## 7. TROUBLESHOOTING

If you encounter any issues with your VTech Marble Rush Game Zone, please refer to the following common troubleshooting tips:

Ensure the marble catapults are properly assembled and clear of any obstructions. Check that marbles are placed correctly in the launcher mechanism before pressing the lever.
- **Pieces not connecting securely:**  
Verify that all building pieces are oriented correctly and aligned with their corresponding slots. Apply firm, even pressure when connecting. Refer to the color-coded assembly guide for assistance with proper alignment.

Ensure the game mat is on a flat, stable surface. Double-check all connections to make sure they are secure. If the track feels wobbly, re-examine the assembly steps for any missed or incorrectly placed pieces.
