easy:

1. **Connect to Power:** Plug the device into a power outlet using the provided adapter. The indicator lights will illuminate, indicating the device is ready.
2. **Wear Goggles:** Put on the included protective goggles to shield your eyes from the intense light flashes during operation.

## 5. OPERATING INSTRUCTIONS

The LUBEX IPL device offers various modes and intensity levels for personalized treatment:

### 5.1. Modes

The device features three comfort modes tailored for different body parts and hair thickness:

**Face Mode:** For sensitive areas like the upper lip.

**Bikini Mode:** For sensitive areas like the bikini line.

**Body Mode:** For overall sensitivity areas like arms, legs, and back.

## 3 Comfort Mode for Pain-Free Treatments

### Precision and safe for whole body hair removal

# 1

### Face Mode

For sensitive areas like upper lip.

# 2

### Bikini Mode

For sensitive areas like bikini.

# 3

### Body Mode

For overall sensitivity areas like arms, legs, and back.

Figure 3: Visual representation of the three specialized treatment modes.

## 5.2. Intensity Levels

The device has 15 adjustable intensity levels to effectively eliminate stubborn hair. Start with a lower intensity and gradually increase as your skin adapts.

**Sensitive 1-2:** Designed for those with sensitive skin or sensitive areas like bikini, upper lip, and face.

**Sensitive 3-4:** For those with moderate sensitivity or for later weeks of treatments on more sensitive areas.

**Sensitive 4-5:** For those with overall sensitivity, less sensitive areas, like arms, legs, and shoulders.

# 15 Adjustable Intensity Levels

Effectively eliminates stubborn hair, including men's armpit hair, lip hair, and more.

Figure 4: The device offers 15 intensity levels with a maximum energy output of 21J.

## 5.3. Usage Steps

Follow these general steps for effective treatment:

1. **Power On:** Long press the power button for 2 seconds to turn on the device. It will automatically set to Level 1 (Body mode) by default.
2. **Select Mode:** Press the mode button to switch between Body, Face, and Bikini modes as needed.
3. **Adjust Intensity:** Press the power button briefly to adjust the intensity level (1-5).
4. **Apply to Skin:** Place the device's light window firmly against your skin, ensuring full contact. The sapphire ice cooling surface will provide a cooling sensation.
5. **Flash:** Press the flash button to emit a light pulse. The device will automatically flash when in full contact with the skin.
6. **Move and Repeat:** Move the device to the next area, ensuring slight overlap, and repeat the flashing process. Avoid treating the same spot more than three times in one session.

## 5.4. Usage Frequency

For optimal results, follow the recommended usage schedule:

**Weeks 1-3:** 3-4 times per week.

**Weeks 4-6:** 2-3 times per week.

**After 6 weeks:** 2-3 times per month for long-lasting results.

**Quick 10 Minutes Treatments**  
15 Intensity Level

**Body**

**Face**

**Bikini**

**15 Adjustable Sensitive Levels for Pain-Free Treatments**

**Sensitive 1-2:** Designed for those with sensitive skin, for sensitive areas like bikini, upper lip, balls.

**Sensitive 3-4:** For those with moderate sensity or the later weeks of treatments on your more sensitive areas.

**Sensitive 4-5:** For those with overall sensitivity, less sensitive areas, like arms, legs, back, and shoulders.

Figure 5: Recommended usage period and frequency for visible results.

You may experience visible hair reduction in as little as 3 weeks, with significant hair removal after 6-8 weeks of consistent use.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your LUBEX IPL device, follow these maintenance guidelines:

- **Cleaning:** After each use, ensure the device is unplugged and cool. Use the provided cleaning cloth to gently wipe the light window and the device body. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the device in its original packaging or a clean, dry place away from direct sunlight and extreme temperatures.

## 7. TROUBLESHOOTING

If you encounter any issues with your device, refer to the following common troubleshooting tips:

- **Device not flashing:** Ensure the device is properly plugged in and the light window is in full contact with your skin. The device will only flash when it detects proper skin contact.
- **Device needs to recharge:** If the device is not responding, it may need to recharge. Wait 1-3 seconds between flashes.

- **Skin redness or burning sensation:** This may occur if the intensity level is too high for your skin type or if the same area was treated too many times. Apply cooling gel and reduce the intensity for subsequent treatments. Avoid sun exposure for 24 hours after treatment.

For further assistance, please contact LUBEX customer support.

## 8. SPECIFICATIONS

Feature	Detail
Brand	LUBEX
