Globalsades Gaming Keyboard and Mouse Combo

SADES Gaming Keyboard and Mouse Combo Instruction Manual

Model: Gaming Keyboard and Mouse Combo

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your SADES Wired RGB Backlit 104 Keys Gaming Keyboard and Mouse Combo. Please read this manual carefully before use to ensure optimal performance and longevity of your product.

Image: The SADES Gaming Keyboard and Mouse Combo, featuring a full-size keyboard with RGB backlighting and a wired gaming mouse, presented on a mouse pad.

SETUP

The SADES Gaming Keyboard and Mouse Combo is designed for plug-and-play functionality. No additional drivers are typically required for basic operation.

System Requirements

- Operating System: Windows 10, Windows 8, Windows 7, Windows Vista, or Windows XP. Limited Mac OS keyboard support.
- Available USB Port.

Connection Instructions

1. Locate an available USB port on your computer.
2. Plug the USB connector from the keyboard into the USB port.
3. Plug the USB connector from the mouse into another available USB port.
4. Your operating system should automatically detect and install the necessary drivers.
5. The keyboard and mouse are now ready for use.

OPERATING INSTRUCTIONS

Keyboard Functions

Image: Illustration highlighting the FN+WIN key combination, 12 multimedia shortcuts, and 104 anti-ghosting keys on the SADES gaming keyboard.

- **RGB Backlighting:** The keyboard features an ambient LED rainbow backlight with two dynamic modes: pulsating

and steady. Use dedicated keys or key combinations (refer to specific key markings on your keyboard) to switch modes or turn the lighting on/off.

- **Multimedia Keys:** Access 12 multimedia functions using the FN key in combination with F1-F12 keys. These functions are not available on Mac OS.
- **Anti-Ghosting:** The keyboard is equipped with 104 anti-ghosting keys, ensuring accurate registration of multiple simultaneous keystrokes.
- **WIN Key Lock:** Press **FN + WIN** to lock the Windows key, preventing accidental activation of the Start menu during gameplay. Press again to unlock.
- **WSAD Key Swap:** Press **FN + W** to swap the functionality of the WSAD keys with the arrow keys. Press again to revert.

Mouse Functions

- **DPI Settings:** The mouse offers 6 adjustable DPI settings (800/1200/1600/2400/3200/4200). Use the dedicated DPI buttons (usually located below the scroll wheel) to cycle through these settings and adjust cursor sensitivity.

- **Ambient Lighting:** The wired mouse features an ambient light ribbon. The lighting effects are typically pre-programmed and may cycle through colors.
- **Programmable Buttons:** The mouse includes programmable buttons. Configuration of these buttons, DPI, polling rate, and other settings is available only on Windows operating systems.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your SADES Gaming Keyboard and Mouse Combo.

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the keyboard and mouse. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the device.
- **Keycap Care:** The keyboard features UV-coated keycaps for improved fade and scratch resistance. Avoid harsh chemicals or abrasive materials when cleaning.
- **Storage:** When not in use for extended periods, store the combo in a clean, dry environment away from direct

sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your SADES Gaming Keyboard and Mouse Combo, refer to the following common solutions:

- **Device Not Responding:**

- Ensure both the keyboard and mouse USB cables are securely plugged into your computer's USB ports.
- Try plugging the devices into different USB ports.
- Restart your computer.

- **Backlight Not Working:**

- Check if the backlight is turned off using the dedicated lighting control keys on the keyboard.
- Ensure the keyboard is properly connected.

- **Keys Not Registering / Mouse Not Moving:**

- Clean any debris from under the keys or around the mouse sensor.
- Test the devices on another computer to rule out a system-specific issue.

- **Multimedia Keys Not Functioning on Mac OS:**

- Note that multimedia keys are not fully supported on Mac OS.

- **Mouse Programming Not Working:**

- Mouse button programming functionality is available only on Windows operating systems.
