Feonase BED889

Feonase 18" High Queen Size Metal Platform Bed Frame Instruction Manual

Model: BED889

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Ensure proper assembly according to instructions. Improper assembly may lead to instability or collapse.
- Be cautious of weight limits. The bed frame can hold up to **1000 lbs**. Do not exceed this weight capacity.
- The rounded corners are designed for safety. Always be aware of your surroundings to prevent accidental bumps.
- Keep children and pets away from the assembly area.
- Periodically check all bolts and connections to ensure they remain tight.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Hardened Steel Bed Frame components (various parts) x 1
- Installation Manual x 1
- Installation Tools & Accessories (e.g., Hex Wrench, bolts, nuts)

16" Plenty of Room Optimize Your Space

SETUP AND ASSEMBLY

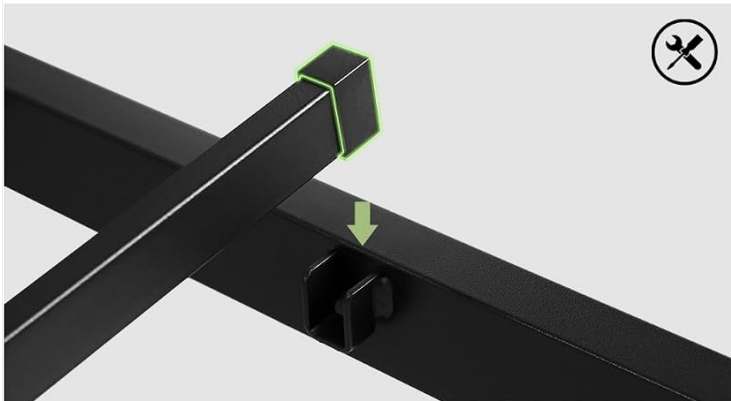

The Feonase platform bed frame is designed for easy assembly, typically taking around 30 minutes with the included tools.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Refer to the parts list in the included manual to identify each component.
2. **Assemble Frame Sections:** Connect the main frame sections using the provided bolts and the hex wrench. Ensure all connections are secure but do not overtighten initially.
3. **Attach Legs:** Securely attach the support legs to the frame. The frame includes 9 heavy-duty legs for robust support.
4. **Install Slats:** Place the 13 high-quality horizontal steel slats across the frame. Ensure each slat is properly seated and secured into its designated slot.
5. **Final Tightening:** Once all components are in place, go back and firmly tighten all bolts and connections. Do

not overtighten to avoid stripping threads.

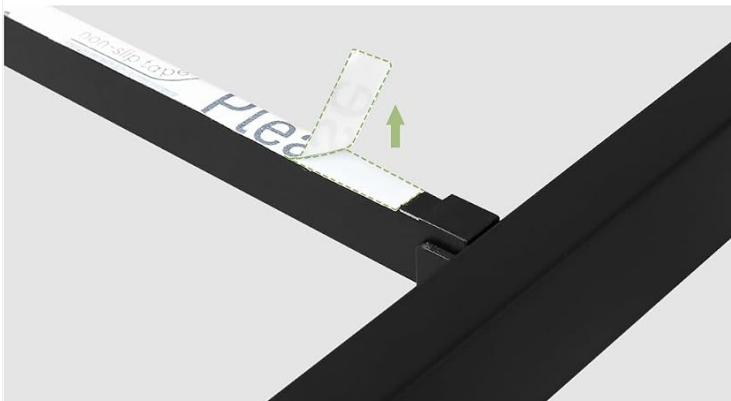

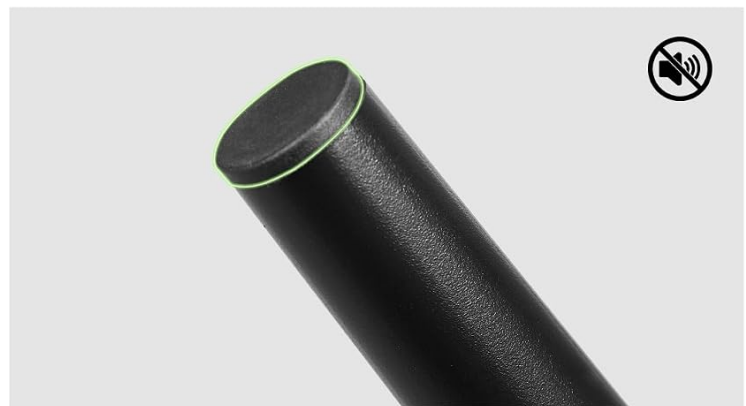

6. **Apply Anti-Slip Tape:** Apply the included anti-slip sticky tape to the top of the slats where the mattress will rest. This helps prevent the mattress from sliding.

OPERATING INSTRUCTIONS

The Feonase platform bed frame is designed for optimal comfort and functionality without the need for a box spring.

- **Mattress Placement:** Place your Queen size mattress directly onto the assembled steel slats. No box spring

is required.

- **Noise Reduction:** The frame features anti-slip strips and anti-slip foot pads designed to minimize noise from friction, ensuring a quiet sleep environment.
- **Under-Bed Storage:** Utilize the generous **18-inch clearance** underneath the bed frame for storage. This space is ideal for storing extra bedding, clothing, or other items, helping to reduce clutter.
- **Safety Design:** The frame incorporates an *in-line design* and *rounded corners* to prevent accidental bumps and enhance safety.

Robust and Long-lasting

Stable Foundation

Strong Leg Support

MAINTENANCE

Regular maintenance helps ensure the longevity and performance of your bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Connection Checks:** Periodically (e.g., every 3-6 months) inspect all bolts and connections. Tighten any loose fasteners to maintain stability and prevent squeaking.
- **Slat Inspection:** Ensure all steel slats remain properly seated and secured. If any slat appears dislodged, reposition it firmly.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Squeaking or Noise	Loose bolts or connections; friction between metal parts; dislodged anti-slip pads.	Tighten all bolts. Ensure anti-slip strips and foot pads are correctly positioned.
Mattress Sliding	Anti-slip tape not applied or worn out; uneven mattress placement.	Ensure anti-slip sticky tape is applied to the slats. Reposition the mattress evenly. Replace worn tape if necessary.
Frame Instability/Wobbling	Incomplete or incorrect assembly; loose connections.	Review assembly instructions and ensure all parts are correctly installed. Firmly tighten all bolts.
Slats Popping Out	Slats not fully seated in their holders; excessive weight or uneven distribution.	Ensure each slat is securely inserted into its designated slot. Distribute weight evenly on the bed. Do not exceed the 1000 lbs weight capacity.

SPECIFICATIONS

Feature	Detail
Model Number	BED889
Size	Queen
Material	Alloy Steel
Color	Black
Product Dimensions (L x W x H)	80" x 60" x 18"
Under-Bed Clearance	18 Inches
Weight Capacity	1000 Pounds
Assembly Required	Yes
Box Spring Needed	No
Special Features	Embedded Design, Hardened Steel Tubes, Heavy Duty Steel Frame, Iron-Art Appearance, Rounded Corners
