ASVEGE B0CPF78XNF

ASVEGE 10.4 Inch Car Stereo for Maserati GT GranTurismo (2007-2018) User Manual

Model: B0CPF78XNF

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your ASVEGE 10.4 Inch Car Stereo Multimedia Player with GPS Navigation, Carplay, and Android Auto. This unit is designed specifically for Maserati GT GranTurismo models from 2007 to 2018. Please read this manual thoroughly before installation and use to ensure proper functionality and to prevent damage.

SETUP AND INSTALLATION

The ASVEGE car stereo is designed for a plug-and-play installation, supporting factory steering wheel controls, radar parking sensors, and A/C information display. It comes with a dedicated plug-and-play cable and CANbus for seamless integration.

Package Contents

Before beginning installation, verify that all components are present:

- 10.4 Inch Car Stereo Head Unit
- Power Harness with CANbus Decoder
- GPS Antenna
- USB Cables
- RCA Cables (Audio/Video Input/Output)
- External Microphone
- Charging Cable
- Installation Brackets and Screws

Image: Overview of all included components for the ASVEGE car stereo system.

Installation Steps

1. **Preparation:** Ensure the vehicle's ignition is off and the battery is disconnected before starting any electrical work.
2. **Remove Factory Unit:** Carefully remove the existing car stereo and trim panels from your Maserati GT GranTurismo. Refer to your vehicle's service manual for specific instructions on panel removal.
3. **Connect Wiring Harness:** Connect the provided plug-and-play wiring harness to the vehicle's factory harness. Ensure all connections are secure.
4. **Amplifier Connection (Important):** If your Maserati GT GranTurismo is equipped with a factory amplifier, it may require specific wiring adjustments to ensure audio output. In some cases, two blue wires on the harness may need to be cut and spliced to activate the amplifier. If no sound is produced after installation, consult a professional installer or refer to specific online resources for Maserati GT amplifier integration with aftermarket head units. Additional power wiring to the fuse box might be necessary for proper amplifier function.
5. **Connect Peripherals:** Connect the GPS antenna, USB cables, and any other external accessories (e.g., backup camera, external microphone) to the corresponding ports on the new head unit.
6. **Mount Head Unit:** Secure the ASVEGE head unit into the dashboard opening using the provided brackets and screws.
7. **Reassemble:** Reinstall all trim panels and reconnect the vehicle's battery.
8. **Initial Power On:** Turn on the vehicle's ignition and power on the head unit to test functionality.

OPERATING INSTRUCTIONS

Your ASVEGE car stereo runs on Android 12.0, offering a wide range of features and customization options.

Basic Operation

- **Power On/Off:** The unit powers on automatically with the vehicle's ignition. Press and hold the power button (if available) or use the vehicle's ignition to turn off.
- **Touch Screen:** Navigate the interface using the 10.4-inch IPS touch screen.
- **Volume Control:** Adjust volume using the physical buttons on the unit, steering wheel controls, or on-screen controls.

Support Carplay/Android auto

Phone | Music | Maps | Podcasts Make your journey easier and more fun

4G

MAINTENANCE

To ensure the longevity and optimal performance of your ASVEGE car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior surfaces. For stubborn smudges, a slightly damp cloth with a mild, non-abrasive cleaner can be used, but avoid spraying liquids directly onto the unit.
- **Software Updates:** Periodically check for software updates through the system settings or the manufacturer's website to ensure you have the latest features and bug fixes.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Cable Connections:** Periodically check all cable connections to ensure they are secure and free from damage.

TROUBLESHOOTING

If you encounter issues with your ASVEGE car stereo, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Sound Output	Incorrect amplifier wiring; low power to amplifier; volume too low; mute activated.	Verify all audio connections. If your vehicle has a factory amplifier, ensure it is correctly integrated and receiving sufficient power. This may involve splicing specific wires or adding an extra power wire to the fuse box. Check volume levels and ensure the unit is not muted.

Problem	Possible Cause	Solution
Unit Does Not Power On	Loose power connection; blown fuse; vehicle ignition off.	Check power cable connections. Inspect vehicle fuses and the unit's fuse (if accessible). Ensure the vehicle's ignition is on.
GPS Not Working / Inaccurate	GPS antenna not connected; poor signal; outdated maps.	Ensure the GPS antenna is securely connected and placed in a location with a clear view of the sky. Update navigation maps if necessary.
Bluetooth Connectivity Issues	Device not in pairing mode; interference; incorrect pairing process.	Ensure your phone's Bluetooth is on and in pairing mode. Delete previous pairings and try reconnecting. Move closer to the unit to reduce interference.
Touch Screen Unresponsive	Software glitch; screen calibration issue; physical damage.	Restart the unit. If the problem persists, perform a factory reset (refer to system settings). If still unresponsive, contact support.

If you are unable to resolve an issue using the troubleshooting guide, please contact ASVEGE customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Operation System	Android 12.0
CPU	OCTA-Core
